Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Vallecitos School District (District), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Vallecitos School District as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information as identified in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying supplementary information identified in the table of contents, as required by the *2019-20 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, prescribed in Title 5, *California Code of Regulations, Section 19810* is presented for purposes of additional analysis and is not a required part of the financial statements.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated February 26, 2021, on our consideration of Vallecitos School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

VALLECITOS SCHOOL DISTRICT
MANAGEMENT’S DISCUSSION AND ANALYSIS
(Unaudited)
June 30, 2020

As management of the Vallecitos School District (the District), we offer readers of the District’s financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2020. We encourage readers to consider the information presented here in conjunction with the District’s basic financial statements, which begin immediately following this analysis. This annual financial report consists of two main parts (1) Management’s Discussion and Analysis, (2) Basic Financial Statements, followed by Required Supplementary Information.

These financial statements consist of a series of financial statements prepared in accordance with the Governmental Accounting Standards Board Statement No. 34. *Basic Financial Statements – Management Discussion and Analysis for the State and Local Governments.*

FINANCIAL HIGHLIGHTS

- The change in net position for the year was an increase of \$137,640.
- The District had an excess (deficiency) of revenue over (under) expenditures in the General Fund (before transfers) in the amount of (\$44,437) in the current year compared \$16,999 in the previous year.
- This year the District had additions to capital assets of \$336,805.

OVERVIEW OF FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District’s basic financial statements.

Basic Financial Statements

The basic financial statements include government-wide financial statements and fund statements. The two sets of statements are tied together by reconciliation showing why they differ.

The District as a whole is reported in the government-wide statements and uses accounting methods similar to those used by companies in the private sector.

OVERVIEW OF FINANCIAL STATEMENTS (continued)

Basic Financial Statements (continued)

More detailed information about the District's most significant funds, not the District as a whole, is provided in the fund financial statements. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

The *Statement of Net Position*, a government-wide statement, presents information on all of the District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *Statement of Activities*, a government-wide statement, presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The *Balance Sheet* for governmental funds presents financial information by fund types showing money left at year-end available for spending.

The *Statement of Revenues, Expenditures and Changes in Fund Balances* for all governmental fund types focuses on how money flows into and out of the various funds.

The *Notes to the Basic Financial Statements* are included to provide more detailed data and explain some of the information in the statements.

The *Required Supplementary Information* provides a budgetary comparison of each major fund and the schedules relating to the net pension liabilities.

The *Supplementary Information* gives an overview of the operations of the District, governing body and budgetary comparisons of the non-major funds.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Statement of Net Position

To begin our analysis, a summary of the District’s Statement of Net Position is presented in Table 1 below for the current year and the prior year.

Net position may serve over time, as a useful indicator of a government’s financial position. In the case of the District, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$1,216,596 as of June 30, 2020.

A large portion of the District’s net position reflects its investment in capital assets (e.g., land and improvements, buildings and improvements, vehicles, furniture, and equipment.); less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to its constituents; consequently, these assets are not available for future spending.

The District’s financial position is the product of several financial transactions including the net results of activities, the acquisition and disposal of capital assets, and the depreciation of capital assets.

FACTORS BEARING ON THE DISTRICT’S FUTURE

The District’s outlook for future years is tied to growth and the Local Control Funding Formula (LCFF) allocation. As with many other districts, the District is facing the challenge of covering step and column increases in employee salaries as well as increases in STRS and PERS contribution rates, along with other fixed costs. Another area of challenge will be continued and increasing facilities maintenance and repair needs due to the age of the district buildings and equipment. Additionally, facing the issue of potential decreasing ADA due to the pandemic impact, the District continues to closely monitor student enrollment and attendance.

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of
Governmental Funds to the Statement of Activities
For the Year Ended June 30, 2020

Total change in fund balances, governmental funds: \$ (64,652)

Amounts reported for governmental activities in the statement of activities are different from amounts reported in governmental funds because:

Capital outlay: In governmental funds, the costs of capital assets are reported as expenditures in the period when the assets are acquired. In the statement of activities, costs of capital assets are allocated over their estimated useful lives as depreciation expense. The difference between capital outlay expenditures and depreciation expense for the period is:

Expenditures for capital outlay	336,803	
Depreciation expense	<u>(77,425)</u>	
Net		259,378

Pensions: In governmental funds, pension costs are recognized when employer contributions are made. In the statement of activities, pension costs are recognized on the accrual basis. This year, the difference between accrual-basis pension costs and actual employer contributions was:

(57,086)

Change in net position of governmental activities: \$ 137,640

Notes to the Financial Statements

For the Year Ended June 30, 2020

A. Summary of Significant Accounting Policies

Vallecitos School District (District) accounts for its financial transactions in accordance with the policies and procedures of the California Department of Education's *California School Accounting Manual*. The accounting policies of the District conform to accounting principles generally accepted in the United States of America (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB) and the American Institute of Certified Public Accountants (AICPA).

1. Reporting Entity

The District operates under a locally elected Board of Education form of government and provides educational services to grades K-8 as mandated by the state. A reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure the financial statements are not misleading. The primary government of the District consists of all funds, departments and agencies that are not legally separate from the District. For the District, this includes general operations, capital facilities funds, debt service funds, and student-related activities.

2. Component Units

Component units are legally separate organizations for which the District is financially accountable. Component units may also include organizations that are fiscally dependent on the District in that the District approves their budget, the issuance of their debt or the levying of their taxes. In addition, component units are other legally separate organizations for which the District is not financially accountable but the nature and significance of the organization's relationship with the District is such that exclusion would cause the District's financial statements to be misleading or incomplete.

Based on the criteria in GASB Statements 14 as amended by Statements 39 and 61, the District has no component units. Additionally, the District is not a component unit of any other reporting entity as defined by the GASB statements.

3. Basis of Presentation

Government-Wide Statements. The statement of net position and the statement of activities display information about the primary government (the District). These statements include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenue, and other non-exchange transactions.

The statement of activities presents a comparison between direct expenses and program revenue for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expense allocations that have been made in the funds have been reserved for the statement of activities. Program revenues include charges paid by the recipients of the goods or services offered by the programs and grants and contributions that are restricted to meeting of operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues. The comparison of program revenues and expenses identifies the extent to which each program or business segment is self-financing or draws from general revenues of the District.

Fund Financial Statements. The fund financial statements provide information about the District's funds, including its fiduciary funds. Separate statements for each fund category – governmental and fiduciary – are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as non-major funds.

Governmental funds are used to account for activities that are governmental in nature. Governmental activities are typically tax-supported and include education of pupils, operation of food service programs, construction and maintenance of school facilities, and repayment of long-term debt.

Fiduciary funds are used to account for assets held by the District in a trustee or agency capacity for others that cannot be used to support the District's own programs.

Major Governmental Funds

The District reports the following major governmental funds:

General Fund: The general fund is the primary operating fund of the District. It is used to account for all activities except those that are required to be accounted for in another fund.

County School Facilities Fund: This fund is established pursuant to *Education Code §17070.43* to receive apportionments from the 1998 State School Facilities Fund (Proposition 1A), the 2002 State School Facilities Fund (Proposition 47), the 2004 State School Facilities Fund (Proposition 55), the 2006 State School Facilities Fund (Proposition 1D) or the 2016 State School Facilities Fund (Proposition 51). The fund is used primarily to account for new school facility construction, modernization projects, and facility hardship grants as provided in the Leroy F. Green School Facilities Act of 1998 (*Education Code §17070.10 et seq.*).

Nonmajor Governmental Funds

Special Revenue Funds: Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects. The District maintains the following nonmajor special revenue funds:

Child Development Fund: This fund is used to account separately for federal, state, and local revenues to operate child development programs.

Vallecitos School District

Notes to the Financial Statements, Continued

June 30, 2020

Capital Projects Funds: Capital projects funds are established to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds and trust funds). The District maintains the following nonmajor capital projects funds:

Capital Facilities Fund: The Capital Facilities Fund is used primarily to account separately for moneys received from fees levied on developers or other agencies as a condition of approving a development (*Education Code §17620 through §17626*). The authority for these levies may be county or city ordinances (*Government Code §65970 through §65981*) or private agreements between the District and the developer. All funds, including interest earned, are restricted to the purposes specified in *Government Code §65970 through §65981* or *Government Code §65995*, or items specified in agreements with the developer (*Government Code §66006*).

Fiduciary Funds

Trust and Agency Funds: Trust and agency funds are used to account for assets held in a trustee or agent capacity for others that cannot be used to support the District's own programs. The key distinction between trust and agency funds is that trust funds are subject to a trust agreement that affects the degree of management involvement and the length of time that the resources are held. The District maintains the following agency fund:

Student Body Fund: The student body fund is an agency fund, and therefore, consists only of accounts such as cash and balancing liability accounts, such as due to student groups. The student body itself maintains its own general fund, which accounts for the transactions of that entity in raising and expending money to promote the general welfare, morale, and educational experiences of the student body (*Education Code §48930 through §48938*).

4. Basis of Accounting – Measurement Focus

Government-Wide and Fiduciary Financial Statements. The government-wide and fiduciary fund financial statements are reported using the economic resources measurement focus. The government-wide and fiduciary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

Vallecitos School District

Notes to the Financial Statements, Continued

June 30, 2020

Governmental Fund Financial Statements. The governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year-end. Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the susceptible-to-accrual concept. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds from general long-term debt and acquisitions under capital leases are reported as other financing sources.

When the District incurs an expenditure or expense for which both restricted and unrestricted resources may be used, it is the District's policy to use restricted resources first, then unrestricted resources.

5. Encumbrances

Encumbrance accounting is used in all budgeted funds to reserve portions of applicable appropriations for which commitments have been made. Encumbrances are recorded for purchase orders, contracts, and other commitments when they are written. Encumbrances are liquidated when the commitments are paid or at year end, whichever is sooner.

6. Budgets and Budgetary Accounting

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. By state law, the District's governing board must adopt a final budget no later than July 1st. A public hearing must be conducted to receive comments prior to adoption. The District's governing board has satisfied these requirements.

These budgets are revised by the District's governing board and district superintendent during the year to give consideration to unanticipated income and expenditures.

Formal budgetary integration was used as a management control device during the year for all budgeted funds. The District employs budget control by minor object and by individual appropriation accounts.

7. Revenues and Expenses

a. Revenues – Exchange and Non-Exchange

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current year or expected to be collected soon enough thereafter, to be used to pay liabilities of the current fiscal year. Generally, available is defined as collectible within 60 days. However, to achieve comparability of reporting among California districts and so as to not distort normal revenue patterns, with specific respect to reimbursement grants and corrections to State-aid apportionments, the California Department of Education has defined available for districts as collectible within one year. The following revenue sources are considered to be both measurable and available at fiscal year-end: State apportionments, property taxes, interest, certain grants, and other local sources.

Non-exchange transactions are transactions in which the District receives value without directly giving equal value in return, including property taxes, certain grants, entitlements, and donations. Revenue from property taxes is recognized in the fiscal year in which the taxes are received. Revenue from certain grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include time and purpose restrictions. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

b. Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable, and typically paid within 90 days. Principal and interest on long-term obligations, which has not matured, are recognized when paid in the governmental funds as expenditures. Allocations of costs, such as depreciation and amortization, are not recognized in the governmental funds but are recognized in the government-wide financial statements.

8. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, Fund Balance and Net Position

a. Deposits and Investments

Cash balances held in banks and in revolving funds are insured to \$250,000 by the Federal Depository Insurance Corporation (FDIC). All cash held by the financial institutions is fully insured or collateralized. For purposes of the statement of cash flows, highly liquid investments are considered to be cash equivalents if they have a maturity of three months or less when purchased.

Vallecitos School District

Notes to the Financial Statements, Continued

June 30, 2020

In accordance with Education Code §41001, the District maintains substantially all its cash in the San Diego County Treasury. The county pools these funds with those of other districts in the county and invests the cash. These pooled funds are carried at cost, which approximates market value. Interest earned is deposited quarterly into participating funds, except for the Tax Override Funds, in which interest earned is credited to the general fund. Any investment losses are proportionately shared by all funds in the pool.

The county is authorized to deposit cash and invest excess funds by California Government Code §53648 et seq. The funds maintained by the county are either secured by federal depository insurance or are collateralized.

Information regarding the amount of dollars invested in derivatives with San Diego County Treasury was not available.

b. Stores Inventories and Prepaid Expenditures

Inventories are recorded using the purchases method in that the cost is recorded as an expenditure at the time individual inventory items are purchased. Inventories are valued using the first-in/first-out (FIFO) method and consist of expendable supplies held for consumption. Reported inventories are equally offset by a non-spendable fund balance designation, which indicates that these amounts are not “available for appropriation and expenditure” even though they are a component of net current assets.

The District has the option of reporting an expenditure in governmental funds for prepaid items either when purchased or during the benefiting period. The District has chosen to report the expenditures during the benefiting period.

c. Capital Assets

Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets are recorded at their estimated fair value at the date of the donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets’ lives are not capitalized. A capitalization threshold of \$5,000 is used.

Capital assets are being depreciated using the straight-line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Life</u>
Buildings & Improvements	20 - 50 Years
Land Improvements	10 - 25 Years
Equipment	5 - 15 Years

Vallecitos School District

d. Compensated Absences

Accumulated unpaid employee vacation benefits are recognized as liabilities of the District. The balance of the liabilities is recognized in the government-wide financial statements at year end.

Accumulated sick leave benefits are not recognized as liabilities of the District. The District's policy is to record sick leave as an operating expense in the period taken since such benefits do not vest nor is payment probable; however, unused sick leave is added to the creditable service period for calculation of retirement benefits when the employee retires.

e. Unearned Revenue

Unearned revenue arises when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period or when resources are received by the District prior to the occurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the liability for unearned revenue is removed from the combined balance sheet and revenue is recognized.

f. Interfund Activity

Interfund activity results from loans, services provided, reimbursements or transfers between funds. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures or expenses. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers in and Transfers Out are netted and presented as a single "Transfers" line on the government-wide statement of activities. Similarly, interfund receivables and payables are netted and presented as a single "Internal Balances" line of the government-wide statement of net position.

g. Fund Balances – Governmental Funds

Fund balances of the governmental funds are classified as follows:

Nonspendable Fund Balance represents amounts that cannot be spent because they are either not spendable form (such as inventory or prepaid items) or legally required to remain intact (such as revolving cash accounts or principal of a permanent fund).

Restricted Fund Balance represents amounts that are subject to externally imposed and legally enforceable constraints. Such constraints may be imposed by creditors, grantors, contributors, or laws or regulations, or may be imposed by law through constitutional provisions or enabling legislation.

Vallecitos School District

Notes to the Financial Statements, Continued

June 30, 2020

Committed Fund Balance represents amounts that can only be used for a specific purpose because of a formal action by the District's governing board. Committed amounts cannot be used for any other purpose unless the governing board removes those constraints by taking the same type of formal action. Committed fund balance amounts may be used for other purposes with appropriate due process by the governing board. Commitments are typically done through adoption and amendment of the budget or resolution. Committed fund balance amounts differ from restricted balances in that the constraints on their use do not come from outside parties, constitutional provisions, or enabling legislation.

Assigned Fund Balance represents amounts which the District intends to use for a specific purpose, but that do not meet the criteria to be classified as restricted or committed. Intent may be stipulated by the governing board or by an official or body to which the governing board delegates the authority. Specific amounts that are not restricted or committed in a special revenue, capital projects, debt service, or permanent fund are assigned for purposes in accordance with the nature of their fund type or the fund's primary purpose. Assignments within the general fund convey that the intended use of those amounts is for a specific purpose that is narrower than the general purposes of the District itself.

Unassigned Fund Balance represents amounts which are unconstrained in that they may be spent for any purpose. Only the general fund reports a positive unassigned fund balance. Other governmental funds might report a negative balance in this classification because of overspending for specific purposes for which amounts had been restricted, committed or assigned.

When an expenditure is incurred for a purpose for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds.

h. Minimum Fund Balance Policy

The District maintains a minimum reserve, within the general fund, of at least 5%. The minimum reserve shall apply towards the established minimum Reserve for Economic Uncertainties or an amount that meets or exceeds the requirements by law. The District is committed to maintaining a prudent level of financial resources to protect against the need to reduce service levels because of temporary revenue shortfalls or unpredicted expenditures. Because amounts in the nonspendable, restricted, committed, and assigned categories are subject varying constraints in use, the Reserve for Economic Uncertainties consists of balances that are otherwise unassigned.

i. GASB 54 Fund Presentation

GASB Statement No. 54 defines a special revenue fund as a fund that has a special revenue source that is either restricted or committed to the financing of particular activities, that compose a substantial portion of the inflows of the fund, and that are reasonably expected to continue. The Special Reserve Fund for Other than Capital Outlay (Fund 17) does not have continuing revenue sources that are either restricted or committed in nature. As such this fund does not meet the definition of special revenue funds under the provisions of GASB Statement No. 54. The fund has been combined with the general fund for reporting purposes.

Vallecitos School District

Notes to the Financial Statements, Continued

June 30, 2020

j. Deferred Inflows and Deferred Outflows of Resources

Deferred outflows of resources is a consumption of net position that is applicable to a future reporting period. Deferred inflows of resources is an acquisition of net position that is applicable to a future reporting period. Deferred outflows of resources and deferred inflows of resources are recorded in accordance with GASB Statement numbers 63 and 65.

k. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources relating to pension, deferred inflows of resources relating to pension, and pension expense, information about the fiduciary net position of the CalPERS Schools Pool Cost-Sharing Multiple-Employer Plan (CalPERS Plan) and CalSTRS Schools Pool Cost-Sharing Multiple Employer Plan (CalSTRS Plan), and additions to/deductions from the CalPERS Plan and CalSTRS Plan fiduciary net positions have been determined on the same basis as they are reported by the CalPERS Financial Office and CalSTRS Financial Office. For this purpose, benefit payments (including refunds of employee contributions) are recognized when currently due and payable in accordance with the benefit terms. Investments are reported at fair value.

Generally accepted accounting principles require that the reported results must pertain to liability and asset information within certain timeframes. For this report, the following time frames are used:

Valuation Date	June 30, 2018
Measurement Date	June 30, 2019
Measurement Period	July 1, 2018 to June 30, 2019

9. Property Taxes

Secured property taxes attach as an enforceable lien on property as of January 1. Taxes are payable in two installments on November 1 and February 1 and become delinquent on December 10 and April 10, respectively. Unsecured property taxes are payable in one installment on or before August 31. The County Auditor-Controller bills and collects the taxes on behalf of the District. Local property tax revenues are recorded when received.

10. Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Vallecitos School District

11. Fair Value Measurements

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles as defined by Governmental Accounting Standards Board (GASB) Statement No. 72. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. The hierarchy is detailed as follows:

- | | |
|-----------------|--|
| Level 1 Inputs: | Quoted prices (unadjusted) in active markets for identical assets or liabilities that a government can access at the measurement date. |
| Level 2 Inputs: | Inputs other than quoted prices included within Level 1 that are observable for an asset or liability, either directly or indirectly. |
| Level 3 Inputs: | Unobservable inputs to an asset or liability. |

12. New Accounting Pronouncements

The District has adopted accounting policies compliant with new pronouncements issued by the Government Accounting Standards Board (GASB) that are effective for the fiscal year ended June 30, 2020. Those newly implemented pronouncements are as follows:

GASB Statement No. 95 – Postponement of the Effective Dates of Certain Authoritative Guidance

The primary objective of this Statement is to provide temporary relief to governments and other stakeholders in light of the COVID-19 pandemic. That objective is accomplished by postponing the effective dates of certain provisions in Statements and Implementation Guides that first became effective or are scheduled to become effective for periods beginning after June 15, 2018 and later.

The effective dates of certain provisions contained in the following pronouncements are postponed by one year:

- Statement No. 83, Certain Asset Retirement Obligations
- Statement No. 84, Fiduciary Activities
- Statement No. 88, Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements
- Statement No. 89, Accounting for Interest Cost Incurred Before the End of a Construction Period
- Statement No. 90, Majority Equity Interests
- Statement No. 91, Conduit Debt Obligations
- Statement No. 92, Omnibus 2020
- Statement No. 93, Replacement of Interbank Offered Rates
- Implementation Guide No. 2017-3, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions (and Certain Issues Related to OPEB Plan Reporting)
- Implementation Guide No. 2018-1, Implementation Guidance Update – 2018
- Implementation Guide No. 2019-1, Implementation Guidance Update – 2019
- Implementation Guide No. 2019-2, Fiduciary Activities

Vallecitos School District

Notes to the Financial Statements, Continued

June 30, 2020

The effective dates of the following pronouncements are postponed by 18 months:

- Statement No. 87, Leases
- Implementation Guide No. 2019-3, Leases

There have been no adjustments to the financial statements or note disclosures as a result of adoption of the accounting policies.

B. Compliance and Accountability

1. Finance Related Legal and Contractual Provisions

In accordance with GASB Statement No. 38, “Certain Financial Statement Note Disclosures”, violations of finance-related legal and contractual provisions, if any are reported below, along with actions taken to address such violations:

<u>Violation</u>	<u>Action Taken</u>
None Reported	Not Applicable

2. Deficit Fund Balance or Fund Net Position of Individual Funds

The following funds are funds having deficit fund balances or fund net position at year end, if any, along with remarks which address such deficits:

<u>Fund Name</u>	<u>Deficit Amount</u>	<u>Remarks</u>
None	Not Applicable	Not Applicable

C. Fair Value Measurements

The District’s investments at June 30, 2020, categorized within the fair value hierarchy established by generally accepted accounting principles, were as follows:

	Amount	Fair Value Measurement Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
External investment pools measured at fair value				
San Diego County Treasury	\$ 2,013,740	\$ -	\$ 2,013,740	\$ -
Total investments by fair value level	\$ 2,013,740	\$ -	\$ 2,013,740	\$ -

The District is considered to be an involuntary participant in an external investment pool as the District is required to deposit all receipts and collections of monies with their County Treasurer (Education Code §41001). The fair value of the District’s investments in the pool is reported in the accounting financial statements as amounts based upon the District’s pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of the portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

The San Diego County Treasury is not registered with the Securities and Exchange Commission (SEC) as an investment company; however, the County Treasury acts in accordance with investment policies monitored by a Treasury Oversight Committee consisting of members appointed by participants in the investment pool and up to five members of the public having expertise, or an academic background in, public finance. In addition, the County Treasury is audited annually by an independent auditor.

D. Cash and Investments

1. Cash in County Treasury

In accordance with Education Code §41001, the District maintains substantially all of its cash in the San Diego County Treasury as part of the common investment pool (\$2,013,740 as of June 30, 2020). The fair value of the District’s portion of this pool as of that date, as provided by the pool sponsor, was \$2,013,740. Assumptions made in determining the fair value of the pooled investment portfolios are available from the County Treasurer.

2. Cash on Hand, In Banks, and in Revolving Fund

Cash balances on hand and in banks (\$6,138 as of June 30, 2020) and in revolving fund (\$5,000 as of June 30, 2020) are insured up to \$250,000 by the Federal Depository Insurance Corporation (FDIC).

3. Investments Authorized by the California Government Code and the District's Investment Policy

The table below identifies the investment types that are authorized for the District by the California Government Code (or the District's investment policy, where more restrictive). The table also identifies certain provisions of the California Government Code (or the District's investment policy where more restrictive) that address interest rate risk, credit risk, and concentration of credit risk. This table does not address investments of debt proceeds held by bond trustee that are governed by the provisions of debt agreements of the District, rather than the general provisions of the California Government Code or the District's investment policy.

4. Analysis of Specific Deposit and Investment Risks

GASB Statement No. 40 requires a determination as to whether the District was exposed to the following specific investment risks at year end and if so, the reporting of certain related disclosures:

a. Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The county treasury is restricted by Government Code §53635 pursuant to §53601 to invest only in time deposits, U.S. government securities, state registered warrants, notes or bonds, State Treasurer's investment pool, bankers' acceptances, commercial paper, negotiable certificates of deposit, and repurchase or reverse repurchase agreements. The ratings of securities by nationally recognized rating agencies are designed to give an indication of risk.

At June 30, 2020, credit risk for the District's investments was as follows:

<u>Investment Type</u>	<u>Rating</u>	<u>Rating Agency</u>	<u>Amount</u>
County Treasurer's Investment Pool	Unrated	Not Applicable	\$ 2,013,740

b. Custodial Credit Risk

Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the District's name. The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits, other than the following provision for deposits: The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits.

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by either the counterparty or the counterparty's trust department or agent but not in the District's name.

At June 30, 2020, the District's bank balances, including revolving cash, did not exceed FDIC insurance limitations and as such were not exposed to custodial credit risk.

c. Concentration of Credit Risk

This risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The investment policy of the District contains no limitations on the amount that can be invested in any one issuer beyond the amount stipulated by the California Government Code. Investments in any one issuer that represent five percent or more of the total investments are either an external investment pool and are therefore exempt. As such, the District was not exposed to concentration of credit risk.

d. Interest Rate Risk

This is the risk that changes in interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District maintains pooled investments with the San Diego County Treasury with a fair value of \$2,013,740. The average weighted maturity for this pool was 516 days at June 30, 2020.

e. Foreign Currency Risk

This is the risk that exchange rates will adversely affect the fair value of an investment. At year end, the District was not exposed to foreign currency risk.

5. Investment Accounting Policy

The District is required by GASB Statement No. 31 to disclose its policy for determining which investments, if any, are reported at amortized cost. The District's general policy is to report money market investments and short-term participating interest-earning investment contracts at amortized cost and to report nonparticipating interest-earning investment contracts using a cost-based measure. However, if the fair value of an investment is significantly affected by the impairment of the credit standing of the issuer or by other factors, it is reported at fair value. All other investments are reported at fair value unless a legal contract exists which guarantees a higher value. The term "short-term" refers to investments which have a remaining term of one year or less at time of purchase. The term "nonparticipating" means that the investment's value does not vary with market interest rate changes. Nonnegotiable certificates of deposit are examples of nonparticipating interest-earning investment contracts.

The District's investments in external investment pools are reported at an amount determined by the fair value per share of the pool's underlying portfolio, unless the pool is a 2a7-like, in which case they are reported at share value. A 2a7-like pool is one which is not registered with the Securities and Exchange Commission (SEC) as an investment company, but nevertheless has a policy that it will, and does, operate in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940.

L. Pension Plans

1. General Information about the Pension Plans

a. Plan Descriptions

Qualified employees are covered under multiple-employer defined benefit pension plans maintained by agencies of the State of California. Certificated employees are members of the California State Teachers' Retirement System (CalSTRS) and classified employees are members of the California Public Employees' Retirement System (CalPERS). Benefit provisions under the Plans are established by State statute and Local Government resolution. Support by the State for the CalSTRS plan is such that the plan has a special funding situation as defined by GASB Statement No. 68. CalSTRS and CalPERS issue publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on their respective websites.

b. Benefits Paid

CalSTRS and CalPERS provide service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members. Benefits are based on years of credited service, equal to one year of full-time employment. Members with five years of total service are eligible to retire at 62 for normal benefits or at age 55 with statutorily reduced benefits. Employees hired prior to January 1, 2013 are eligible to retire at age 60 for normal benefits or at age 55 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 10 years of service. All members are eligible for death benefits after one year of total service.

The Plan's provisions and benefits in effect at June 30, 2020 are summarized as follows:

	CalSTRS	
	Before Jan. 1, 2013	After Jan. 1, 2013

c. Contributions

CalSTRS

For the fiscal year ended June 30, 2020 (measurement date June 30, 2019), California Education Code §22950 requires members to contribute monthly to the system 10.205% (if hired on or after January 1, 2013) or 10.25% (if hired before January 1, 2013) of the creditable compensation upon which members' contributions under this part are based. In addition, the employer required rates established by the CalSTRS board have been established at 17.10% of creditable compensation for the fiscal year ended June 30, 2020. Rates are defined in Education Code §22950.5 through the fiscal year ending June 30, 2021. Beginning in the fiscal year ending on June 30, 2022 and for each fiscal year thereafter, the CalSTRS Board has the authority to increase or decrease percentages paid specific to reflect the contribution required to eliminate by June 30, 2046, the remaining unfunded actuarial obligation with respect to service credited to members before July 1, 2014, as determined by the Board based upon a recommendation from its actuary.

CalPERS

California Public Employees' Retirement Law §20814(c) requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on July 1 following notice of a change in the rate. The CalPERS Board retains the authority to amend contribution rates. The total plan contributions are determined through CalPERS annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The employer is required to contribute the difference between the actuarially determined rate and the contribution rate of the employees. For the fiscal year ended June 30, 2020 (measurement date June 30, 2019), the employee contribution rate was 7.00% and the employer contribution rate was 19.721% of covered payroll.

On Behalf Payments

Consistent with California Education Code §22955.1, the State of California makes contributions to CalSTRS on behalf of employees working for the District. For the fiscal year ended June 30, 2020 (measurement date June 30, 2019) the State contributed 10.328% of salaries creditable to CalSTRS. Consistent with the requirements of generally accepted accounting principles, the District has recorded these contributions as revenue and expense in the fund financial statements (current financial resources measurement focus). The government-wide financial statements have recorded revenue and expense for pension expense paid on behalf of the District (economic resources measurement focus). Contributions reported for on behalf payments are based on the District's proportionate share of the States contribution for the fiscal year. Contributions made by the state on behalf of the District and the State's pension expense associated with District employees for the past three fiscal years are as follows:

CalSTRS			
Year Ended June 30,	On Behalf Contribution Rate	On Behalf Contribution Amount	On Behalf Pension Expense
2018	8.292%	\$ 77,620	\$ 41,811
2019	15.314%	165,579	(28,247)
2020	10.328%	123,254	38,962

CalPERS			
Year Ended June 30,	On Behalf Contribution Rate	On Behalf Contribution Amount	On Behalf Pension Expense
2019	8.339%	\$ 32,041	-

The contributions made by the State during the fiscal year ended June 30, 2019 included amounts resulting from Senate Bill (SB) 90 settlement in which the State contributed an additional \$2.2 Billion to CalSTRS and \$904 Million to CalPERS during the 2018-19 fiscal year in order to reduce employer contribution rates in 2019-20 and 2020-21. In addition, the State contributed an additional \$1.1 Billion to CalSTRS during the 2019-20 fiscal year as a continuing settlement associated with SB90. As a result, on behalf contributions for the years ended June 30, 2019 and June 30, 2020 are not comparable to the year June 30, 2018 as presented.

The District’s net pension liability for each Plan is measured as the proportionate share of the total net pension liability. The net pension liability of each of the Plans is measured as of June 30, 2019. The total pension liability for each Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2018 rolled forward to measurement date June 30, 2019 using standard update procedures. The District’s proportion of the net pension liability was based on a projection of the District’s long-term share of contributions to the pension plans relative to the projected contributions of all participating employers, as actuarially determined.

The District’s proportionate share of the net pension liability for each Plan as of June 30, 2019 and June 30, 2020 were as follows:

	CalSTRS			CalPERS
	District's Proportionate Share	State's Proportionate Share*	Total For District Employees	District's Proportionate Share
Proportion June 30, 2019	0.0018%	0.0011%	0.0029%	0.0025%

Total Deferred Inflows of Resources	<u>\$ (401,716)</u>	<u>\$ (11,575)</u>	<u>\$ (413,291)</u>

Pension contributions made subsequent to the measurement date reported as deferred outflows of resources will be recognized as a portion of pension expense in the year ended June 30, 2020. The remaining amounts reported as deferred outflows or deferred inflows of resources will be recognized as an increase or decrease to pension expense over a five-to-seven-year period. Pension expense resulting from deferred outflows and deferred inflows of resources will be recognized as follows:

Year Ended June 30,	Deferred Outflows of Resources		Deferred Inflows of Resources		Net Effect on Expenses

c. Actuarial Assumptions

Total pension liabilities for the fiscal year ended June 30, 2020 were based on actuarial valuations determined using the following actuarial assumptions:

	<u>CalSTRS</u>	<u>CalPERS</u>
Fiscal Year	June 30, 2020	June 30, 2020
Measurement Date	June 30, 2019	June 30, 2019
Valuation Date	June 30, 2018	June 30, 2018
Actuarial Cost Method	Entry Age Normal	Entry Age Normal
Actuarial Assumptions:		
Discount Rate	7.10%	7.15%
Inflation	2.75%	2.50%
Wage Growth	3.50%	(3)
Investment Rate of Return	7.10%	7.15%
Post Retirement Benefit Increase	(1)	(4)
Mortality	(2)	(5)

- (1) CalSTRS post retirement benefit increases assumed at 2% simple for DB (annually) maintaining 85% purchasing power level for DB. Increases are not applicable for DBS/CBB.
- (2) CalSTRS projects mortality by setting the projection scale equal to 110% of the ultimate improvement factor from the Mortality Improvement Scale (MP-2016) tables issued by the Society of Actuaries.
- (3) Wage growth is a component of inflation for CalPERS assumptions.
- (4) CalPERS post retirement benefit increases assumes 2.00% until PPPA floor on purchasing power applies, 2.50% thereafter.
- (5) CalPERS mortality table was developed based on CalPERS specific data. The table includes 15 years of mortality improvement using the Society of Actuaries 90% of scale MP-2016. For more details on this table, please refer to the December 2017 experience study report (based on CalPERS demographic data from 1997 to 2015) that can be found on the CalPERS website.

d. Discount Rate

The discount rate used to measure the total pension liability was 7.10% for CalSTRS and 7.15% for CalPERS. The projection of cash flows used to determine the discount rates assumed the contributions from the plan members, employers, and state contributing agencies (where applicable) will be made at statutory contribution rates. To determine whether the District bond rate should be used in the calculation of a discount rate for each plan, CalSTRS and CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested plans run out of assets. Therefore, the current discount rates are adequate, and the use of the Discount bond rate calculations is not necessary for either plan. The stress test results are presented in detailed reports that can be obtained from CalPERS and CalSTRS respective websites.

The CalPERS discount rate was increased from 7.50% to 7.65% at measurement date June 30, 2015 (Fiscal year June 30, 2016) to correct for an adjustment to exclude administrative expenses. Subsequently CalPERS discount rate was decreased from 7.65% to 7.15% at measurement date June 30, 2017 (Fiscal year June 30, 2018) to adjust for changes resulting from actuarially determined amounts.

The CalSTRS discount rate was adjusted from 7.60% to 7.10% for measurement date June 30, 2017 (Fiscal year June 30, 2018) to adjust for changes resulting from a new actuarial experience study.

According to Paragraph 30 of GASB Statement No. 68, the long-term discount rate should be determined without reduction for pension plan administrative expense. The investment return assumption used in the accounting valuation is net of administrative expenses. Administrative expenses are assumed to be 15 basis points. Using this lower discount rate has resulted in a slightly higher total pension liability and net pension liability. CalSTRS and CalPERS checked the materiality threshold for the difference in calculation and did not find it to be a material difference.

CalSTRS and CalPERS are scheduled to review actuarial assumptions as part of their regular Asset Liability Management (ALM) review cycle. The last ALM completed by CalSTRS was conducted in 2015. CalSTRS is in process of completing the next ALM with an initial expected completion date of November 2019. CalPERS completed their ALM in 2018 with new policies in effect on July 1, 2018. Both CalSTRS and CalPERS conduct new ALM's every 4 years.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalSTRS and CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound returns were calculated over the short-term (first 10 years) and long-term (11-60 years) using a building block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest quarter of one percent.

M. Risk Management

The District is exposed to risk of losses due to:

- Torts,
- Theft of, damage to, or destruction of assets,
- Business interruption,
- Errors or omissions,
- Job related illness or injuries to employees,
- Natural disasters,
- Other risks associated with public entity risk pools

Risk management is the process of managing the District's activities to minimize the adverse effects of these risks. The main element of risk management are risk control (to minimize the losses that strike an organization) and risk financing (to obtain finances to provide for or restore the economic damages of those losses). Risk financing techniques include risk retention, risk transfer to and from an insurer, and risk transfer to a non-insurer.

The District has implemented the risk financing technique of risk transfer to an insurer. The District has purchased property & liability insurance as well as workers compensation insurance to cover any losses resulting from the risks identified above.

There have been no significant changes in property and liability or workers compensation coverage during the current fiscal year.

N. Participation in Joint Powers Authorities

The District is a member of two joint powers agreements (JPA) entity, the San Diego County Schools Risk Management and the San Diego County Fringe Benefit Consortium for the operation of a common risk management and insurance programs for property and liability coverage, workers compensation, and other employee benefits. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years. There have been no significant reductions in insurance coverage from coverage in the prior year.

The entities have budgeting and financial reporting requirements independent of member units and their financial statements are not presented in these financial statements; however, fund transactions between the entities and the District are included in these statements. Audited financial statements are available from the respective entities.

O. Commitments and Contingencies

1. State and Federal Allowances, Awards, and Grants

The District has received state and federal funds for specific purposes that are subject to review and audit by the grantor agencies. Although such audits could generate expenditure disallowances under terms of the grants, it is believed that any required reimbursement will not be material.

2. Litigation

The District is involved in various litigation arising from the normal course of business. In the opinion of management and legal counsel, the disposition of all litigation pending is not expected to have a material adverse effect on the overall financial position of the District as of June 30, 2020.

3. Construction Commitments

As of June 30, 2020, the District had the following construction commitments:

<u>Construction in Process</u>	<u>Commitment</u>	<u>*Estimated Date of Completion</u>
Elementary School Kitchen Upgrades	\$ 21,180	November 2020

P. Deferred Outflows of Resources

In accordance with GASB Statement No. 68 & 71, payments made subsequent to the pension plan measurement date and other items as outlined in the GASB pronouncement have been recorded as deferred outflows of resources.

A summary of the deferred outflows of resources as of June 30, 2020 is as follows:

S. COVID-19 Considerations

In March 2020 the World Health Organization declared the outbreak of the novel coronavirus COVID-19 a global pandemic. The nature of the pandemic resulted in a mandatory school property closure affecting the Vallecitos School District from March 16, 2020 and continuing into the Fall of 2020-21 school year. California Governor Gavin Newsom issued a state-wide executive order mandating that schools remain closed until the county in which the school is located is off the COVID-19 watch list for fourteen consecutive days. The 2020-21 fiscal year opened in a fully distance learning model, until such time as campuses can be re-opened. At this point in time the Vallecitos School District campuses remain closed until San Diego County meets the benchmark requirements.

In addition to school closures, new regulations and safety measures were required to be put in place by all schools in California as part of a re-opening plan. The Vallecitos School District has established a re-opening plan that they believe will provide a safe environment for the students and teachers.

The federal and state government have established temporary funding to assist in the additional costs that resulted from the COVID-19 pandemic. All California school districts are eligible for these funds. Due to timing of the grant disbursements, the Vallecitos School District did not expend any of the funds in the 2019-20 fiscal year. The funds remain available for the 2020-21 fiscal year. Additionally, for the 2019-20 fiscal year, the state placed all school districts in a hold harmless state shifting attendance reporting periods to a point prior to the pandemic to prevent sudden losses of attendance from impacting funding for the 2019-20 fiscal year. Finally, funding for the 2020-21 fiscal year is frozen at amounts provided in 2019-20 for all California school districts, with adjustments based on the Governor's budget. The District has established their 2020-21 budget with this in consideration.

The total pension liability for California State Teachers' Retirement System (CalSTRS) was determined by applying update procedures to the financial reporting actuarial valuation as of June 30, 2013, 2014, 2015, 2016, 2017 and 2018 and rolling forward the total pension liabilities to the June 30, 2014, 2015, 2016, 2017, 2018 and 2019 (measurement dates). In determining the total pension liability, the financial reporting actuarial valuation used the following actuarial methods and assumptions:

CalSTRS changed the mortality assumptions based on the July 1, 2010 through June 30, 2015 experience study adopted by the CalSTRS board in February 2017. CalSTRS uses a generational mortality assumption, which involves the use of a base mortality table and projection scales to reflect expected annual reductions in mortality rates at each age, resulting in increases in life expectancies each year into the future. The base mortality tables are CalSTRS custom tables derived to best fit the patterns of mortality among CalSTRS members. The projection scale was set equal to 110 percent of the ultimate improvement factor from the Mortality Improvement Scale (MP-2016) table, issued by the Society of Actuaries. Additional information can be obtained by reviewing the CalSTRS Actuarial Experience Study on the CalSTRS website.

N/A – There were no audit findings which resulted in necessary revisions to attendance for the Second Period Report.

On March 17, 2020 Governor Newsom signed Senate Bill (SB) 117 which mitigated the effect of lost attendance due to COVID-19 that occurred after February 29, 2020. For the purpose of preventing losses of attendance-based funding as a result of reductions in average daily attendance (ADA) due to COVID-19, this legislation provided that the ADA used for both the second period (P2) and the Annual period apportionment include all full school months from July 1, 2019 to February 29, 2020 for all local education agencies (LEAs).

Average daily attendance is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of state funds are made to school districts. This schedule provides information regarding the attendance of students at various grade levels and in different programs.

Due to COVID-19 the District closed all campuses on March 17, 2020 through the end of the school year. Distance learning was provided to students for school days during the closure. This schedule has been reflected based on the original approved calendar and instructional time planned by the District for the 2019-20 fiscal year.

School districts and charter schools must maintain their instructional minutes as defined in Education Code §46201 through §46207. This schedule is required of all school districts, including basic aid districts, as well as all charter schools.

This schedule presents information on the amount of instructional time offered by the District and whether the District complied with the provisions of Education Code §46201 through §46207.

This schedule discloses the District’s financial trends by displaying past years’ data along with current year budget information. These financial trend disclosures are used to evaluate the District’s ability to continue as a going concern for a reasonable period of time.

The general fund balance has decreased by \$182,524 over the past two years. The fiscal year 2020-21 budget projects a decrease of \$417,263. For a district of this size, the State recommends available reserves of 5% of total general fund expenditures and other financing uses (total outgo).

The District has no long-term debt.

Average daily attendance has decreased by 13 over the past two years.

Notes:

1. Budget 2021 is included for analytical purposes only and has not been subjected to audit.
2. Available reserves consist of all unassigned fund balances contained within the general fund.
3. As described in Note A to these financial statements, for purposes of reporting in conformity with GASB Statement No. 54, the District’s Special Reserve Fund for Other Than Capital Outlay (Fund 17) does not meet the definition of a special revenue fund and was therefore combined with the General Fund for financial statement reporting. The above Schedule of Financial Trends and Analysis contains only the financial information of the General Fund.

Other Independent Auditors' Reports

Independent Auditor's Report on Internal Control Over Financial Reporting
and on Compliance and Other Matters Based on an Audit of Financial
Statements Performed in Accordance with *Government Auditing Standards*

To the Board of Education
Vallecitos School District
Fallbrook, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of Vallecitos School District (District), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise Vallecitos School District's basic financial statements, and have issued our report thereon dated February 26, 2021.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Vallecitos School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Vallecitos School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Vallecitos School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been detected.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Vallecitos School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report on State Compliance

To the Board of Education
Vallecitos School District
Fallbrook, California

Report on State Compliance

We have audited the Vallecitos School District's compliance with the types of compliance requirements described in the *2019-20 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, prescribed in Title 5, *California Code of Regulations*, Section 19810, that could have a direct and material effect on each of the District's state programs identified below for the fiscal year ended June 30, 2020.

Management's Responsibility for State Compliance

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each applicable program as identified in the State's Audit Guide *2019-20 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance*, prescribed in Title 5, *California Code of Regulations*, Section 19810. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the comptroller General of the United States; and the State's audit guide *2019-20 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, prescribed in Title 5, *California Code of Regulations*, Section 19810. Those standards and audit guide require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above that could have a direct and material effect on the state programs noted below. An audit includes examining, on a test basis, evidence about each school's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the District's compliance with those requirements.

In connection with the audit referred to above, we selected and tested transactions and records to determine the District’s compliance with state laws and regulations applicable to the following items:
