

North Wildwood
Board of Education
Strategic Planning
Final Delivery

Facilitated by Michelle Kennedy, NJSBA Field Services

Purpose of Strategic Planning

To create a district-wide ***vision*** that will direct, motivate, and inspire all members of the school community to work together to elevate student achievement.

North Wildwood Mission Statement & Our Beliefs

Mission Statement

In a society that is dependent on information and knowledge, equitable and universal access to technology is essential to the learning process. With the guidance of skilled educators and community members, all students will have the opportunity to become actively engaged in the learning process as they think, create, inquire, solve problems and communicate in collaborative and interdisciplinary environments. Students will emerge as lifelong learners, productive members of the workforce and citizens that can contribute to society.

Our Beliefs

- The school of tomorrow will not be bound by walls or limited to a standard school day
- The community of tomorrow will be one of continuous learning
- Information and communication are essential tools for the process of improving our curriculum
- Using technology ethically and appropriately, students can support their own learning by communicating with professionals and students from around the world
- With increasing global information, students must be able to scrutinize for information validity
- Suggested applications to incorporate effective technology use should be modeled by teachers in the classroom
- Effective student assessment is an integral part of strong teaching methods
- In collaboration with the other school districts of Cape May County, we are committed to maintaining the high standard of technology-infused curricula that has been established through the years of partnership, cooperation, and implementation of a shared educational vision.

Holistic Student Approach

Goal Statement

North Wildwood School District will develop and elaborate the student health and wellness while improving life skills for the student's holistic approach that promotes lifelong learning.

Objectives:

1. Provision of a wellness center to include nutrition, mental health, and medications.
2. Improvement of after school clubs, enrichment programs, and expansion of extracurricular activities.
3. Educational field trips to promote strong connections with natural local resources.
4. Create life skill partnerships with the community for job placement and career experience choices.

Mental Health and Wellness

Goal Statement

To facilitate a safe and secure learning environment by providing support to accommodate mental health and wellness issues of students and staff.

Objectives:

1. Upgrade facilities to provide a physical “help” center within the building and establish staff to maintain it.
2. Establish an infrastructure for students, families, and staff to report issues in need of help (similar to a 911 type of reporting system), mental health first responders.
3. Assemblies/programs that would address physical and mental health issues in an interactive or fun way.
4. Monthly after school meetings (club) that are interactive and educational that would address any wellness needs (hygiene, healthy foods, physical fitness, mental health, digital responsibility).

Community

Goal Statement

To increase involvement with the community to inspire students to become responsible citizens.

Objectives:

1. Create productive citizens through school-wide community service projects.
2. Expanded interaction between the island schools.
3. To support local businesses and community organizations.
4. Inspire community outreach by connecting local businesses/jobs with job seekers.
