

District Tech Meeting (10-5-2017)

1. Active Directory
 - o Creating Accounts (Make sure that the AD account is created first)
 - o Changing Passwords
 - o Cleaning up old student accounts
2. Google Admin Console
 - o Creating accounts
 - o Changing passwords
 - o Adding Extensions
3. Remote Desktop
 - o Click on the run button and select run. In the run field type in cmd hit enter. This takes you to a command prompt window and there you will need to type in ipconfig and that will give you the IP number of the device that we need to remote into.

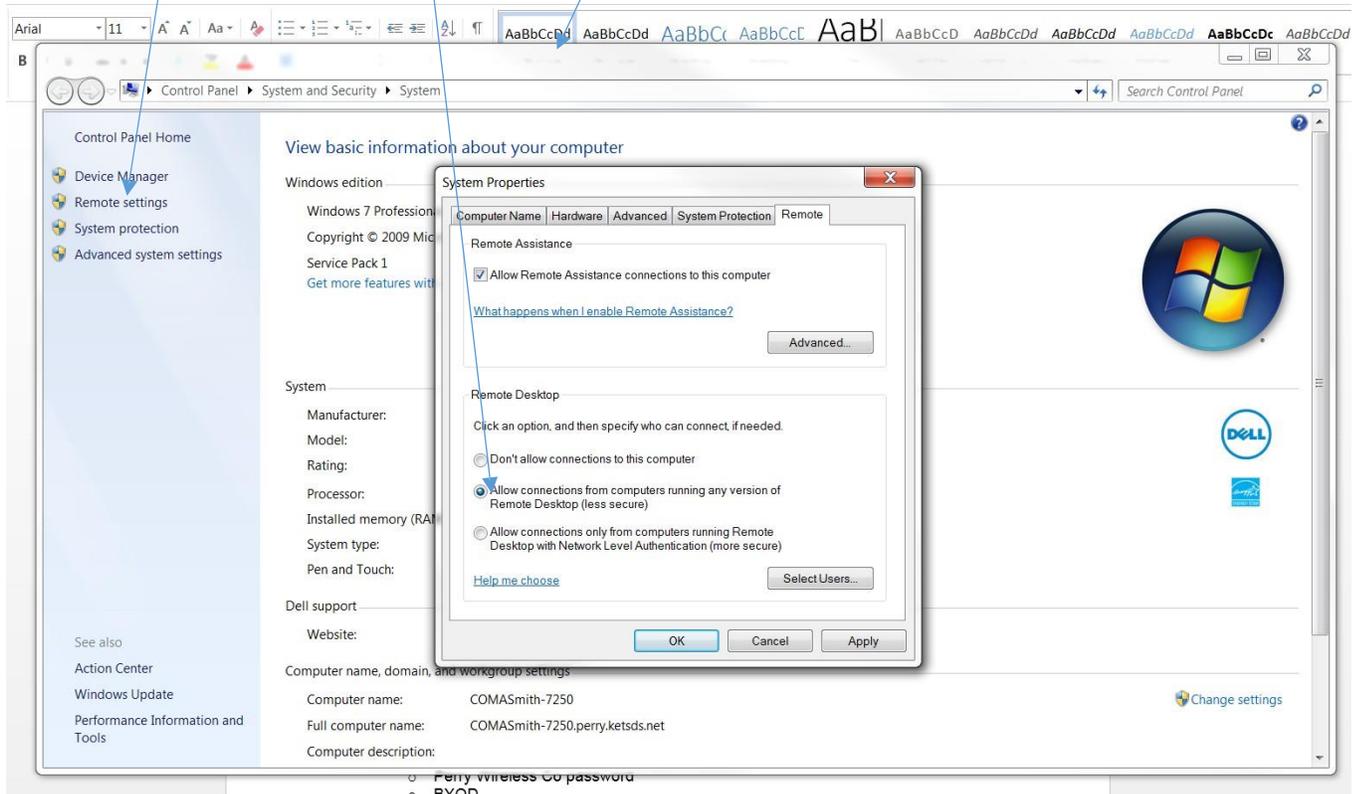

4. Turning on Remote Desktop Services

- Click the start button then right click on computer.

- 5. After you select properties you will see this window then you will need to click remote settings and then click allow connections running any version of windows. This must be turned on before we can remote to any computer.

6. After turning on remote desktop services then you can send the IP number to the tech that you're working with so they can remote to the device and resolve the issue.
7. School owned Chromebooks
 - a. Schools must buy parts to fix these devices
8. Wi-Fi
 - a. Perry County Wireless password
 - b. BYOD
 - c. Signal issues
9. STLP
 - a. Perry County Technology Showcase
 - i. PCCHS Cafeteria
 1. November 9, 2017 (This is a tentative date)
 - b. Regional Showcase
 - i. East Kentucky Expo Center
 1. December 7, 2017
10. Work Order System
11. Questions??

Notes:
