The implementation of a web-based self-paced curriculum will allow for remediation and targeted interventions. Teachers have created targeted interventions based on individual students using benchmark data from last year as well as all previously collected STAAR data. Teachers will create centers within the classroom to group students based on targeted interventions needed as well as before and after school remediation. All benchmarks are created using STAAR released questions to ensure high quality data is collected. All PD will be based around evidence based activities to ensure top quality instruction. The campus social worker and counselor will work diligently to meet with families and parents to ensure they have access to resources and tools needed to assist them both personally and in the academic setting.

3. Briefly describe the activities selected in PS3013 questions A6, A13, A15, A17, B1, B2, and/or B3. A response in at least one of these PS3013 questions is required.

The crisis team will continue to meet monthly to address plans for any long term closure that may happen. We will ensure all students have access to the necessary curriculum and technology to continue their learning and ensure it is interrupted as little as possible. The social worker and counselor will meet with parents and students regularly to ensure they have access to resources and tools to assist in their personal and academic needs.
