

4TH GRADE MATHEMATICS

COURSE OUTLINE

AUGUST 6 – AUGUST 22

Unit 1 will cover place value, comparison of numbers, addition, and subtraction. During this time period we will also be taking a placement test that allows us to see where students are predicted to score on the STAAR.

AUGUST 25 – SEPTEMBER 11

Unit 2 will cover multiplication, division, and algebraic thinking.

SEPTEMBER 22–OCTOBER 2

Unit 3 will cover multi-digit operations and measurement, this unit will include perimeter and area. During this time period we will also be taking a placement test that allows us to see where students are predicted to score on the STAAR.

OCTOBER 6 – DECEMBER 8

Unit 4 will cover fractions, decimals, and measurement. During this time we will have a benchmark assessment to measure progress.

DECEMBER 9 – JANUARY 20

Unit 5 will cover geometry and measurement, in this unit we will classify shapes and learn about symmetry.

JANUARY 21 – FEBRUARY 9

Unit 6 will cover graphing and finance. During this time period we will also be taking a placement test that allows us to see where students are predicted to score on the STAAR.

4TH GRADE MATHEMATICS

COURSE OUTLINE

FEBRUARY 10 - APRIL 28

After all content is completely covered, we will begin to go into depth on more difficult math processes. During this time, students will gain a deeper understanding of 4th grade topics and have opportunities to ask all of the difficult questions. This time is set aside to help me prepare them for the STAAR test and for the next grade. We will continue to complete progress monitoring tests during this time to ensure that we are on track

APRIL 29 - MAY 28

This time will be used for two main goals. For one, we will do a lot of celebrating your students. We will have career days, water days, and many other fun activities to celebrate the accomplishment of the dreaded standardized test. We will also be preparing for fifth grade by beginning to look into the 5th grade curriculum.

QUESTIONS / COMMENTS

I would be happy to discuss and explain where necessary. If you have any questions about anything that you have read here you can reach me via email or ClassDojo anytime.
