THE IB MISSION:

The International Baccalaureate® aims to develop inquiring, knowledgeable and caring young people who help to create a better and more peaceful world through intercultural understanding and respect.

To this end the organization works with schools, governments and international organizations to develop challenging programmes of international education and rigorous assessment.

These programmes encourage students across the world to become active, compassionate and lifelong learners who understand that other people, with their differences, can also be right.

We at Jewett Academy integrate rigorous academic experiences with intercultural understanding to develop compassionate, knowledgeable, and responsible citizens who work toward creating a more peaceful world.

Mission Statement: Dundee Elementary Academy aims to develop influential citizens who are globally aware, internationally minded, and have a passion for lifelong learning. We work as a highly qualified staff that works collaboratively with all stakeholders to provide inquiry based instruction in a safe and supportive environment.

Mission Statement: As a Primary Years Program School, the mission of South Shore Elementary School is to cultivate caring, global citizens by modeling a culture of positivity, reflection, innovation, dedication and empathy.
