RE- Asbestos Abatement completion and Authorization for Re- occupancy

To Whom it may concern:

This letter documents the completion of asbestos abatement activities performed at the above-reference project locations.
Following completion of the abatement work, a visual inspection of the affected work area was conducted to assess whether the response action was properly completed and whether visible asbestos -containing materials residue or debris remained.
Final air clearance was collected in accordance with the applicable requirements of the Asbestos Hazard Emergency Response Act (AHERA),40 CFR Part 763, subpart E. and analyzed by TEM as applicable

Based on the complete visual inspection and review of the final analytical results, the affected has met the e applicable clearance criteria
All clearance requirements have been met; the affected work area may be released for re-occupancy as of 11/05/2026.
Attached is the final air sampling laboratory report'

Sincerely
Steven Uko
