

SchoolMessenger Help Resources

SchoolMessenger is the platform used to send all messages to families from the school and region. It is used for the following purposes, for example:

- To send the Weekly Friday Message from the Principal
- To call families during inclement weather situations requiring cancellation of school, late start for school, and/or early dismissal.
- To send emails to families from Region 1 or from the school.

It is, therefore, important that you have an account and that you enable it to receive our messages.

Use the links below to help you create and manage your account:
