## [skyrocketing hostility against churches](#)

The Family Research Council found there were 436 hostile incidents against churches in 2023. That is more than double the number the conservative Christian nonprofit tracked in 2022 and more than eight times as many as they found in 2018, when they began tracking these attacks.

['It's God-Glorifying': Signs of Revival Breaking Out at Innovative Christian Night Club in Nashville](#) Night clubs are not often known for their redemptive value, but one faith-based hot spot in Nashville, TN is hoping to change

that.

The Cove is an 18-and-up, pop-up Christian nightclub that was started last year by seven Black Christian men in their twenties who sought to build a thriving community and a welcoming space for young adults outside houses of worship.

"My dream for The Cove is to be an inspiration for revival. I believe that revival starts in yourself personally, and then from there, it spreads. So I want this to spread like a wildfire," Eric Diggs, co-founder of The Cove, said.

American Bible Society to Shut Down Faith and Liberty Disc Center: Over the past decade, the American Bible Society spent nearly \$100 million to build and operate a state-of-the-art interactive museum in Philadelphia that explains the role of the Bible and a Christian worldview in the nation's founding, as well as in the ongoing history of the nation.

# Snake put Power 88 off the air

As many of you may know by now, we have been forced to broadcast from our smaller backup transmitter. This means not only a substantial loss to our coverage area but also a weaker signal in the area that we are still able to cover.

As strange as it may sound, our larger main transmitter was completely taken out by a serpent. Yes, a serpent. A snake somehow found its way into our transmitter building and into the transmitter cabinet before finding its demise. Unfortunately, it also caused the complete demise of our transmitter. For over five weeks now, we have had engineers and Harris/Gates technicians attempting to repair our damaged transmitter but have had little to no success. We have replaced the main tube, a number of other components and practically the entire wiring system. But, it is still out of service.

So given the situation and the age of the transmitter, our only other logical option is to replace the damaged transmitter with a newer solid-state transmitter.

This is where you come in. As our supporters, donors, underwriters and prayer warriors, we could definitely use you now. We would ask that you prayerfully consider making a special donation towards this project. Not as your normal contribution but one as God lays on your heart to help us during this time of need. This is a costly endeavor but it is one that we are forced to make.

So, even if it is not within your means to contribute at this time, we do ask that you please continue to keep us in your thoughts and prayers. We also ask that you bear with us as we continue to work through this project during the coming weeks.
