Terry made a motion to hire McKinstry as recommended by superintendent Patterson. Motion was seconded by Wilfred. Motion carried 4/0

Superintendent Report

Main Entrance

Installation of new drop ceiling and ceiling tile in the main entrance and Science room is nearly complete as well as Science room door installation. New cabinets & shelving are currently being installed in the converted science storage room. Interior work should wrap up in the next three weeks, with the exception of entryway doors, and transition back to exterior work as the weather begins to warm. We are currently still on pace to meet our August 1st goal for project completion.

Library (7-12)

According to our Interior Designer, the new library cabinets and shelving should be ready for installation by the end of May or early June. This could push project completion back a few weeks from the original project completion goal of June 1st. The drop ceiling in the space has been fixed and new, hardier ceiling tiles have been added throughout.

School vehicle Dodge Ram Truck

Henry was involved in a two-vehicle accident while conducting District business and driving the District's Dodge Ram truck. The other party involved in the accident is one of our high school students. No major injuries were sustained by either party. Law enforcement determined that Henry was at fault for the accident. We have reported this information to the District's insurance agent and have received two bids for repair of the Dodge Ram truck. Both bids were very close in terms of repair cost; roughly \$4,800 and \$4,900 respectively. The truck will be scheduled for repairs as soon as possible.

Football field lights

Sheridan Electric has received payment for the \$48,803.55 worth of acquired materials for the project. There is no outstanding balance at this time.
