Welcome Back Falcons!

Meet and Greet Recap

It was great seeing all of our NES students and families during our Meet and Greet on July 28, 2022. This year, we also welcomed some new students and teachers to our school! We're so excited to see some new and returning faces to NES. Students met their new teachers and learned about changes for the upcoming school year, bus routes, and our after-school programs. Please enjoy the photos below and on ClassDojo from our event!

Counselor's Corner

The Power of Yet!

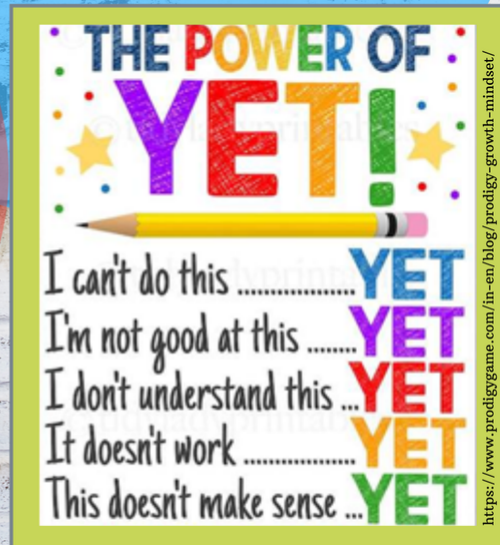

counselor's corner

-Ms. Martin
NES School Counselor

Parents,

Talk to your child about the importance of trying their best in school. Here are some statements to help your child understand they are always capable of learning something new, even though it seems difficult:

- Mistakes allow me to learn.
- I don't understand this, YET!
- When I struggle, my brain grows.
- I can do hard things.

ARE YOU READY?

Distance Learning Day

Offline File Access

Do you have students who may not have internet access? Did you know that Chromebooks offer offline file access? This is a great way to ensure students can access Google documents even if they do not have access to the internet. We HIGHLY recommend that students who need to use this feature verify any files they need are available for offline access. You can easily walk the entire class through this check in just a couple of minutes. Please see our video [HERE](#) to learn all about this awesome feature!

Digital Choice Boards

Need an idea for how to organize learning on Distance Learning Day!? Check out this [Digital Choice Board](#).

Troubleshooting Chromebooks

Don't let your students tell you their devices weren't working on the Distance Learning Day (or any other day for that matter). There are several simple troubleshooting steps that students can follow on their own! Most problems are solved with nothing more than a restart. For more advanced issues, a Powerwash may be needed. Please see our documentation [HERE](#) on how to complete these simple tasks. Still not working? Then follow your school's procedures for reporting Chromebook issues. For more information about 1:1, please visit our site by either clicking on our logo in the SSO portal, or you can directly access our 1:1 page [HERE](#).

A Message from CIS

It has been so awesome getting out and meeting everyone during our Technology Refreshers this month. Thank you everyone for being so welcoming and participating in these informative sessions. We plan to be around your schools a lot this year, but don't wait for us! Please reach out to us and we will come meet with you. We are available to support both groups and individuals, so whatever works best for you, we can accommodate. You want a demo lesson? A training session? Just need to bounce ideas on how to best integrate technology into your classroom? We are only an email away! Email all of us at CIS@hcbe.net or feel free to email your school's CIS directly.
