INDEPENDENT AUDITOR'S REPORT

Honorable Members of the School District of Williamsburg County
Kingstree, South Carolina

Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the School District of Williamsburg County, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, and each major fund of the School District of Williamsburg County, as of June 30, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information for the General Fund on pages 4 through 11 and 65, and the schedules of funding progress and employer contributions, schedule of District's proportionate share of liability and the schedule of the District's contributions for both the pension and OPEB on pages 66-67 be presented to supplement the basic financial statements.

Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School District of Williamsburg County's basic financial statements. The combining and individual non-major fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Plan 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The combining and individual non-major fund financial statements and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual non-major fund financial statements and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 29, 2021, on our consideration of School District of Williamsburg County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering School District of Williamsburg County's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Fiscal Year Ended June 30, 2021**

INTRODUCTION

The discussion and analysis of School District of Williamsburg County's financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2021. We encourage readers to consider this information in conjunction with the additional information in the District's financial statements and the accompanying notes to those financial statements.

FINANCIAL HIGHLIGHTS

We based our budget on \$2,425 base student cost. We had some cuts in Federal and State Restricted Funds. Purchase orders were monitored very closely to reduce spending for supplies, equipment, travel, conferences and telephones. Additionally, the number of substitutes that were utilized was significantly reduced.

Other key financial aspects were as follows:

Net Position: The District's Total Net Position as of June 30, 2021, was \$(36,793,140).

Revenues and Expenditures: Revenues and other financing sources totaled \$56,538,531 and expenditures and other financing uses totaled \$53,626,772 for all Governmental Funds at the fund level. Accordingly, revenues and other financing sources exceeded expenditures and other financing uses by \$2,911,759.

General Fund/Fund Balance: On June 30, 2020, our principal operating fund, the General Fund, had a fund balance of \$6,856,228. The current year revenues and other financing sources exceeded expenditures and other financing uses creating an increase for the year of \$2,445,102. This increased the fund balance to \$9,301,330 as of June 30, 2021.

Debt Service: In 2006 the District issued \$22,500,000 in SCAGO General Obligation School (Installment Purchase) Bonds to build Hemingway Elementary School. In 2008, the District issued \$6,926,639 in QZAB Bonds to repair, renovate and upgrade facilities in the district. In 2016 the District issued \$17,625,000 in SCAGO Installment Purchase Refunding Bonds to refund the 2006 IPR bonds. The millage assessed to repay the debt service is 34.5. As of June 30, 2021, the District had paid off approximately \$1,628,000 against its long-term debt obligations.

OVERVIEW OF FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements (General, Special Revenue, Special Revenue EIA, Debt Service, School Building, Proprietary and 3) notes to the basic financial statements. This report also contains other supplementary information and a compliance section in addition to the basic financial statements themselves. A description of these statements and some related definitions follow:

Government-wide Financial Statements: The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private sector business.

MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Fiscal Year Ended June 30, 2021
(Continued)

These statements outline functions of the District that are principally supported by property taxes and intergovernmental revenues (governmental activities) and functions principally supported by service charges (business-type activities).

The governmental activities of the District include instruction, support services, intergovernmental, debt service, and capital outlay expenditures. The government-wide financial statements can be found on pages 12 through 14 of this report.

Statement of Net Position: The statement of net position presents information on all of the District's assets and liabilities except for those related to fiduciary funds, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

Statement of Activities: The statement of activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes).

Fund Financial Statements: A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental and proprietary.

Governmental Funds: Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows of spendable resources as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements. The modified accrual basis of accounting is used for governmental funds.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities. These reconciliations are on pages 16 and 18.

The District maintains its accounting records in conformity with the South Carolina Department of Education's Financial Accounting Handbook. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the General, Special Revenue, and EIA Funds which are required to be presented as major funds. The basic governmental funds financial statements can be found on pages 15 and 17 of this report.

Proprietary Funds: Proprietary (Enterprise) funds are used to account for operations that are financed and operated in a manner similar to private business enterprises where the stated intent is that of monitoring the cost of such programs for public policy.

Notes to the Basic Financial Statements: The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 23 through 55 of this report.

Other information: In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District’s budget process. The District adopts an annual expenditure budget for the General Fund. A budgetary comparison statement has been provided for the General Fund as required supplementary information. The required supplementary information can be found on pages 65-67 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of a government’s financial position. In the case of the District, liabilities exceeded assets by \$39,444,540 as of June 30, 2021.

By far, the largest portion of the District’s net position (175%) reflects its investment in capital assets (e.g., land, buildings and improvements, vehicles, furniture and equipment), less any related debt used to acquire those assets that are still outstanding. The District uses these capital assets to provide services to its students; consequently, these assets are not available for future spending. Although the District’s net investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The District’s financial position is the product of several financial transactions including the net results of activities, the acquisition and payment of debt, the acquisition of capital assets, and the depreciation of capital assets.

- The cost of all governmental activities this year was \$48,099,132.
- Net cost of governmental activities \$(19,127,968) was financed by general revenues which are made up primarily of property taxes \$13,538,233 and unrestricted federal and state aid \$6,885,589.

FINANCIAL ANALYSIS OF THE DISTRICT FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds: The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

The financial performance of the District as a whole is reflected in its governmental funds. As the District completed the year, its governmental funds reported a combined fund balance of \$15,577,485, an increase of \$2,911,759. Approximately \$9,081,155 (or 60%) of the fund balance constitutes unassigned fund balance which is available for spending at the District's discretion.

The General Fund is the principal operating fund of the District. The increase in the fund balance in the General Fund for the fiscal year was \$2,445,102.

Proprietary Fund: Proprietary Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises. The Food Service Fund is the only Proprietary Fund. The Fund had net income of \$362,694. Food Service operated a summer feeding program during 2021, which was profitable for the District.

GENERAL FUND BUDGETARY HIGHLIGHTS

This year Act 388 Property Tax Relief Bill stayed in effect, and we were one of the Districts receiving 2.5 million dollars. The District did not furlough teachers, administrators and other employees in this fiscal year. The District did not use substitutes as much as in prior years, instead having teachers cover for one another. We did not fill any position unless it was a must. The District attempted to reduce spending for supplies and equipment from the General Fund Budget and reduced travel and attendance at conferences. We were very fortunate this year because our employees were so willing to help the District in any way that they could so we could continue to try to cut spending and save jobs.

A schedule showing the original and final budget amounts compared to the District’s actual financial activity for the General Fund is provided in this report as required supplementary information. The General Fund budget was not amended this year.

Capital Assets: As of June 30, 2021, the District had invested \$44,933,668 (net of related depreciation) in capital assets, including land, school buildings, athletic facilities, buses and other vehicles, computers, and other equipment. Total depreciation expense for the year was \$2,651,400.

The following schedule presents capital asset balances, net of depreciation, for the fiscal years ended June 30, 2021.

| | Governmental Activities <u>2021</u> | Business -Type Activities <u>2021</u> | Total <u>2021</u> |
|---------------------------------|---|---|-----------------------------|
| Land | \$ 938,198 | \$ - | \$ 938,198 |

| Accumulated Depreciation | <u>(51,805,889)</u> | <u>(857,391)</u> | <u>(52,663,280)</u> |
| Total Net Capital Assets | <u>\$ 44,529,344</u> | <u>\$ 404,324</u> | <u>\$ 44,933,668</u> |

Additional information on the District’s capital assets can be found in Note 6 of this report.

Debt Administration: At year’s end, the District had \$104,176,932 in general obligation bonds, capital leases, compensated absences, OPEB liability and pension liability, of which \$7,073,645 is due within one year. The following table presents a summary of the District’s outstanding long-term debt for the fiscal year ended June 30, 2021, and June 30, 2020.

State statutes currently limit the amount of general obligation debt a District may issue to 8 percent of its total assessed valuation, unless approved by voter referendum.

Additional information on the Districts' long-term debt can be found in Note 7 of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

School District of Williamsburg County is a rural district located in the Lower Pee Dee Area of South Carolina. According to the 2010 Census Report, Williamsburg County has a population of 34,423, a decrease of 2,794 from the 2000 Census Report. Student enrollment has declined from 6,405 in 2000 to 3,738 students in 2020. There are very few industries in the county. All of the above has led to a significant decline in local revenues and the value of a tax mill.

Many factors were considered by the District's administration during the process of developing the 2020-2021 budget. The base student cost for 2020-2021 is \$2,425. The District's top priority is to ensure a high quality education for all students.

School District of Williamsburg County budgeted expenditures, in the General Fund, were decreased in an effort to balance the budget as revenue continues to decline. Some factors included in building the 2020-2021 budget were continued reductions in staff through attrition where possible, reductions in supplies, equipment, travel and telephone accounts.

KINGSTREE, SOUTH CAROLINA
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN
FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
For the Fiscal Year Ended June 30, 2021**

Total Net Change In Fund Balances - Governmental Funds (Exhibit E) \$ 2,911,759

Amounts reported for governmental activities in the Statement of Activities are different because of the following:

| | |
|--|-------------|
| Capital outlays are reported in the governmental funds as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over the estimated useful lives as depreciation expense. This is the amount by which depreciation expense of (\$2,586,897) exceeds capital outlay of \$686,927 in the period. | (1,899,970) |
| Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. | 1,628,000 |
| Because some revenues will not be collected for several months after the District's fiscal year ends, they are not considered "available" revenues and are deferred in the governmental funds. Deferred tax revenue decreased in the current year | (391,098) |
| Deferred advanced refunding gains are recorded in the year the debt is refunded in the governmental funds, but are amortized over the life of the refunding debt in the Statements of Activities. | 27,934 |
| Changes in the District's proportionate share of the net OPEB liability, deferred outflows/inflows of resources for the current year are not reported in the governmental funds, but reported in the Statements of Activities. | (307,543) |
| In the Statement of Activities, compensated absences are measured by the amounts earned during the year. In the governmental funds, however, expenditures are measured by the amount of financial resources used. This year vacation earned exceeded the amount used by. | 3,964 |
| Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the Statement of Activities, interest expense is recognized as the interest accrues, regardless of when it is due. Accrued interest payable decreased during the year. | 9,192 |
| Governmental funds report the District's pension contributions as expenditures. However, in the Statement of Activities, the cost of pension benefits earned net of employee contributions is reported as pension expense | |
| District pension contributions | 1,954,289 |
| Cost of benefits earned net of employee contributions (pension expense on benefit schedule) | (2,964,991) |
| | 1,010,702 |

SCHOOL DISTRICT OF WILLIAMSBURG COUNTY
KINGSTREE, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
June 30, 2021

Note 1. Summary of Significant Accounting Policies

The School District of Williamsburg County, Kingstree, South Carolina, and (the School District”) operate under the Board of Trustees form of government provided by the laws of the State of South Carolina. The current form of government was created by the General Assembly of South Carolina in 1980 by the Act No. 632 and subsequently amended. The School District receives funding from local, state and federal governmental sources and must comply with the related requirements of these funding source entities.

The financial statements of School District of Williamsburg County have been prepared in conformity with accounting principles generally accepted in the United States of America, (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. In the government-wide financial statements and the fund financial statements for the proprietary funds, Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, have been applied unless those pronouncements conflict with or contradict GASB pronouncements, in which case, GASB prevails. Following are the more significant of the School District’s accounting policies.

A. Reporting Entity

The School District receives funding from local, state and federal government sources and must comply with the related requirements of these funding source entities. As required by accounting principles generally accepted in the United States of America, these basic financial statements present the School District and its component units, entities for which the School District is considered to be financially accountable or for which exclusion of a component unit would render the financial statements incomplete or misleading. Blended component units are combined with the data of the primary government. Discretely presented component units, on the other hand, are reported in a separate column in the basic financial statements to emphasize that they are legally separate from the School District. The criteria for including organizations as component units within the School District’s reporting entity, as set forth in Section 2100 of GASB’s Codification of Governmental Accounting and Financial Reporting Standards, include whether:

- the organization is legally separate (can sue and be sued in their own name)
- the School District holds the corporate powers of the organization
- the School District appoints voting majority of the organization’s board
- the School District is able to impose its will on the organization
- the organization has the potential to impose a financial benefit/burden on the School District
- there is a fiscal dependency by the organization on the School District

Based on the aforementioned criteria, the School District of Williamsburg County has one component unit.

SCHOOL DISTRICT OF WILLIAMSBURG COUNTY
KINGSTREE, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
June 30, 2021
(Continued)

Blended Component Units: SCAGO Educational Facilities Corporation EFC (the “Corporation”) was created by the School District of Williamsburg County as a nonprofit 501(c)(3) organization under the laws of the State of South Carolina for the specific purpose of providing support for capital projects of the School District. The board members are appointed by the board of the School District. Because the Corporation exclusively benefits the School District, the Corporation’s financial information is blended with that of the School District in the basic financial statements. Separate financial statements for the Corporation are not issued.

B. Basis of Presentation

The School District’s basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

Government-Wide Financial Statements

The statement of net position and the statement of activities display information about the School District as a whole. These statements include the financial activities of the School District, except for fiduciary funds. The statements distinguish between those activities of the School District that are governmental in nature and those that are considered business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Program revenues include charges paid by the recipients of goods or services offered by the program and grant and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues. Business-type activities are financed in whole or in part by fees charged to the external parties for goods or services.

The statement of activities presents a comparison between direct and program revenues for the different business-type activities of the School District and for each function of the School District’s governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. The School District does not allocate indirect cost.

Fund Financial Statements

Fund financial statements of the School District are organized into funds, each of which is considered to be separate accounting entities. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its asset, liabilities, fund equity, revenues, and expenditures/expenses. Funds are organized into three major categories: governmental, proprietary and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories.

A fund is considered major if it is the primary operating fund of the School District or meets the following criteria:

- a. Total assets, liabilities, revenues, or expenditures/expenses of the individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category of type; and

SCHOOL DISTRICT OF WILLIAMSBURG COUNTY
KINGSTREE, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
June 30, 2021
(Continued)

- b. Total assets, liabilities, revenues, or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined

The funds of the School District are described below:

Governmental Funds

Governmental funds are those through which most governmental functions of the School District are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The General Fund, Special Revenue Fund, EIA, and Capital Project Fund are the School District's major governmental funds.

General Fund

The *General Fund*, a major fund, is used to account for all financial resources except those required to be accounted for in another fund. All general tax revenues and other receipts that are not allocated by law or contractual agreement to other funds are accounted for in the General Fund. Primary sources of revenues are property taxes and state revenues received under the Education Finance Act.

Special Revenue Fund

The *Special Revenue Fund*, a major fund, is used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specific purposes other than debt service or capital projects. Primary sources of revenues are state and federal grants.

Education Improvement Act (EIA) Fund

The *EIA Fund*, a major fund, is a Special Revenue fund which accounts for all resources received under the Education Improvement Act as mandated by the South Carolina Department of Education.

Debt Service Fund

The *Debt Service Fund*, is used to account for the accumulation of resources for and the payment of general long-term debt principal, interest and related cost of the School District other than debt service payments made by enterprise funds. These funds are administered by the Williamsburg County Treasurer.

The *Debt Service Fund – EFC*, is used to account for and report resources that restricted, committed, or assigned to principal, interest, and related costs for the long-term debt of the SCAGO Education Facilities Corporation (EFC) for the School District of Williamsburg County.

SCHOOL DISTRICT OF WILLIAMSBURG COUNTY
KINGSTREE, SOUTH CAROLINA

June 30, 2021
(Continued)

Capital Projects Fund

The *Capital Projects Fund*, a major fund, accounts for and report financial resources that are restricted, committed or assigned to expenditure for the expansion or improvement of the facilities of the School District. Primary sources of revenues are state aid based upon a per pupil allocation and general obligation bond sales.

The *Capital Projects Fund (School Building Fund) – EFC*, accounts for resources used for the expansion or improvement of the facilities of the SCAGO Education Facilities Corporation (EFC) for the School District of Williamsburg County.

Proprietary Fund

Proprietary Fund reporting focuses on the determination of operating income, changes in net position, financial position, and cash flows. The following is the School District's Proprietary Fund:

Enterprise Fund

The *Enterprise Fund* is used to account for business-like activities provided to the general public. These activities are financed primarily by user charges and the measurement of financial activity focuses on the net income measurement similar to the private sector.

The *Food Service Fund*, a major fund, accounts for operations (a) which are intended to be self-supporting through user charges or (b) where the State Department of Education has determined that periodic determination of net income is appropriate for management control. The food service fund which is used to record transactions of the operation of the school lunch program has been determined to be in this category.

C. Measurement Focus and Basis of Accounting

Measurement Focus

Government-Wide Financial Statements

The government-wide financial statements are prepared using a flow of economic resources measurement focus. All assets and liabilities associated with the operation of the School District are included on the statement of net position.

Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reflect the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements, therefore, include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the fund financial statements for governmental funds.

SCHOOL DISTRICT OF WILLIAMSBURG COUNTY
KINGSTREE, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
June 30, 2021
(Continued)

Like the government-wide financial statements, the Proprietary Fund is accounted for using a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of this fund are included on the statement of net position. The statement of revenues, expenses and changes in net position presents increases and decreases in total net position. The statement of cash flows reflects how the School District finances and meets the cash flow of its Proprietary Fund.

Agency funds are not involved in the measurement of results of operations; therefore, measurement focus is not applicable to them.

Basis of Accounting

In the government-wide statement of net position and statement of activities, both governmental and business-like activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset is used, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

In the fund financial statements, governmental funds and agency funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when “measurable and available.” Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within sixty days after year-end. Items such as property taxes are considered to be susceptible to accrual. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for the general obligation bond principal and interest which are reported when due.

All Proprietary Funds utilize the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used.

When both restricted and unrestricted resources are available for use, it is the School District’s policy to use restricted resources first, then unrestricted resources as needed.

D. Cash, Cash Equivalents and Investments

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand and amount in demand deposits.

Investments

Investment policies of the School District must operate within existing state statutes of the State of South Carolina, which authorizes what the School District may and may not invest in. State statutes authorize the School District to invest in obligations of the United States and agencies thereof, general obligations of the State of South Carolina or any of its political units, savings and loan associations to the extent that the same are insured by an agency of the Federal government, certificates of deposit

KINGSTREE, SOUTH CAROLINA

(Continued)

where the certificates are collaterally secured by securities of the type described above, or deposit accounts with banking institutions. Statutes also allow the State Treasurer to assist local governments in investing funds. The School District is under no contractual agreements which restrict investment alternatives or violate legal provisions.

E. Receivables

In the government-wide statements, receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable. Major receivable balances for the governmental activities include property taxes, franchise fees, state shared revenue and grants. Property taxes receivables are carried at cost less an allowance for uncollectible. Business-type activities report intergovernmental revenues for school lunch and breakfast programs as their major receivables.

In the fund financial statements, material receivables in governmental funds include revenue accruals for federal and state revenue if they are both measurable and available. Non-exchange transactions collectible but not available, such as property taxes, are deferred in the fund financial statements in accordance with modified accrual basis, but not deferred in the government wide financial statements in accordance with the accrual basis. Proprietary Fund material receivables consist of all revenues earned at year-end and not yet received.

Intergovernmental receivables compose the majority of proprietary fund receivables. No proprietary fund allowances for uncollectible accounts receivable are reported since the receivables are from federal and state governments.

F. Restricted Assets

Assets are reported as restricted when limitations on their use change the nature of normal understanding of the availability of the asset. Such constraints are either imposed by creditors, contributors, grantors, laws of other governments, or imposed by enabling legislation.

G. Prepaid Items/Inventories

Prepaid items consist of payments made to vendors for services that will benefit periods beyond June 30, 2021.

Inventories are valued at cost, which approximates market, using first-in/first-out (FIFO) method and are subsequently charged to expenditures/expenses when consumed rather than when purchased. Inventories include school operating and cleaning supplies.

The Enterprise fund inventory included commodities received at no cost from the U.S. Department of Agriculture (USDA). These commodities are recorded at market value as determined by the USDA at the time of receipt but have not been consumed as of June 30, 2021.

SCHOOL DISTRICT OF WILLIAMSBURG COUNTY
KINGSTREE, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
June 30, 2021
(Continued)

H. Capital Assets

The accounting treatment over property, plant and equipment (fixed assets) depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

Government-Wide Statements

In the government-wide financial statements, fixed assets are accounted for as capital assets. All fixed assets are valued at historical cost, or estimated historical cost if actual is unavailable, except for donated fixed assets, which are reported at their estimated fair value at the date of donation. Estimated historical cost was used to value many of the assets acquired prior to July 1, 2002. The School District maintains a capitalization policy of \$5,000 for its capital assets. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized. Interest incurred during construction is not capitalized for general capital assets.

Depreciation of all exhaustible fixed assets is recorded as an allocated expense in the statement of activities, with accumulated depreciation reflected in the statement of net position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

| | |
|--------------|-------------|
| Buildings | 25-50 years |
| Improvements | 10-50 years |
| Equipment | 5-25 years |

Fund Financial Statements

In the fund financial statements, fixed assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Fixed assets used in proprietary fund operations are accounted for the same as in the government-wide statements.

I. Short-term Inter-fund Receivables/Payable

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds" on the fund financial balance sheet. Inter-fund balances within governmental activities and within business-type activities are eliminated on the government-wide statement of net position.

J. Compensated Absences

The School District reports Compensated Absences in accordance with the provisions of GASB Statement No. 16, *Accounting for Compensated Absences*. The School District allows employees to accumulate 240 unused sick leave days. Earned vacation time is generally required to be used within one year of accrual. Upon retirement, the School District pays up to 90 days of accumulated sick leave at \$10 per day. Sick leave in excess of 90 days of accumulated sick leave or for termination other than retirement is not paid.

SCHOOL DISTRICT OF WILLIAMSBURG COUNTY
KINGSTREE, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
June 30, 2021
(Continued)

In the fund financial statements, governmental funds report only the compensated absence liability payable from expendable available financial resources. For the proprietary fund, the entire amount of compensated absences is reported as a fund liability.

K. Deferred Outflows of Resources

In addition to assets, The School District reports deferred outflows of resources in a separate section of its government wide and proprietary fund statements. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period. The School District has two deferred outflows: one is the deferred pension charges related to the GASB 68 pension liability, and the other is deferred OPEB charges related to the GASB 75 OPEB liability.

L. Deferred Inflows of Resources

In addition to liabilities, The School District reports deferred inflows of resources in a separate section of its government wide, governmental fund and proprietary fund statements. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period. The School District has four types of items which occur because governmental fund revenues are not recognized until available (collected no later than 60 days after the end of the School District's fiscal year) under the modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, deferred property taxes are reported in the governmental fund balance sheet. The second item is future pension revenues related to the GASB 68 pension liability, the third is future OPEB revenues related to the GASB 75 OPEB liability, and the fourth is a deferred amount arising from the refunding of a bond in a previous year. This deferred refunding amount is being amortized over the remaining life of the refunding bond as part of interest expense.

M. Long-term Obligations

The accounting treatment of long-term debt depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

All long-term debt to be repaid from governmental and business-type resources is reported as a liability in the government-wide statements. Bond issuance costs are expensed in the fund, in the year incurred. The long-term debt consists primarily of bonds payable, capital leases, accrued compensated absences, and pension liability.

Long-term debt for governmental funds is not reported as a liability in the fund financial statements. The debt proceeds are reported as other financing sources and payment of principal and interest reported as expenditures. The accounting for proprietary funds is the same in the fund statements as it is in the government-wide statements.

N. Equity Classifications

Government-Wide Statements

Equity is classified as net position and displayed in three components:

- a. Net investment in capital assets. This consist of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes, capital leases or other borrowings that are attributable to the acquisition, construction, or improvements of those assets.
- b. Restricted net position. This consists of net position with constraints placed on the use by either external groups such as creditors, grantors, contributors, or laws or regulations of other governments or law through constitutional provisions or enabling legislation.
- c. Unrestricted net position. All other net position that do not meet the definition of “restricted” or “net investment in capital assets” are classified as unrestricted.

The School District classifies governmental fund balances as follows:

- Non-spendable—Includes amounts that inherently cannot be spent either because they are not in a spendable form (i.e., prepaids, inventories, long-term loan receivables, etc.) or because they are legally or contractually required to be maintained intact (i.e., principal on an endowment, etc.).
- Restricted—Includes amounts that are constrained by specific purposes which are externally imposed by (a) other governments through laws and regulations, (b) grantors or contributions through agreements, (c) creditors through debt covenants or other contracts, or (d) imposed by law through constitutional provisions or enabling legislation.
- Committed—Includes amounts that are constrained for specific purposes that are internally imposed by the government through formal action made by School District Council, which is the highest level of decision making authority, before the end of the reporting period. Those committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of action it employed to previously commit those amounts.
- Assigned—Includes amounts that are intended to be used for specific purposes that are neither considered restricted nor committed, designated by Council before the end of the reporting period.
- Unassigned—Includes amounts that do not qualify to be accounted for and reported in any of the other fund balance categories. This classification represents the amount of fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the General Fund. The General Fund should be the only fund that reports a positive unassigned fund balance amount. In other governmental funds, if expenditures incurred for specific purposes exceeded the amounts that are restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance.

Proprietary fund equity is classified the same as in the government-wide statements.

SCHOOL DISTRICT OF WILLIAMSBURG COUNTY
KINGSTREE, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
June 30, 2021
(Continued)

The School District generally uses restricted amounts first when both restricted and unrestricted (committed, assigned and unassigned) fund balance is available unless there are legal documents, contracts, or agreements that prohibit doing such. Additionally, the School District would first use committed, then assigned and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

O. Operating and Non-Operating Revenues and Expenses

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Non-operating revenues, such as subsidies and investment earnings, result from non-exchange transactions or ancillary activities. Operating expenses for the proprietary fund include costs of sales, administrative expenses and depreciation of capital assets. All other expenses are reported as non-operating expenses.

P. Capital Contributions

Contributions of capital on government-wide and enterprise fund financial statements arise from outside contributions of capital assets, contributions from other funds or from grants or outside contributions of resources restricted to capital acquisition and construction.

Q. Inter-fund Transactions

Transactions between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as inter-fund transfers. Inter-fund transfers are reported as other financing sources/uses in the governmental funds and non-operating revenues/expenses in the enterprise fund. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

R. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the School District's management to make estimates and assumptions. The estimates and assumptions affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reported period. Actual results could differ from those estimates.

S. Statement of Cash Flows

For purposes of the statement of cash flows, the School District’s proprietary fund considers cash and cash equivalents. Cash equivalents are defined as short-term, highly liquid investments that are readily convertible to known amounts of cash and are so near their maturity that they present insignificant risk of changes in value because of changes in interest rates. Cash equivalents include certificates of deposits, treasury bills and money market funds.

T. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the South Carolina Retirement System (SCRS) and additions to/deductions from SCRS’s fiduciary net position have been determined on the same basis as they are reported by SCRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Note 2. Deposits and Investments

Deposits – Custodial Credit Risk

Custodial credit risk is the risk that, in the event of a bank failure, the School District’s deposits may not be recovered. The School District does not have a deposit policy for custodial credit risk. As of June 30, 2021, \$16,150,454 of the School District’s bank balance of \$17,007,340 which has a carrying value of \$16,758,255 was exposed to custodial credit risk as follows:

| | |
|--|----------------------|
| Uninsured by FDIC, but collateral held by pledging bank not in the School District’s name | <u>\$ 16,150,454</u> |
|--|----------------------|

Investments

As of June 30, 2021, the School District had the following investment and maturity:

| <u>Investment Type</u> | <u>Credit Rating</u> | <u>Fair Value</u> | <u>Investment Maturity Less Than 1 Year</u> |

South Carolina Pooled Investment Fund – The South Carolina Pooled Investment Fund (the “Pool”) are invested with the South Carolina State Treasurer’s Office, which established the Pool pursuant to Section 6-6-10 of the South Carolina Code. The Pool is an investment trust fund, in which public monies in excess of current needs, which are under the custody of any city/county treasurer or any governing body of a political subdivision of the State, may be deposited. The Pool is a 2a-7 like pool which is not registered with the Securities and Exchange Commission (“SEC”) as an investment company, but has a policy that it will operate in a manner consistent with the SEC’s rule 2a-7 of the Investment Company Act of 1940. In accordance with GASB Statement No. 31, “Accounting and Financial Reporting for Certain Investments and for External Investment Pools”, investments are carried at fair value determined annually based upon quoted market prices. The total fair value of the

Pool is apportioned to the entities with funds invested on an equal basis for each share owned, which are acquired at a cost of \$1.

Interest Rate Risk – The School District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Custodial Credit Risk for Investments- Custodial credit risk for investments is the risk that, in the event of a bank failure, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The School District does not have a deposit policy for custodial credit risk, but follows the investment policy statutes of the State of South Carolina. As of June 30, 2021, none of the School District’s investments were exposed to custodial credit risk.

Concentration of Credit Risk for Investments – The School District places no limit on the amount invested in any one issuer. Investments issued by or explicitly guaranteed by the U.S. Government and investments in mutual funds, external investment pools and other pooled investments are exempt from concentration of credit risk disclosures.

Note 3. Property Taxes

The School District assesses and levies property taxes in accordance with applicable laws of the State of South Carolina. Real property and personal property of every description owned and used in the School District, except that which is exempt from taxation under the Constitution and Laws of the State, is subject to taxation. An annual ordinance establishing the millage rate associated with the levy is adopted each year as a part of the budget adoption process.

Real property and all personal property other than vehicles are assessed for property tax purposes on January 1 of each year. All taxable property is assessed in proportion to its value on that date. The basis for value of taxable property within the School District is taken from the records of the Williamsburg County Auditor. Taxes are levied in October and are due and payable at that time. Property taxes are due by January 15, and penalties are imposed as follows: 3% prior to February 1, an additional 7% prior to March 15, and an additional 5% plus collection costs after March 15.

Property taxes on licensed motor vehicles are collected on a monthly basis in the month in which individual motor vehicles licenses are renewed and revenue is recognized as collected. Property taxes are billed by Williamsburg County and are recognized when collected and remitted to the School District by the County Treasurer. Real property taxes collected within 60 days after the fiscal year end are also recognized as revenue for the year.

A summary of outstanding property taxes at June 30, 2021, is presented below.

Note 7. Long-term Debt

Governmental Activities:

As of June 30, 2021, the governmental long-term debt consisted of general obligation bonds, installment purchase revenue bonds, capital leases, and compensated absences.

General Obligation Bonds

General obligation bonds are direct obligations and pledge the full faith and credit of the School District. These bonds are issued as serial bonds with varying amounts of principal maturing each year. As part of the Education Improvement Act approved by the State Legislature, school building aid programs are part of an entire package to provide for capital improvements or reduction of millage required to pay debt service and bonds issued for such purposes. Specifically, unless exempted, if the School District has issued bonds during the most recent five fiscal years, at least 50% of the school building aid funds must be used to reduce millage required to pay debt service on such outstanding bonds. The School District has been exempted from this provision.

On August 18, 2017, the School District issued Series 2017B General Obligation Bonds totaling \$2,100,000 with principal payments due each March 1 and semi-annual interest payments due March 1 and September 1 of each year. The bonds range in maturity dates from 2018 to 2022. The interest rate is fixed at 1.95%. The outstanding principal as of June 30, 2021, was \$464,000. This bond is applicable to the School District's 8% debt limit.

Annual debt service requirements to maturity for general obligation bonds are as follows:

| <u>Year Ending June 30,</u> | <u>Principal</u> | <u>Interest</u> |
|-----------------------------|-------------------|-----------------|
| 2022 | \$ 464,000 | \$ 9,048 |
| | <u>\$ 464,000</u> | <u>\$ 9,048</u> |

Installment Revenue Bonds

The installment purchase revenue bonds were issued by the SCAGO Educational Facilities Corporation (EFC) for School District of Williamsburg County bonds pursuant to a Purchase and Use Agreement. Upon each payment or prepayment of base payments, title to an undivided interest in the 2006 facilities equal to that percentage of the purchase price represented by such payment or prepayment will transfer to the School District. Under the terms of the agreement, each payment by the School District entitles it to the use and occupancy of all of the 2006 facilities during the applicable fiscal year. The School District expects to make the base payments from proceeds of general obligation bonds the School District would issue either annually or semi-annually for the purpose of making the payments.

KINGSTREE, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
June 30, 2021
(Continued)**

On December 28, 2006, the SCAGO Educational Facilities Corporation (EFC) issued Series 2006 Installment Purchase Revenue Bonds totaling \$22,500,000 with principal payments due each December 1 and semi-annual interest payments due June 1 and December 1 of each year. The bonds range in maturity dates from 2014 to 2031. The interest rate ranges from 4.00% to 5.00%. This bond was refunded in March 2016 by the SCAGO Educational Facilities Corporation of Williamsburg School District Installment Purchase Refunding Revenue Bond Taxable Series 2016A and 2016B.

Interest paid on the debt issued by the School District is exempt from federal income tax. The School District sometimes temporarily reinvests the proceeds of such tax-exempt debt in materially higher-yielding taxable securities, primarily during construction projects. The federal tax code refers to this practice as arbitrage. Excess earnings resulting from arbitrage must be rebated to the federal government on the fifth anniversary of the issuance of the tax-exempt debt and every five years thereafter until the debt has been repaid, in accordance with the arbitrage regulations. The School District has recorded an arbitrage rebate of \$112,889 at June 30, 2021, which represents the positive arbitrage on the EFC indebtedness as of this date.

Installment Purchase Refunding Revenue Bonds

On March 1, 2016, the SCAGO Educational Facilities Corporation (EFC) issued Series 2016 Installment Purchase Refunding Revenue Bonds totaling \$17,625,000 with principal payments due each December 1 and semi-annual interest payments due June 1 and December 1 of each year. The bonds range in maturity dates from 2016 to 2031. The interest rate ranges from 1.35% to 4.00%. The outstanding principal as of June 30, 2021, was \$14,170,000.

Annual debt service requirements to maturity for installment purchase refunding bonds are as follows:

| <u>Year Ending June 30,</u> | <u>Principal</u> | <u>Interest</u> |

Note 11. Employee Retirement Plans

The South Carolina Public Employee Benefit Authority (PEBA), created July 1, 2012, is the state agency responsible for the administration and management of the various retirement systems and retirement programs of the state of South Carolina, including the State Optional Retirement Program and the S.C. Deferred Compensation Program, as well as the state’s employee insurance programs. As such, PEBA is responsible for administering the South Carolina Retirement Systems’ five defined benefit pension plans. PEBA has an 11-member Board of Directors, appointed by the Governor and General Assembly leadership, which serves as custodian, co-trustee and co-fiduciary of the Systems and the assets of the retirement trust funds. The Retirement System Investment Commission (Commission as the governing body, RSIC as the agency), created by the General Assembly in 2005, has exclusive authority to invest and manage the retirement trust funds’ assets. The Commission, an eight -member board, serves as co-trustee and co-fiduciary for the assets of the retirement trust funds. By law, the State Fiscal Accountability Authority (SFAA), which consists of five elected officials, also reviews certain PEBA Board decisions regarding the actuary of the Systems.

For purposes of measuring the net pension liability, deferred outflows and inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Systems and additions to/deductions from the systems fiduciary net position have been determined on the accrual basis of accounting as they are reported by the Systems in accordance with generally accepted accounting principles (GAAP). For this purpose, revenues are recognized when earned and expenses are recognized when incurred. Benefit and refund expenses are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value.

PEBA issues a Comprehensive Annual Financial Report (“CAFR”) containing financial statements and required supplementary information for Systems’ Pension Trust Funds. The CAFR is publicly available through the Retirement Benefits’ link on the PEBA’s website at www.peba.sc.gov, or a copy may be obtained by submitting a request to PEBA, 202 Arbor Lake Drive, Columbia, SC 29223. PEBA is considered a division of the primary government of the State of South Carolina and therefore, retirement trust fund financial information is also included in the comprehensive annual financial report of the state.

NOTES TO FINANCIAL STATEMENTS
June 30, 2021
(Continued)

Plan Description- The South Carolina Retirement System (SCRS), a cost-sharing multiple-employer defined benefit pension plan, was established July 1, 1945, pursuant to the provisions of Section 9-1-20 of the South Carolina Code of Laws for the purpose of providing retirement and other benefits for teachers and employees of the state and its political subdivisions. SCRS covers employees of state agencies, public school districts, higher education institutions, other participating local subdivisions of government and individuals newly elected to the South Carolina General Assembly at or after the 2012 general election.

The State Optional Retirement Program (ORP) is a defined contribution plan that is offered as an alternative to SCRS to certain newly hired employees of state agencies, institutions of higher education, public school districts and individuals first elected to the General Assembly at or after the general election in November 2012. State ORP participants direct the investment of their funds into an account administered by one of the four third party service providers. PEBA assumes no liability for State ORP benefits. Rather, the benefits are the liability of the four third party service providers. For this reason, State ORP assets are not part of the retirement systems' trust funds for financial statement purposes.

In addition to the plans described above, PEBA also administers three single employer defined benefit pension plans, which are not covered in this report. They are the Retirement System for Members of the General Assembly of the State of South Carolina (GARS), the Retirement System for Judges and Solicitors of the State of South Carolina (JSRS), and the South Carolina National Guard Supplemental Retirement Plan (SCNG).

Membership- Membership requirements are prescribed in Title 9 of the South Carolina Code of Laws. A brief summary of the requirements under each system is presented below.

SCRS - Generally, all employees of covered employers are required to participate in and contribute to the system as a condition of employment. This plan covers general employees and teachers and individuals newly elected to the South Carolina General Assembly beginning with the November 2012 general election. An employee member of the system with an effective date of membership prior to July 1, 2012, is a Class Two member. An employee member of the system with an effective date of membership on or after July 1, 2012, is a Class Three member.

State ORP – As an alternative to membership in SCRS, newly hired state, public school, and higher education employees and individuals newly elected to the S.C. General Assembly beginning with the November 2012 general elections have the option to participate in the State ORP. Contributions to the State ORP are at the same rate as SCRS. A direct remittance is required from the employer to the member's account with the ORP service provider for the employee contribution and a portion of the employer contribution (5 percent). A direct remittance is also required to SCRS for the remaining portion of the employer contribution and an identical death benefit contribution, if applicable, which is retained by SCRS.

*Benefits-*Benefit terms are prescribed in Title 9 of the South Carolina Code of Laws. PEBA does not have the authority to establish or amend benefit terms without a legislative change in the code of laws. Key elements of the benefit calculation include the benefit multiplier, years of service, and average final compensation/current annual salary. A brief summary of benefit terms for each system is presented below.

SCHOOL DISTRICT OF WILLIAMSBURG COUNTY
KINGSTREE, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
June 30, 2021
(Continued)

SCRS - A Class Two member who has separated from service with at least five or more years of earned service is eligible for a monthly pension at age 65 or with 28 years credited service regardless of age. A member may elect early retirement with reduced pension benefits payable at age 55 with 25 years of service credit. A Class Three member who has separated from service with at least eight or more years of earned service is eligible for a monthly pension upon satisfying the Rule of 90 requirement that the total of the member's age and the member's creditable service equals at least 90 years. Both Class Two and Class Three members are eligible to receive a reduced deferred annuity at age 60 if they satisfy the five- or eight-year earned service requirement, respectively. An incidental death benefit is also available to beneficiaries of active and retired members of employers who participate in the death benefit program.

The annual retirement allowance of eligible retirees or their surviving annuitants is increased by the lesser of one percent or five hundred dollars every July 1. Only those annuitants in receipt of a benefit on July 1 of the preceding year are eligible to receive the increase. Members who retire under the early retirement provisions at age 55 with 25 years of service are not eligible for the benefit adjustment until the second July 1 after reaching age 60 or the second July 1 after the date they would have had 28 years of service credit had they not retired.

Contributions- Actuarial valuations are performed annually by an external consulting actuary to ensure applicable contribution rates satisfy the funding parameters specified in Title 9 of the South Carolina Code of Laws. Under these provisions, SCRS and PORS contribution requirements must be sufficient to maintain an amortization period for the financing of the unfunded actuarial accrued liability (UAAL) over a period that does not exceed the number of years scheduled in state statute. Legislation in 2017 increased, but also established a ceiling for SCRS and PORS employee contribution rates. Effective July 1, 2017, employee rates were increased to a capped rate of 9.00 percent for SCRS and 9.75 percent for PORS. The legislation also increased employer contribution rates beginning July 1, 2017, for both SCRS and PORS by two percentage points and further scheduled employer contribution rates to increase by a minimum of one percentage point each year in accordance with state statute. If the scheduled contributions are not sufficient to meet the funding periods set in state statute, the board shall increase the employer contribution rates as necessary to meet the funding periods set for the applicable year. The maximum funding period of SCRS and PORS is scheduled to be reduced over a ten-year schedule from 30 years beginning fiscal year 2018 to 20 years by fiscal year 2028.

Additionally, the Board is prohibited from decreasing the SCRS and PORS contribution rates until the funded ratio is at least 85 percent. If the most recent annual actuarial valuation of the Systems for funding purposes shows a ratio of the actuarial value of system assets to the actuarial accrued liability of the system (the funded ratio) that is equal to or greater than 85 percent, then the board, effective on the following July first, may decrease the then current contribution rates upon making a finding that the decrease will not result in a funded ratio of less than 85 percent. If contribution rates are decreased pursuant to this provision, and the most recent annual actuarial valuation of the system shows a funded ratio of less than 85 percent, then effective on the following July first, and annually thereafter as necessary, the board shall increase the then current contribution rates until a subsequent annual actuarial valuation of the system shows a funded ratio that is equal to or greater than 85 percent.

Actuarial Assumptions and Methods- Actuarial valuations involve estimates of the reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and future salary increases. Actuarial assumptions and methods used during the annual evaluation process are subject to periodic revision, typically with an experienced study, as actual results over an extended period of time are compared with past expectations and new estimates are made about the future. South Carolina state statute requires that an actuarial experience study be completed at least once in each five-year period. An experience report on the Systems was most recently issued for the period ending June 30, 2019, for first use in the July 1, 2021, actuarial valuation.

The June 30, 2019, total pension liability (TPL), net pension liability (NPL), and sensitivity information shown in this report were determined by Gabriel, Roeder, Smith and Company (GRS) and are based on an actuarial valuation performed as of July 1, 2019. The total pension liability was rolled-forward from the valuation date to the plans' fiscal year end, June 30, 2020, using generally accepted actuarial principles.

The following table provides a summary of the actuarial assumptions and methods used to calculate TPL as of June 30, 2020.

The post-retiree mortality assumption is dependent upon the member's job category and gender. The base mortality assumptions, the 2016 Public Retirees of South Carolina Mortality table (2016 PRSC), was developed using the Systems' mortality experience. These base rates are adjusted for future improvement in mortality using published Scale AA projected from the year 2016.

Assumptions used in the determination of the June 30, 2020, TPL are as follows.

| Former Job Class | Males | Females |
|---|------------------------------------|--------------------------------------|
| Educators and Judges | 2016 PRSC males multiplied by 92% | 2016 PRSC Females multiplied by 98% |

| Public Safety and Firefighters | 2016 PRSC Males multiplied by 125% | 2016 PRSC Females multiplied by 111% |

Net Pension Liability of the Plan – The NPL is calculated separately for each system and represents that particular system's total pension liability (TPL) determined in accordance with GASB No. 67 less that System's fiduciary net position. NPL totals, as of June 30, 2020, for SCRS are as follows:

| System | Total Pension Liability | Plan Fiduciary Net Position | Employers' Net Pension Liability (Asset) | Plan Fiduciary Net Position as a Percentage of the Total Pension Liability |

The TPL is calculated by the Systems' actuary, and each plan's fiduciary net position is reported in the Systems' financial statements. The NPL is disclosed in accordance with the requirements of GASB 67 in the Systems' notes to the financial statements and required supplementary information. Liability calculations performed by the Systems' actuary for the purpose of satisfying the requirements of GASB Nos. 67 and 68 are not applicable for other purposes, such as determining the plans' funding requirements.

Long-term Expected Rate of Return- The long-term expected rate of return on pension plan investments is based upon the 30-year capital market assumptions. The long-term expected rates of return represent assumptions developed using an arithmetic building block approach, primarily based on consensus expectations and market based inputs. Expected returns are net of investment fees.

The expected returns, along with the expected inflation rate, form the basis for the target asset allocation adopted at the beginning of the 2020 fiscal year. The long-term expected rate of return is produced by weighting the expected future real rates of return by the target allocation percentage and adding expected inflation and is summarized in the table below. For actuarial purposes, the 7.25 percent assumed annual investment rate of return used in the calculation of the TPL includes a 5.00 percent real rate of return and a 2.25 percent inflation component.

| Inflation for Actuarial Purposes | | | 2.25% |
| | | | <u>8.05%</u> |

Discount rate- The discount rate used to measure the TPL was 7.25 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers in SCRS will be made based on the actuarially determined rates based on the provisions in the South Carolina Code of Laws. Based on those assumptions, each System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the TPL.

Sensitivity Analysis- The following table presents the proportionate share of the NPL of the plan calculated using the discount rate of 7.25 percent, as well as what the School District's NPL would be if it were calculated using a discount rate that is 1.00 percent lower (6.25 percent) or 1.00 percent higher (8.25 percent) than the current rate.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions- At June 30, 2021, the School District reported a liability of \$44,982,754 for the SCRS proportionate share of the NPL. The NPL was measured as of June 30, 2020, and the TPL used to calculate the NPL was determined by an actuarial valuation as of that date. The School District's proportion of the NPL was based on a projection of the School District's long-term share of contributions to the pension plan relative to the projected contributions of all participating members, actuarially determined.

For the year ended June 30, 2021, the School District recognized pension benefit of \$1,010,702. The benefit amount included actual employer contributions, changes in deferred outflows and/or inflows of resources related to changes in employers' proportionate share of the collective NPL, and differences between actual employer contributions and proportionate share of total plan employer contributions as reported by PEBA for the year ended June 30, 2020.

At June 30, 2021, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | <u>Deferred Outflows of Resources</u> | <u>Deferred Inflows of Resources</u> |
|--|--|---|
| Differences between expected and actual experience | \$ 519,041 | \$ 170,099 |
| Changes of assumptions | 55,113 | - |
| Net difference between projected and actual earnings on pension plan investments | 3,308,858 | 4,350,508 |
| Changes in proportion and differences between District contributions and proportionate share of contributions | - | - |
| District contributions subsequent to measurement date | <u>3,080,605</u> | <u>-</u> |
| Total | <u>\$ 6,963,617</u> | <u>\$ 4,520,607</u> |

The amount of \$3,080,605 reported as deferred outflows of resources related to pensions resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows related to pensions will be recognized in the pension expense as follows:

Note 12. Post-Employment Health Care Benefits

The South Carolina Public Employee Benefit Authority (PEBA) was created by the South Carolina General Assembly as part of Act No. 278 effective July 1, 2012. PEBA – Insurance Benefits is a state agency responsible for the administration and management of the state’s employee insurance programs, other post-employment benefits trust and retirement systems and is part of the State of South Carolina primary government.

The governing board of PEBA is a board of 11 members. The membership composition is three members appointed by the Governor, two members appointed by the President Pro Tempore of the Senate, two members appointed by the Chairman of the Senate Finance Committee, two members appointed by the Speaker of the House of Representatives and two members appointed by the Chairman of the House Ways and Means Committee. Individuals appointed to the PEBA board must possess certain qualifications. Members of the PEBA board serve for terms of two years and until their successors are appointed and qualify. Terms commence on July first of even numbered years. The PEBA board appoints the Executive Director. The laws of the State and the policies and procedures specified by the State for State agencies are applicable to all activities of PEBA. By law, the State Fiscal Accountability Authority (SFFA), which consists of five elected officials, also reviews certain PEBA Board decisions in administering the State Health Plan and other post-employment benefits (OPEB).

Plan Description: The Other Post-Employment Benefits Trust Funds (OPEB Trusts), collectively refers to the South Carolina Retiree Health Insurance Trust Fund (SCRHITF) and the South Carolina Long-Term Disability Insurance Trust Fund (SCLTDITF), were established by the State of South Carolina as Act 195, which became effective on May 2008. The SCRHITF was created to fund and account for the employer costs of the State’s retiree health and dental plans. The SCLTDITF was created to fund and account for the employer costs of the State’s Basic Long-Term Disability Income Benefit Plan.

In accordance with Act 195, the OPEB Trusts are administered by the PEBA, Insurance Benefits and the State Treasurer is the custodian of the funds held in trust. The Board of Directors of PEBA has been designated as the Trustee.

The OPEB Trusts are cost-sharing multiple-employer defined benefit plans. Article 5 of the State Code of Laws defines the two plans and authorizes the Trustee to at any time adjust the plans, including its benefits and contributions, as necessary to insure the fiscal stability of the plans. In accordance with the South Carolina Code of Laws and the annual Appropriations Act, the State provides post-employment health and dental and long-term disability benefits to retired State and school district employees and their covered dependents.

Plan Benefits: The SCRHITF is a healthcare plan that covers retired employees of the State of South Carolina, including all agencies, and public school districts. The SCRHITF provides health and dental insurance benefits to eligible retirees. Generally, retirees are eligible for the health and dental benefits if they have established at least ten years of retirement service credit. For new hires beginning employment May 2, 2008, and after, retirees are eligible for benefits if they have established 25 years of service for 100% employer funding and 15-24 years of service for 50% employer funding.

The SCLTDITF is a long-term disability plan that covers employees of the State of South Carolina, including all agencies and public school districts and all participating local governmental entities. The SCLTDITF provides disability payments to eligible employees that have been approved for disability.

Plan Contributions and Funding Policies: Section 1-11-710 of the South Carolina Code of Laws of 1976, as amended, requires the postemployment and long-term disability benefits to be funded through non-employer and employer contributions for active employees and retirees to PEBA – Insurance Benefits. Non-employer contributions consist of an annual appropriation by the General Assembly and the statutorily required transfer from PEBA – Insurance Benefit reserves

The SCRHITF is funded through participating employers that are mandated by State statute to contribute at a rate assessed each year by the Department of Administration Executive Budget Office on active employee covered payroll. The covered payroll surcharge for the year ended June 30, 2020, was 6.25 percent. The South Carolina Retirement System collects the monthly covered payroll surcharge for all participating employers and remits it directly to the SCRHITF. Other sources of funding for the SCRHITF also include the implicit subsidy, or age-related subsidy inherent in the healthcare premiums structure. The implicit subsidy represents a portion of the health care expenditures paid on behalf of the employer's active employees. For purposes of GASB Statement No. 75, this expenditure on behalf of the active employee is reclassified as a retiree health care expenditure so that the employer's contributions towards the plan reflect the underlying age-adjusted, retiree benefit costs. Non-employer contributions include the mandatory transfer of accumulated PEBA – Insurance Benefits' reserves and the annual appropriation budgeted by the General Assembly. It is also funded through investment income.

The allocation percentage of the OPEB amounts are calculated differently for each OPEB Trust. For the SCRHITF, the allocation percentage is based on the covered payroll surcharge contribution for each employer. Please note that actual covered payroll contributions received from SCRS for the fiscal year 2020 totaled \$578,838,884. However, the covered payroll contributions total includes prior year covered payroll contribution adjustments and true-ups that net to a total of \$2,724,225.

NOTES TO FINANCIAL STATEMENTS
June 30, 2021
(Continued)

In accordance with part (b) of paragraph 69 of GASB Statement No. 75, participating employers should recognize revenue in an amount equal to the employer's proportionate share of the change in the collective net OPEB liability arising from contributions to the OPEB plan during the measurement period from non-employer contributing entities for purposes other than the separate financing of specific liabilities to the OPEB plan. Therefore, employers should classify this revenue in the same manner as it classifies grants from other entities.

For purposes of measuring the net OPEB liability, deferred outflows and inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the OPEB Trusts, and additions to and deductions from the OPEB Trusts fiduciary net position have been determined on the same basis as they were reported by the OPEB Trusts. For this purpose, revenues are recognized when earned and expenses are recognized when incurred. Therefore, benefit and administrative expenses are recognized when due and payable. Investments are reported at fair value.

PEBA - Insurance Benefits issues audited financial statements and required supplementary information for the OPEB Trust Funds. This information is publicly available through the Insurance Benefits' link on PEBA's website at www.peba.sc.gov or a copy may be obtained by submitting a request to PEBA – Insurance Benefits, 202 Arbor Lake Drive, Columbia, SC 29223. PEBA is considered a division of the primary government of the state of South Carolina and therefore, OPEB Trust fund financial information is also included in the comprehensive annual financial report of the state.

Actuarial Assumptions and Methods: Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plans (as understood by the employer and plan participants) and include the types of benefits provided at the time the valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

Roll Forward Disclosure: The actuarial valuation was performed as of June 30, 2019. Update procedures were used to roll forward the total OPEB liability to June 30, 2020.

Net OPEB Liability: The Net OPEB Liability (NOL) is calculated separately for each OPEB Trust Fund and represents that particular Trust’s Total OPEB Liability (TOL) determined in accordance with GASB No. 74 less that Trust’s fiduciary net position. The allocation of each employer’s proportionate share of the collective Net OPEB Liability and collective OPEB Expense was determined using the employer’s payroll-related contributions over the measurement period. This method is expected to be reflective of the employer’s long-term contribution effort as well as be transparent to individual employers and their external auditors

NOTES TO FINANCIAL STATEMENTS
June 30, 2021

Single Discount Rate: The Single Discount Rate of 2.45% was used to measure the total OPEB liability for the SCRHITF. The accounting policy for this plan is to set the Single Discount Rate equal to the prevailing municipal bond rate. Due to the plan's investment and funding policies, the difference between a blended discount rate and the municipal bond rate would be less than several basis points (several hundredths of one percent).

A Single Discount Rate of 2.83% was used to measure the total OPEB liability for the SCLTDITF. This Single Discount Rate was based on an expected rate of return on plan investments of 3.00% and a municipal bond rate of 2.45%. The projection of cash flows to determine this Single Discount Rate assumed that employer contributions will remain \$38.64 per year for each covered active employee. Based on these assumptions, the plan's Fiduciary Net Position and future contributions were sufficient to finance the benefit payments through the year 2041. As a result, the long-term expected rate of return on plan investments was applied to project benefit payments through the year 2041, and the municipal bond rate was applied to all benefit payments after that date.

Long-term Expected Rate of Return: The long-term expected rate of return represents assumptions developed using an arithmetic building block approach primarily based on consensus expectations and market based inputs. The expected returns, along with the expected inflation rate, form the basis for the target asset allocation adopted at the beginning of the 2018 fiscal year. The long-term expected rate of return is produced by weighting the expected future real rates of return by the target allocation percentage and adding expected inflation. This information is summarized in the following table:

| SOUTH CAROLINA RETIREE HEALTH INSURANCE TRUST FUND | | | |
|---|------------------------------------|--|---|
| Asset Class | Target Asset Allocation | Expected Arithmetic Real Rate of Return | Allocation- Weighted Long- Term Expected Real Rate of Return |
| U.S. Domestic Fixed Income | 80.00% | 0.60% | 0.48% |

OPEB Expense, Deferred Outflows and Inflows of Resources: At June 30, 2021, the School District reported a liability of \$38,662,949 for its proportionate share of the net OPEB liability for the SCRHITF. The net OPEB liability was measured as of June 30, 2020, and the total OPEB liability for the SCRHITF used to calculate the net OPEB liability was determined based on the most recent actuarial valuation report of June 30, 2020, that was projected forward to the measurement date. The School District's proportion of the net OPEB liability was based on a projection of the School District's long-term share of contributions to the SCRHITF relative to the projected contributions of all participating South Carolina state and local governmental employers, actuarially determined. At the June 30, 2020, measurement date, the School District proportion was .2141820 percent, there was no change from its proportion measured as of June 30, 2020.

For the year ended June 30, 2021, the School District recognized OPEB expense of \$307,543 for the SCRHITF. At June 30, 2021, the School District reported deferred outflows of resources (deferred OPEB charges) and deferred inflows of resources (deferred OPEB credits) related to OPEB's from the following sources:

| | <u>Deferred Outflows of Resources</u> | <u>Deferred Inflows of Resources</u> |
|--|---|--|

Note 13. Commitments and Contingencies

The School District receives state and federal grants for specific purposes that are subject to review and audit by state and federal agencies. Such audits could result in a request for reimbursement by the state and federal agencies for expenditures disallowed under the terms and conditions of the appropriate agency. In the opinion of School District management, such disallowances, if any, will not be significant.

Various claims and lawsuits are pending against the School District. As of the issuance of the financial statements, it is not known whether any unfavorable outcomes are likely, however, it appears that should there be any unfavorable outcomes, some cause of action may not be covered by insurance.

Note 14. Insurance and Risk Management

The School District is exposed to various risks of loss related to torts, theft, damage, destruction of assets, errors and omissions, injuries to employees and natural disasters. The School District maintains insurance covering each of those risks of loss. Management believes such coverage is sufficient to preclude any significant uninsured loss to the School District.

Settled claims have not exceeded this coverage in any of the past three years. There are no significant reductions in insurance coverage in the prior year.

The School District paid insurance premiums to the South Carolina Counties Property and Liability Trust totaling \$752,985 to cover risks that may occur in normal operations. These risks include loss of real property and contents, motor vehicles, errors and omissions, general liability and theft and dishonesty.

The School District paid insurance premiums to the South Carolina Counties Workers' Compensation Trust totaling \$575,792 for workers' compensation coverage.

Note 15. Intergovernmental Revenues

The School District receives funds from both the State of South Carolina and the federal government for various grants and projects. The majority of these funds are accounted for in the Special Revenue Funds with the major exception being grants from the federal government accounted for in the Proprietary Fund.

NOTES TO REQUIRED SUPPLEMENTAL INFORMATION
June 30, 2021**

Note 1. Budgets and Budgetary Accounting

Budgets, except for the Special Revenue Fund, are adopted on a basis consistent with generally accepted accounting principles. The accounting system provides for appropriate budgetary control. Budgetary comparisons are included in the supplemental schedules for the General Fund. Unused appropriations for all annually budgeted funds lapse at the end of the year.

Note 2. Legal Compliance – Budgets

The School District Administrator submits a proposed operating budget for the fiscal year to the School District Council. The operating budget includes proposed expenditures and the means of financing them. Prior to July 1, the budget is legally enacted through passage of an ordinance. The School District Administrator is authorized to transfer budgeted amounts within departments as necessary to achieve the goals of the budget. Any revisions that alter the total expenditures of any fund must be approved by School District Council. Budgeted amounts reflected in the accompanying financial statements are the final authorized amounts as revised during the year.

The School District has not presented budget information for the Special Revenue Fund, since budgetary control is maintained on an individual grant basis. Since grant periods may differ from the School District's fiscal year, a comparison of budgetary information for the total Special Revenue Fund would not be meaningful and has not been presented in the accompanying financial statements.

The community services and intergovernmental had excess expenditures over appropriations in the amount of \$16,288 and \$19,556, respectively.

SPECIAL REVENUE FUNDS

To account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. A separate fund is used to account for each restricted source. Examples of special revenue funds are:

ENTERPRISE FUND

The enterprise fund is used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent of the government's council is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or where the government's council has decided that periodic determination of net income is appropriate for accountability purposes. The enterprise fund accounts for the revenues and expenditures of the school lunch program.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Honorable Members of the School District of Williamsburg County
Kingstree, South Carolina

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of School District of Williamsburg County, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise School District of Williamsburg County's basic financial statements and have issued our report thereon dated November 29, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered School District of Williamsburg County internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of School District of Williamsburg County internal control. Accordingly, we do not express an opinion on the effectiveness of School District of Williamsburg County internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such as that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention to those charged with governance.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether School District of Williamsburg County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

School District of Williamsburg County Response to Findings

School District of Williamsburg County response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. School District of Williamsburg County response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Honorable Members of the School District of Williamsburg County
Kingstree, South Carolina

Report on Compliance for Each Major Federal Program

We have audited School District of Williamsburg County compliance with the types of compliance requirements described in the *OMB Circular Compliance Supplement* that could have a direct and material effect on each of School District of Williamsburg County major federal programs for the year ended June 30, 2021. School District of Williamsburg County major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Managements is responsible for compliance with the requirements of laws, regulations, contracts and grants applicable to its major federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of School District of Williamsburg County major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about School District of Williamsburg County compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination on School District of Williamsburg County compliance.

Opinion on Each Major Federal Program

In our opinion, School District of Williamsburg County's, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

Report on Internal Control Over Compliance

Management of School District of Williamsburg County is responsible for establishing and maintaining effective internal control over compliance with the types of requirements referred to above. In planning and performing our audit, we considered School District of Williamsburg County internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of School District of Williamsburg County internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
