

6th Grade Newsletter

Week of August 24th

Math Mrs. Riggs ariggs@rappahannockschools.us This week in math we are working on our Exponent unit. This unit includes powers of 10 and perfect squares. We will be working on learning the perfect squares and their roots for the numbers 0-20. Have a great week!	English Mrs. Clark sclark@rappahannockschools.us This week in English, we will be introducing Fiction writing by learning about the parts of a plot to a story. We will also be reading out first short story "Lob's Girl" by Joan Aiken. Students will be taking their knowledge of plot and identifying the parts in the short story.
History Mr. Hummill mhummill@rappahannockschools.us We are starting off the year by learning about Westward Expansion. Why we went West, where we went, how we made it easier, and who we encountered along the way. This unit will conclude with a project.	Science Mrs. McCabe emccabe@rappahannockschools.us We are kicking off the year by thinking like scientists! Students are beginning scientific investigations by learning how to ask questions, make observations, collect data, and use evidence to draw conclusions. We are excited to put our curiosity to work! Questions or concerns? Please feel free to reach out with an email!

Important Notes and Reminders

All students will participate in DEAR (Drop Everything And Read) time at the end of the day. Please make sure your child has a book. Students can check books out in classroom libraries or our school library as well. Thank you for your help at home!
