

Peachjar Info Page Instructions

Peachjar for E-flyer Distribution

We are excited to share information about our partnership with Peachjar to help us unite schools, parents, and communities in our collective mission to elevate student outcomes! Peachjar's platform streamlines school-to-home communication by distributing valuable school and community resources directly to families as digital flyers. By enabling our district to go paperless, Peachjar helps us save thousands of trees each year.

Peachjar for Families

Peachjar organizes all important school and community information in one place! In addition to receiving emails from your school, look for the 'Peachjar' button or icon on your school website to view all active flyers.

Peachjar for Community Organizations

Our district wants families to know about district-approved community programs and resources offered by organizations like yours! Approved local community partners within 25 miles of the district office will not be charged for this service. There are many added benefits to using Peachjar not available with paper flyers—clickable buttons that take parents directly to your website, flyer performance reports, and not to mention the time saved driving school to school!

To submit your flyer for district approval, follow the steps below. Paper flyers from outside organizations will no longer be distributed.

- Register your account as a Community Organization on [Peachjar.com](https://peachjar.com)
- Contact the Communications Dept, Kristie Stevens kstevens@tanq.org, to find out if you qualify as a local organization to post flyers without a fee
- Go to [Post & Notify](#) from your account to submit your flyer for approval
- Email support@peachjar.com or call 858-997-2117 with any questions
