

		7th Grade						
	Week	ELA	History/Geography	Science	Math	Math-Advanced	Math-Intervention	
Quarter 1	1	Red Scarf Girl	Early Americans and the First Europeans	Geology on Mars	Adding and Subtracting Rational Numbers	Equations	Multiplication and Division	
	2							
	3							
	4							
	5		European Exploration and Colonization of the Americas	Plate Motion	Multiplying and Dividing Rational Numbers	Transformations		
	6							
	7							
	8	Character & Conflict	English Colonies Take Shape		Expressions	Angles and Triangles		
	9							
Fall Break								
Quarter 2	10	Character & Conflict	The American Revolution	Plate Motion II	Equations and Inequalities	Graphing and Writing Linear Equations	Multiplication and Division	
	11							
	12			Rock Transformation				
	13	Ratios and Proportions	Systems of Linear Equations					
	14			Brain Science	Constitution of the United States	Phase Change	Data Analysis and Displays	
	15							
	16							
	17	Percents	Surface Area and Volume					
	18							
19	Winter Break							
Quarter 3	20	Poetry & Poe	The New Republic and the War of 1812	Phase Change	Percents	Functions	Fractions	
	21				Probability			
	22							
	23		Westward Expansion Before the Civil War	Chemical Reactions	Statistics	Exponents and Scientific Notation		
	24							
	25	Division before the Civil War / Civil War	Populations and Resources	Geometric Shapes and Angles	Real Numbers and the Pythagorean Theorem			
	26							
	27	Poetry in America			Volume and Similar Solids			
	28							
29	Spring Break							
Quarter 4	30	Frida & Diego	Reconstruction	Populations and Resources	Surface Area and Volume	Probability	Decimals and Integers	
	31							
	32		Chasing Lincoln's Killer	Matter and Energy in Ecosystems	Review	Equations and Inequalities		
	33							
	34							
	35		Westward Expansion After the Civil War			Statistics		
	36							
	37					Geometric Shapes and Angles		
38
