

Statewide Proficiency/Mastery Examinations (Statewide Summative Assessments)

Annually, each student enrolled in grades three through eight inclusive shall take a mastery examination or examinations that measure essential and grade-appropriate skills in reading, writing or mathematics during the time period specified by the State Department of Education. Students enrolled in grade eleven shall annually take a nationally recognized college readiness assessment approved by the State Board of Education that measures essential and grade appropriate skills in reading, writing and mathematics. (Connecticut SAT School Day in English language arts and math examination.) Each student enrolled in grade five, eight, and eleven shall, annually, during the time period specified by the State Department of Education, take a state-wide mastery examination that measures essential and grade appropriate skills in science (Next Generation Science Standards.) The State Board of Education shall approve the provision and administration of all mastery examinations. All examinations shall take place during the regular school day.

Note: Students in Connecticut participate in the Smarter Balanced Assessments in English, language arts, literacy and mathematics in grades three through eight inclusive. In science, students participate in Next Generation Science Standards (NGSS) assessment.

The District (excludes endowed or incorporated high schools) may not require achievement of a satisfactory score on a mastery examination or any subsequent retest on a component of such examinations as the sole criterion of promotion or graduation.

Special education students shall participate in mastery testing except in the rare case when their Planning and Placement Team determines that participation would be inappropriate and recommends the use of an alternative assessment as specified by the State Board of Education.

All English learners (ELs) including recently arrived, defined as those students whose initial entry date in a U.S. school is less than two years (24 months) prior to test administration, are required to participate in all content areas of the state summative assessment.

All students identified as English Learners (ELs) shall take the LAS Links Assessment. Scores on each component of the mastery examination for English learners who have been enrolled in school in this state or another state for fewer than twenty (20) school months shall not be used for the purposes of calculating the school accountability index as defined in C.G.S. 10-223e.

Scores from year 1 are ready to serve as a baseline for academic growth in year 2. In year 3, the scores of recently arrived ELs will be included toward academic achievement and academic growth indicators in Connecticut's accountability system.

Any alternate assessment, including the Connecticut Alternate Assessment, of students enrolled in special education, shall be available only to those students with significant cognitive disabilities. Students with significant cognitive disabilities in grades three through eight and eleven shall be assessed with the Connecticut Alternative Assessment in English/language arts and mathematics. In science, eligible students with significant cognitive disabilities shall be assessed with the Connecticut Alternate Science Assessment in grades five, eight and eleven.

In compliance with federal law, out-of-level testing is not an option for students enrolled in special education.

The Board of Education recognizes that federal law requires full participation of all students on the state summative assessments, with a minimum standard for the participation rate of at least 95 percent of all students and all student groups for each subject. Further, the Board realizes there are consequences for districts and schools not meeting this participation role threshold on these state summative assessments.
