

## 2023 Almost 4<sup>th</sup> Grade Summer Math

Please practice the skills below on IXL. Be sure that you are working on the THIRD-GRADE level because the summer practice is a review of what you covered this past year. You will need to master each skill with a smart score of 85% or above. Please fill in your smart score as you progress through the skills and bring this sheet with you on the first day of school next year. Your smart scores will be averaged as a grade for the 2023-2024 academic year!

### Helpful Tips:

- *If you get a question wrong, read the explanation so that you don't make the same mistake next time.*
- *Use pencil and paper to work out the problems.*
- *Stretch out the work over the course of the summer. Leaving it all to the last minute will be stressful!*

	Category	Code	Skill Name	Smart Score
1	Numbers & Comparing	B	1-Compare Numbers	
2	Division Fluency	X	1-Division Facts up to 12	
3	Rounding	C	2-Round to the nearest ten or hundred
