24	Explore the option of assessing students without standardized testing because every student learns differently. If a student struggles being tested that does not mean they are not grasping what's taught. Sometimes it should be a sign that tests are intimidating to them. As an adult, I understand this concept and have experienced this issue first hand.	3/1/2022 9:49 AM
25	Houston county's school system as a whole need to find a better way to assess students. Children learn differently and their difference's are not always able to be assessed and accommodated by the standardized testing system. I also have an issue with the organizations that offer to assist students. every child that attends a Title I school does not come from home with financial issues or uneducated parents. I received a letter from the school offering assistance; however, it's verbiage was offense.	2/28/2022 3:17 PM
