ISSUE NO. 21

NEWSLETTER

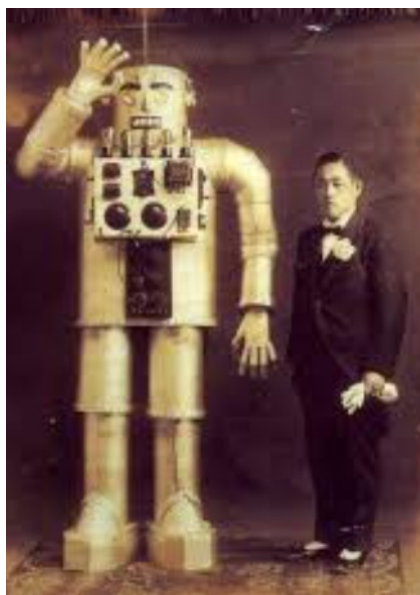

JUNE TECH DATES

June 1: National Information Technology Day. Established in 2021 by government resolution to promote digital transformation, bridge the digital divide, and connect students with tech experts

June 23: International Women in Engineering Day. Celebrated to promote women in tech.

DID YOU KNOW?

The name for "robot" has dark origins. If you look into the etymology for "robot," it translates to forced labor or work. The term "robot" originates from the 1920 Czech sci-fi play R.U.R. by Karel Čapek.

JUNE EDITION

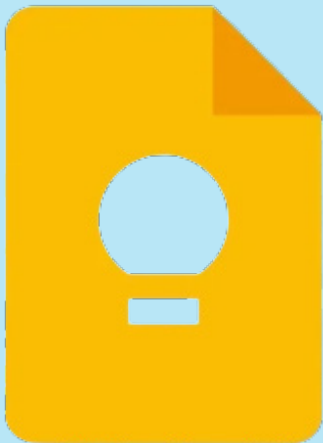

REMINDER

When you return for the 26-27 school year your laptop and/or desktop might not connect to the FCS network and will need to be rejoined to the domain (this happens when devices are unused for a while). Give us a call and we will walk you through the easy steps of rejoining your device(s).

HAPPY BIRTHDAY

Hal's birthday is June 23rd, so if you see him out and about wish him a happy birthday! Hal has been with our Tech Department for 20 years. He is our Systems Support Specialist, Google Admin and so much more. Our Tech Team would be nothing without our Hal!

GOOGLE KEEP

Have you discovered Google Keep yet?

Google Keep is a note-taking service that allows you to create notes, checklists, and reminders. You can even share notes with your colleagues to collaborate on lists or ideas. You can also export notes directly to Google Docs. Open a tab in Chrome and click on the waffle icon (Google Apps) located in the upper right corner to access Keep. [More about Google Keep.](#)
