Student Form: Terms and Conditions for Use of the Internet in the Gadsden School District

Internet access is now available to students and teachers in the Gadsden County School District. We believe that the Internet offers vast, diverse and unique resources to both students and teachers. We believe that providing this access to the Internet will help students develop Information Skills that they will need throughout life. It will provide for unlimited resources for research and information gathering. With access, comes the availability of material that may not be considered acceptable in the context of the school setting. Even if teachers take precautions to restrict access to such materials, it is always possible that ingenious users could access controversial information. We, the Gadsden School District, believe that the valuable information far outweighs the possibility that users may find material that is not consistent with our educational purposes. End users of the Internet must adhere to strict guidelines and thereby, the Gadsden School District establishes the following guidelines for all Internet users within our organization:
