

# SUMMER SAFETY

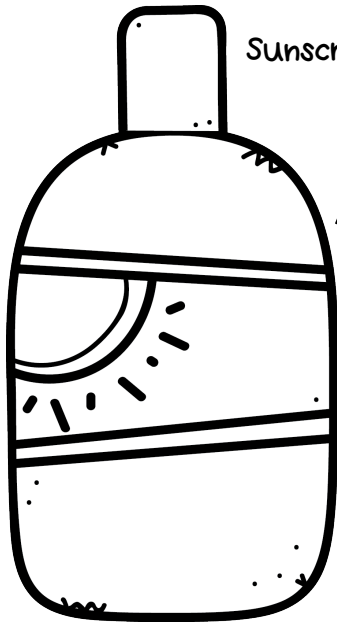

Ways to be SMART and SAFE this SUMMER!

Name: \_\_\_\_\_

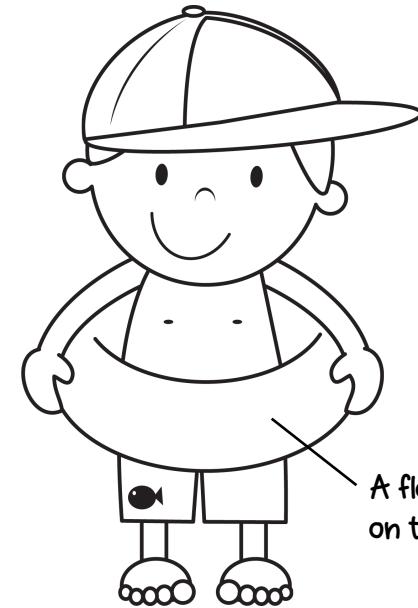

School is out and hot weather  
is here. My mom always says,  
"Be summer smart my dear!"

Sunscreen will keep you from burning.

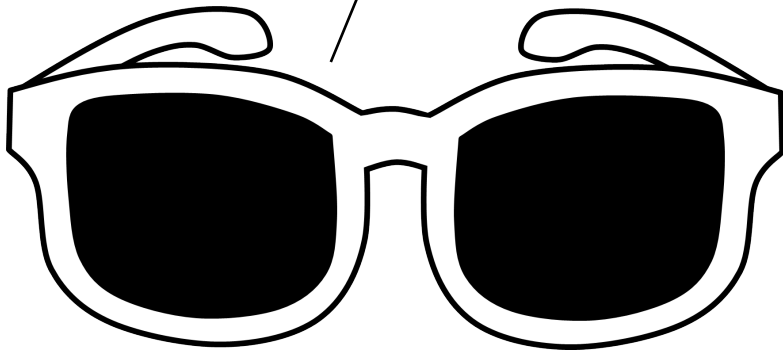

I just want to hop and play.  
She says wear sunscreen every  
day.

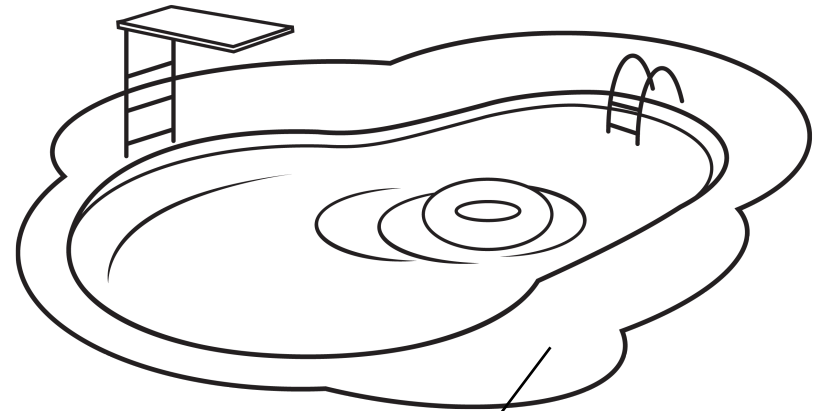

A float will keep you  
on top of the water.

I just want to splash and flip.  
She says wear a float when you  
take a dip.

Sunglasses will protect your eyes from the sun.

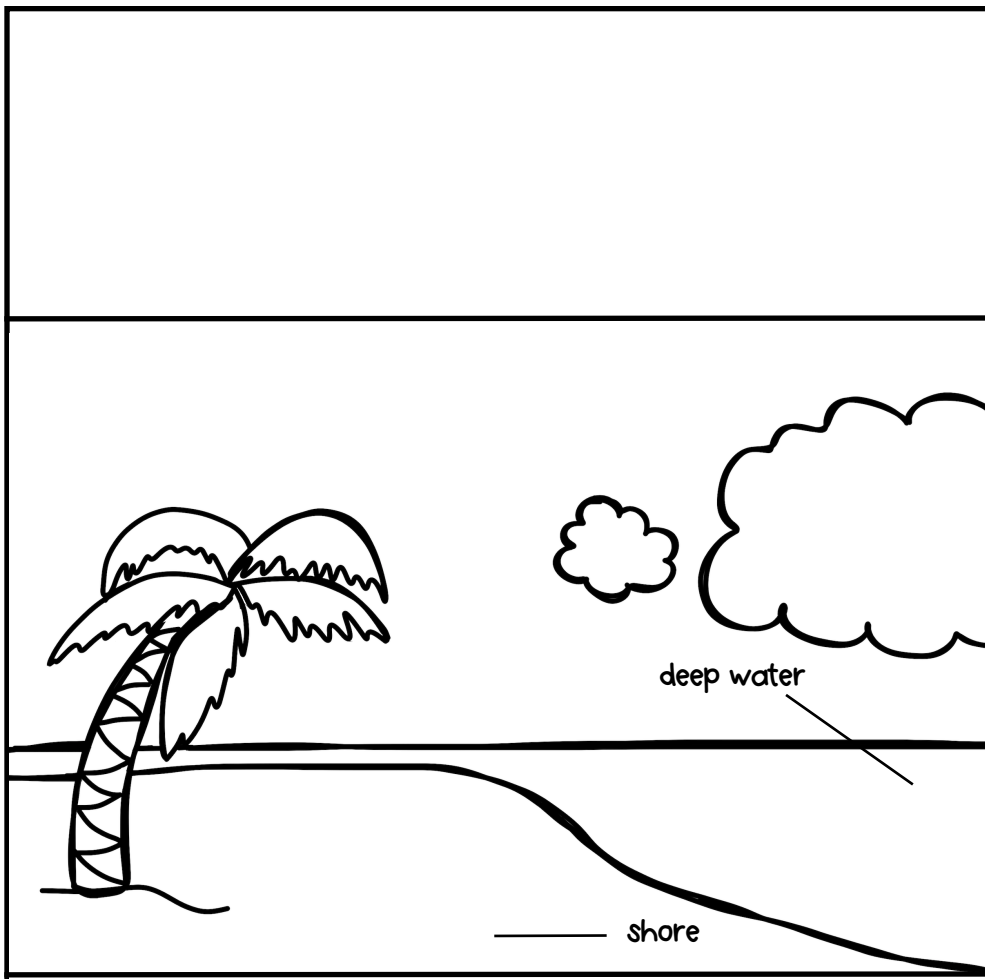

I just want to go and race. She says wear sunglasses on your face.

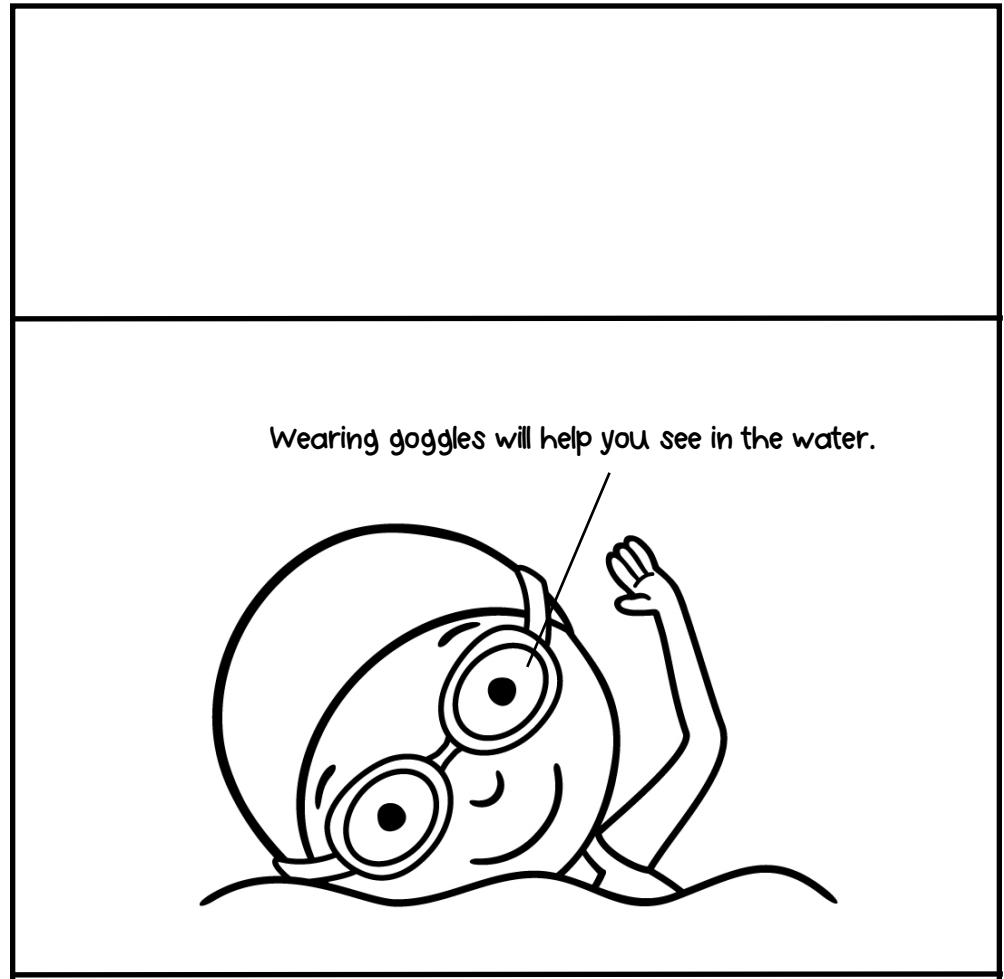

Walking will keep you from falling when the deck is wet.

I just want to dive and stay cool. She says walk when around the pool.

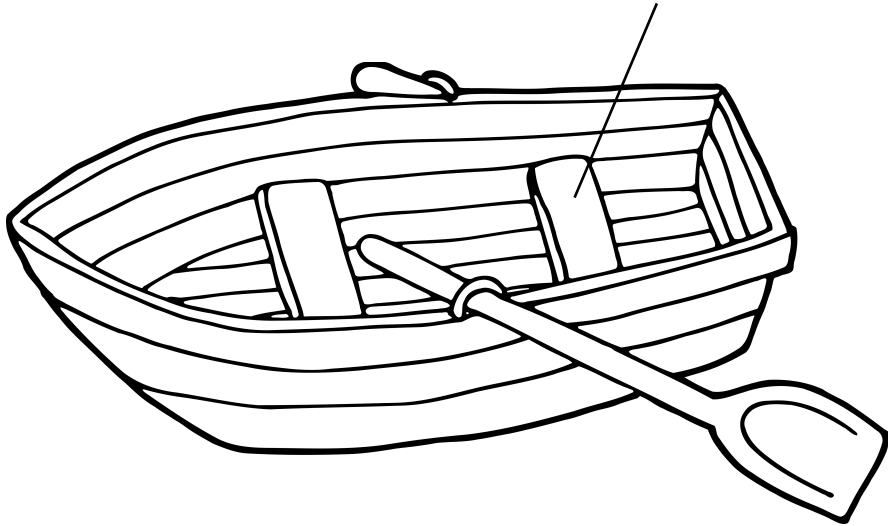

I just want to go far and see  
lots more. She says stay close  
to the shore.

I just want to swim instead.  
She says wear goggles and  
a cap on your head.

Staying low in the boat will help it not tip.

I just want to paddle and row.  
She says wear a life jacket  
and sit low.

Wearing your helmet will protect your head

I can have fun this Summer  
and be safe too. Safety is  
important for me and YOU!
