

SCHOOL SAFETY

The Board recognizes that effective learning and teaching takes place in a safe, secure, and welcoming environment and that safe schools contribute to improved attendance, increased student achievement and community support. The practice of safety shall be considered a facet of the instructional programming of the District schools by incorporating concepts of safety appropriately geared to students at different grade levels.

The Superintendent shall be responsible for developing and maintaining a comprehensive safety program/plan for the District, taking into account applicable laws, regulations, Board policies, and best practices. **While the comprehensive safety program need not be a single consolidated document**, it should include:

- A. The District-wide Crisis Prevention and Response Plan prepared under policy EBCA, which, in turn, includes the site-specific Emergency Operations Plan for each school (see also RSA 189:64 and policy EBCA);
- B. The Sports Injury Emergency Action Plan prepared under policy JLCJA;
- C. The District Communication Plan; and
- D. The School Bus Safety Program established under policy EEAE.

Additionally, to the extent not included in the above specific Board directed plans, the Superintendent will address the following areas of emphasis in the comprehensive safety plan:

- 1. Procedures that address the supervision and security of school buildings and grounds. See also ECA.

- 8. Training and support for students that aims to relieve the fear, embarrassment, and peer pressure associated with reporting behavior that may indicate impending violence or other safety problems.
- 9. Procedures for safe, confidential reporting of security and safety concerns at each school building.
- 10. Procedures for regular assessments by school security/safety professionals and law enforcement officers to evaluate the security needs of each school building and to provide recommendations for improvements if necessary. See also ECA.

12. Procedures for managing the behavior of children, including, proper training and protocols relative to restraint and seclusions consistent with RSA 126-U and Board policy JKAA.
13. Procedures to provide for regular communications between district officials, law enforcement officers, fire department officials, city and county officials and local medical personnel to discuss crisis prevention and management strategies, including involvement by these parties in the development and revision of Crisis Prevention and Response Plans, and site specific Emergency Response Plans per Board policy EBCA.
14. Training programs for staff and students in safety precautions and procedures related to fire prevention, natural disaster response, accident prevention, public health, traffic, bicycle and pedestrian safety, environmental hazards, civil defense, classroom and occupational safety, and special hazards associated with athletics and other extracurricular activities.
15. District and building level procedures to assure timely safe schools reporting to law enforcement the NH Department of Education and the School Board as required under RSA 193-D:4.

Whenever the Superintendent delegates tasks relating to the above to other District personnel, that delegation should be recorded in a manner readily accessible to others in the instance of the Superintendent's absence or departure.

The Principal shall be responsible for the supervision and implementation of components of the safety programs in his/her school, inclusive of school busses, school grounds (including playgrounds), during authorized school activities (such as field trips), within school building(s) (including classrooms and laboratories), off school grounds during school sanctioned activities (including, but not limited to, work-based learning and internships), and in the use of online resources.
