EVALUATION OF MOTOR VEHICLE RECORDS

The recommended guidelines for evaluating MVRs is based on a point system assigned to various driving violations. Category I consist of minor violations and Category II consists of serious traffic violations.

CATEGORY I

Violations are assigned one point per incident over the past three years. Drivers that accumulate four (4) or more points in a three (3) year period are “unacceptable.” The incidents and point value are as follows:

Incident	Incident Point Value
1. Moving Violations	1
2. “At-Fault” accident	1
3. Any combination of 2 “at-fault” accidents or Moving Violations in a twelve (12) month period	1

An accident and a violation earned at the same time count as one (1) point.

CATEGORY II

All violations in Category II are considered serious traffic violations and are assigned five (5) points each. A Driver acquiring one (1) serious traffic violation during a three (3) year period is considered “unacceptable.” Serious traffic violations are listed as follows:

1. DUI or other alcohol or drug related violations
2. Reckless vehicle operation
3. Assault with a motor vehicle
4. Leaving the scene of an accident
5. Driving under suspension or revocation
6. Excessive speed (twenty [20] or more miles over the speed limit.

The district should develop policy guidelines and procedures to deal with “unacceptable” drivers. The guidelines may allow for some judgment on a case-by-case basis. An “unacceptable” driving record could result in, but not limited to, the following action:

1. Termination from employment
2. Probation for a specified time
3. Placement in non-driving status for a specified time.

NATHAN'S LAW

Senate Bill 2472 or Nathan's Law was signed into law by then Governor Haley Barbour and went into effect on July 1, 2011. The legislation was named for Nathan Key, a 5-year-old who was killed in December 2009 when a vehicle illegally passed his school bus as he was unloading.

The following are major components of Nathan's Law:

- Requires motorists to stop at least 10 feet from a school bus when the bus is loading or unloading children, and motorists must not proceed until all children have crossed the street to or from the school bus and the flashing red lights are no longer activated and the stop sign on the side of the bus is retracted.
- Authorizes a charge of felony assault and a prison sentence of up to 20 years for motorists convicted of illegally passing a school bus that, in the process, results in injury or death.
- Authorizes cameras be equipped on school bus stop arms to film perpetrators in the act.
- Required the development of at least 10 questions relating to school bus safety on a driver's license test.
- Established a School Bus Safety Task Force.
- Prohibits school bus drivers from using cell phones, wireless communication devices, vehicle navigation systems or "personal digital assistants" while operating the bus, except in an emergency.
- Increases the fine for passing a stopped school bus.

RECOMMENDED PROCEDURES FOR CONDUCTING EMERGENCY SCHOOL BUS EVACUATION DRILLS FOR ACTIVITY TRIPS AND FIELD TRIPS

In order to ensure the safety of school bus passengers in an actual emergency, every school bus driver assigned to transport students on activity trips or field trips shall assign an evacuation team prior to each trip. The team may consist of teachers, coaches, students, or any other passenger. A roster shall be provided to the driver accounting for all passengers.

Passengers assigned to evacuation teams must be seated where they can effectively carry out their responsibilities in an emergency. Each evacuation Team will consist of the following:

1. A passenger assigned to set the parking brake, turn off the engine, turn on the warning flashers, and call in on the radio or other means, and report the incident to the Transportation Director, in case the driver is unable to do so.
2. A passenger assigned to lead passengers to a safe location at least one hundred (100) feet from the bus and taking the first aid kit off the bus.
3. Two (2) passengers assigned to stand outside the bus, next to the front door, to help students exit the bus and for taking the fire extinguisher.
4. Two (2) passengers assigned to stand outside the bus next to the rear door to help students exit the bus.

In addition to assigning an evacuation team, the following information shall be discussed and/or demonstrated prior to EACH activity trip or field trip.

1. Location of fire extinguisher
2. Location of the first aid kit.
3. Location of the warning reflectors
4. Location and use of all emergency exits.
5. How to shut off the engine and set the parking brake.
6. How to open the service door, to include safety releases on manual, air or vacuum doors, if so equipped.
7. Instruct passengers to keep the aisles clear at all times and not to block emergency exits.

RECOMMENDED PROCEDURES FOR CONDUCTING EMERGENCY SCHOOL BUS EVALUATION DRILLS

Although most school districts do conduct school bus emergency exit drills, many of them conduct the drills because they are required to by state law. Little thought is often given to the proper way a drill should be conducted. Listed below are recommended procedures that may be followed when conducting a school bus emergency evacuation drill.

Reasons for actual emergency evacuations:

1. **Fire or danger of fire.** Being near an existing fire and unable to move the bus or being near the presence of gasoline or other combustible material is dangerous and pupils should be evacuated. The Pupils should be moved to some safe place one hundred (100) feet or more from the bus and instructed to remain there until the driver has determined the danger has passed.
2. **Unsafe position.** When the bus is stopped because of an accident, mechanical failure, road conditions, or human failure, the driver must determine immediately whether it is safer for the pupils to remain on or evacuate the bus.
3. **Mandatory Evacuations.** The driver must evacuate the bus when :
 - a. Fire or threat of fire is apparent.
 - b. The final stopping point is in the path of a train or next to a railroad track.
 - c. The stopped position of the bus may change and increase the danger (e.g. a bus comes to rest near a body of water or as a precipice where it could still move and go into the water or over an embankment.)
 - d. The stopped position of the bus is such that there is a danger of collision.
4. **Sight Distance.** In normal traffic conditions a stopped bus should be visible for a distance of three hundred (300) feet or more. A position over a hill or around a curve where such visibility does not exist should be considered a reason for evacuation.
5. **Important factors about school bus evacuation drills:**
 - a. Safety of pupils is very important and must be the first consideration.
 - b. All drills should be supervised by the principal or by persons assigned to act in a supervisory capacity.
 - c. There should be an emergency evacuation team assigned on each bus. These team members must be seated where they can effectively carry out their responsibilities in an emergency. Each Evacuation Team evacuation team will consist of at least the following:
 - i. A passenger assigned to set the parking brake, turn off the engine, turn on the warning flashers, and call in on the radio or other means, and report the incident to the Transportation Director, in case the driver is unable to do so.
 - ii. A passenger assigned to lead passengers to a safe location at least one hundred (100) feet from the bus and taking the first aid kit off the bus.
 - iii. Two (2) passengers assigned to stand outside the bus, next to the front door, to help students exit the bus and for taking the fire extinguisher.

Western Line SCHOOL DISTRICT

- iv. Two (2) passengers assigned to stand outside the bus next to the rear door to help students exit the bus.

6. Pupils appointed to direct evacuation drills should possess the following qualifications:

- a. Maturity
- b. Good citizenship
- c. Live near the end of the route.

7. Appointed pupils should know how to:

- a. Turn off the ignition switch and shut down the engine.
 - b. Set the emergency brake
 - c. Summon help when and where needed.
 - d. Use kick out windows or emergency escape exits
 - e. Set out warning devices.
 - f. Open and close doors and account for all pupils who are exiting the bus.
 - g. Help small pupils off the bus
 - h. Do any other assignments as needed.
 - i. Use electronic video equipment to summon help (if applicable)
8. Drills should be scheduled at least once per semester (as required by law), preferably at the beginning of the school year and again at the start of the second semester. Drills should be restricted to school property and conducted under the supervision of school officials.
 9. The driver should stay in the bus during the evacuation drill. He/She must set the parking break, turn off the engine, and place the manual transmission in gear (if applicable).
 10. Pupils should not be permitted to take lunch boxes, books, etc., with them when they leave the bus. The objectives are to get the pupils off safely to the shortest possible time and in an orderly fashion.
 11. Pupils should gravel a distance of at least one hundred (100) feet from the bus in an emergency drill and remain there until given further directions.
 12. All pupils should participate in the drill, including those who ride only on special trips.
 13. Pupils should be instructed in how and where to obtain assistance in emergencies, written instructions and telephone numbers should be posted in the bus
 14. There are several different drills:
 - a. Everyone exits through the front door.
 - b. The front half of the pupils exit through the front door and the rear half of the pupils exit through the rear door.
 - c. Everyone exits through the rear door.
 - d. When applicable, pupils use all doors, front, back, and side.
 15. Students should be familiar with the operations of emergency windows, both side and rear, and roof hatches. All exits should be opened by students during evacuation drills to ensure their ability to operate such devices.

PARENTS

IMPORTANT SCHOOL BUS SAFETY ALERT

HELP US PROTECT YOUR CHILDREN AS THEY TRAVEL TO AND FROM SCHOOL

Certain types of children's clothing can create a hazard as your child gets off the school bus. Especially dangerous are:

- Long dangling jacket or drawstrings
- Long backpack strips or dangling straps
- Long scarves or other loose clothing

Such clothing can be caught in the bus handrail, door, or other equipment as the child gets off the bus and then killed as the bus or another motor vehicle may run over them.

In recent years, a number of children across the U.S. have had their clothing caught as they exited the bus. Several of these children were dragged by the bus then killed when the bus or another motor vehicle ran over them.

Please take the time to check your children's clothing to make sure it is safe.

Also, please talk to your child about the following safety rules:

Stay away from the Danger Zones around the bus

Don't try to pick up something dropped near or under the bus – the bus driver might not see you.

Remember that other motorists don't always stop for a stopped school bus – use extreme caution whenever getting on or off the bus.

**SCHOOL BUS SAFETY IS A TEAM EFFORT –
NOTHING IS MORE PRECIOUS THAN A CHILD'S LIFE**

Western Line SCHOOL DISTRICT

SCHOOL BUS DRIVER: IMPORTANT SAFETY ALERT

CHILDREN'S CLOTHING CAUGHT ON THE BUS

Across the U.S. children continue to be injured or killed when their clothing is caught in the bus handrail, door, or other equipment, and they are dragged by the bus.

Long jacket or sweat drawstrings, backpack straps, or long scarves or other loose clothing are especially dangerous.

Your vigilance can prevent a tragedy. Remember these student loading and unloading safety tips:

Never move the bus unless you are absolutely certain all children are safely out of the Danger Zones. Never rush while unloading children.

Count children as they exit the bus – if you've lost count of a child outside the bus, shut the bus off, secure it, and check underneath.

Watch for children with long drawstrings or other loose clothing, or children carrying loose papers or other items – expect the unexpected.

Make sure your bus handrail is not attached to the bus at such an angle that it can easily catch a drawstring – check with your director – dangerous handrails should be changed immediately.

Remember that children's clothing has also been caught in bus doors, the fire extinguisher, seatbelts, and the step outside the entrance door.

After discharging, carefully scan the entire area before moving, and be alert for any warnings (from by-standers, teachers, motorists outside the bus, or students inside the bus) as you pull away from the stop.

LET NOTHING DISTRACT YOU!**

Railroad Crossings

Crossing railroad tracks represents one of the greatest hazards insofar as mass casualties and fatalities are concerned. STOP, LOOK, and LISTEN pertains to all school buses, loaded or empty.

1. Prepare to stop
 - a. Activate hazard lights at least 100 feet before stop.
 - b. Turn off master switch (when necessary).
 - c. Request silence
 - i. This is recommended so that you have minimal distraction.
 - ii. Turn heaters off, and/or fans off, if necessary, to have more silence.
2. STOP the bus
 - a. Stop the bus at least 15 feet and not more than 50 feet before crossing the railroad tracks.
 - b. Stop in a position that gives a clear view of the tracks in both directions
 - c. Shift into neutral
3. LOOK and LISTEN
 - a. Open the service door and driver's window.
 - b. Look and listen through the open door and window.
 - c. If there is no indication of approaching the train, shift into gear.
 - i. Must be a gear that will take the bus across the tracks without hesitation.
 - ii. Shifting of gears on a RR track shall not be permitted.
 - d. Look and listen a second time; close the door and proceed quickly and smoothly.
4. Multi-track crossings
 - a. Make sure no train is approaching on any of the tracks.
 - b. After a train passes, wait until other tracks become visible before proceeding. A second train may be approaching from the opposite directions.

PREVENTIVE MAINTENANCE

Preventive maintenance may be defined as maintaining a vehicle in a safe and economical operating condition through a systematic inspection and service plan.

The bus driver has the responsibility in the preventive maintenance program. The bus driver is on the road with the vehicle for several hours each day and is in the position to observe the bus's performance under all conditions. The bus driver should learn to recognize defects and immediately report the symptoms to the maintenance department or to appropriate school officials. **Remember, defects cannot be repaired if they are not reported.**

Daily Inspection The following daily bus inspection shall be made before starting on the morning run:

1. Check the oil, water, battery, and belts before starting the engine.
2. Start the engine and make an inside check (instrument panel, brakes, windshield, wipers, stop arm, crossing control arm, horn, mirrors, turn signals, etc.).
3. Check tires and wheels.
4. Check all the lights.
5. Clean glass and light lenses as needed.
6. Check the emergency doors and buzzer and close the door securely.
7. Check the exhaust system.

While the walk around safety check is being made, the engine may idle no more than 3-5 minutes. This should allow sufficient time for the engine to warm up. Refrain from raising a cold engine. Considerable damage may occur to bearings and cylinders.

The bus driver shall report promptly in writing any defects that may affect the safety of the vehicle's operation or result in the bus's mechanical breakdown.

Each school day a bus driver shall inspect:

1. Windows to determine if they are easily raised and lowered. Special attention should be paid to those school buses with side emergency windows.
2. Seats to determine if they have been cut or damaged.
3. Service door to determine if it will operate properly.
4. Bus steps and remove mud and other matter so that doors will open and close smoothly.

Western Line SCHOOL DISTRICT

5. Bus for any abuse by students. Damage to the bus must be reported to the appropriate school officials promptly.
6. Emergency doors before loading students in the morning and afternoon. The doors must be in good operating condition and securely closed.
7. Roof hatches to make sure that they will open and close properly.

WINTER SCHOOL BUS MAINTENANCE & DRIVING TIPS

MAINTENANCE FOR THE WINTER MONTHS

1. Keep all lights, mirrors, gauges, exhaust, suspension, emergency accessories, etc., operational. A driver should not start a route if a bus problem is detected.
2. Replace any slick tires in order to maintain good traction, especially for winter driving.
3. Install new wiper blades if needed and check washer fluid levels.
4. Check the heater and the defroster unit for efficient operation.
5. Inspect the engine compartment for cracked water hoses, frayed belts, leaking water pump or radiator, etc. Replace or repair as needed to prevent potential problems.
6. Check the weather-stripping around the emergency door to prevent exhaust fumes from entering the bus.
7. Replace broken or cracked window glass and check to see that all windows close securely to protect the children from the rain and cold.
8. Inspect fuel systems for leaks, cracked lines, loose mounting brackets, etc.
9. Check the cooling system regularly. Do not neglect this system.
10. Keep a timely record of service, repairs, or inspections done on each bus.

WINTER DRIVING TIPS FOR BUS DRIVERS

1. Turn on the headlights and body clearance lights when visibility is poor. Be sure that you can see and be seen by others. Clean light lenses as needed for maximum brightness.
2. Use defrosters as needed to clear the windshield and windows for good visibility.
3. Reduce your speed and be especially alert in congested areas.
4. Brake smoothly on wet or icy roads. Avoid skidding if at all possible.
5. Exercise extreme caution at intersections and railroad crossing. Never assume that the other motorists will or can stop.
6. Be consistent in picking up your students. They will more likely be on time if you are.
7. Pay a lot of attention to the pre-trip inspection. Knowing your vehicle will result in safer driving and more efficient performance.
8. Report deficits promptly and in writing, especially components that are essential to the safe performance of the vehicle.
9. Take care of the battery in your bus to prevent cold weather problems.
10. Remind your students to practice good riding habits.
11. Use extreme caution when loading and unloading students due to the possibility of drawstring from certain types of clothing getting snagged on the handrail in the step-well area or in the service door.

Western Line SCHOOL DISTRICT

A bus driver should:

1. Keep a close check on the instrument panel for any indication of trouble.
2. Keep alert for any sound or odor that would indicate mechanical or electrical trouble. If trouble is detected, stop the bus in a safe place, and do not move it until the problem is determined and corrected.
3. Check brakes frequently.
4. Leave windows of the bus slightly open when stored or parked.
5. Make sure that antifreeze is of sufficient strength to prevent freezing.
6. Keep the interior of the bus clean at all times.
7. Guard against hitting stones, curbs, and other obstructions that would damage tires.
8. Avoid rough places on the road as much as possible.

OPERATION OF A SCHOOL BUS

Good visibility is absolutely essential for the safe operation of a school bus. The bus driver should be sure that all windows are clear and that no obstructions within the bus prevent visibility in all directions.

DRIVERS' RELATIONSHIP TO STUDENTS

1. Train students to observe transportation regulations.
2. A bus driver is responsible for all students while they are on the bus and while crossing the road/street to and from the bus.
3. Keep the school bus as comfortable as possible.
4. Know which students who may have physical weaknesses such as those who are subject to motion sickness, diabetic, etc.
5. Special attention should be given to students who are mentally or physically handicapped.
6. Never administer corporal punishment to a student. A school bus driver does not have the authority to administer corporal punishment to a student. If a student needs punishment for misconduct, the bus driver should report the student's misconduct to the school principal.
7. Operate the school bus in a manner that will gain the confidence of the students, parents, and other motorists.
8. Never permit students to board or leave the bus while it is in motion.
9. Do not permit a student to run along by the bus while it is in motion.

Western Line SCHOOL DISTRICT

10. Do not permit students to ride on the outside of the bus.
11. Do not permit a student to stick their head or hands out the windows.
12. If a student's home is on the opposite side of the road or street from the bus stop, the student must cross the road or street in front of the bus. Special precaution must be exercised by the bus driver and by the student. The bus driver must count the number of students who cleared the area in front of the bus before proceeding.
13. When students must cross the road or street to get on the bus in the morning, or unload in the afternoon, the bus driver shall wave his arm as a signal when it is safe for the students to cross.
14. Students will not be permitted to cross the road or street in the morning to get on the bus or in the afternoon to unload until the proper signal is given to cross.

27. Make every stop, but do not wait for a student unless the student is seen coming. (This does not apply in the event the driver is ahead of schedule. In case the bus arrives at the stop early, the bus driver should wait.)
28. Use common sense and good judgment at all times and under all circumstances.

DRIVERS' RELATIONSHIP WITH OTHERS

1. Cooperate with the principal in making a good bus schedule.
2. Establish a good working relationship with mechanics.
3. Be considerate of other motorists – delay only as long as absolutely necessary at loading/unloading stops.
4. If traveling in the same direction as a funeral procession, do not pass. It is common courtesy to yield the right-of-way to funeral procession and to proceed with regard to traffic signals.

A BUS DRIVER SHALL:

2. Follow all vehicles at a safe distance.
3. **ALWAYS** stop the school bus at least 15 feet and not more than 50 feet before crossing railroad; open window at the driver's left and open the service door; listen and look in both directions along track for any approaching train; use a gear that will provide ample power to cross track without shifting; and proceed only when it is safe beyond any possible doubt.
4. **ALWAYS** stop the school bus before crossing a highway; listen and look in both directions along the highway; use a gear that will provide ample power to cross without shifting; and proceed only when it is safe beyond any possible doubt.

Western Line SCHOOL DISTRICT

7. Exercise extreme caution when passing another vehicle.
8. Practice defensive driving. A defensive driver is prepared to avoid the mistakes of other drivers. Never take anything for granted, and try to recognize an accident producing situation in time to prevent an accident.

10. Wear a seat belt at all times when operating the school bus.
11. Be responsible at all times for the operation of the bus.

14. Blow the horn in rapid succession several times if it appears that students who are preparing to cross road/street are in any danger.
15. Check the school bus before exiting after each route for students.

The school bus driver is subject to dismissal for using his/her bus for unauthorized purposes or for violation of any State law or regulation or for failure to perform his/her duties faithfully as a school bus driver provided by the laws of Mississippi and these rules and regulations.

A BUS DRIVER SHALL NOT:

1. Open the school bus door to unload students when a speeding vehicle is nearing stopping point.
2. Use any tobacco products on the school bus.
3. Move the school bus unless all students are inside, in their seats, and doors are closed.
4. Use a cell phone or any other wireless communication device while the school bus is in motion.

6. Drive a school bus backwards on the school grounds unless absolutely necessary and never unless properly directed. A bus driver should not drive a bus backward at any place unless properly directed or at least not until he/she makes certain it is safe to do so.
7. Leave the school bus on the roadway at night.

Western Line SCHOOL DISTRICT

8. Drive a school bus without good brakes. Good brakes are essential for safety and should not be abused. Care should be taken to make sure that brakes are in good condition at all times.
9. Depend on signals given by the driver of another vehicle. The other driver may do the opposite from what he signals to do.
10. Leave the driver's seat with the engine running when students are on the bus. The driver must always take the ignition key with him/her if he/she has to leave the bus.
11. Allow anyone else, except a qualified and approved substitute driver, to drive his/her bus on a route. The substitute bus driver shall be governed by the same laws, rules and regulations as the regular bus driver.

Transportation will be provided for homeless students to and from the student's school of origin. School of origin means the school that the student attended when permanently housed or the school in which the student was last enrolled. These services shall be provided throughout the regularly scheduled year and during the regular school day as determined by the board.

Elementary students who live more than one mile from school will be transported. Secondary students who live more than one and one-half miles from school will be transported. Mileage exceptions for health, safety or disability will be made in accordance with board policy and administrative regulations.

TITLE I FUNDS

Transportation will be provided to a student of a school receiving Title I funds to attend a district school out of the student's attendance area because his/her home school has been identified as in need of improvement, corrective action or restructuring. Such transfers will be permitted and transportation provided only to a safe school that has not been identified for improvement, corrective action or restructuring. The obligation of the district to provide for transportation will terminate at the end of the school year if the school from which the student transferred is no longer in school improvement.

In the event all other district schools a student may transfer to have also been identified as in need of improvement, corrective action or restructuring or there is no other district school to which the student may transfer, the district shall, to the extent practicable, establish a cooperative agreement with other districts in the area for a transfer. Transportation for students who transfer for such purposes will be provided for in accordance with the agreement.

If there are no district schools to which students can transfer because: (1) all schools at a grade level are in school improvement; (2) there is only one school in the district; or (3) the rural or isolated nature of the school district prevents choice, the district must notify the parents that the student's school has been identified for school improvement but that no choices are currently available. Districts should consult with their attorney.

COOPERATIVE AGREEMENTS

The district may also provide transportation using federal funds or through cooperative agreements with local victims assistance units for a student to attend a safe district school out of the student's attendance area for any student who is a victim of a violent criminal offense occurring in or on the grounds of the school the student attends or the student attends a school identified as persistently dangerous. Note:

Western Line SCHOOL DISTRICT

Federal funds means funds available through Title IV, Part A, and Title V, Part A.

Transportation provided will, to the extent possible, be to a school that is making adequate yearly progress and that has not been identified as in need of improvement, corrective action or restructuring. If there are no other schools within the district a student may transfer to, the district may establish a cooperative agreement with other districts in the area for a transfer. Transportation for students who transfer for such purposes will be provided in accordance with the agreement. Note: If there is not another school in the district to which students can transfer, districts are encouraged, but not required to, explore other appropriate options, i.e., an agreement with a neighboring district.

STUDENT CONDUCT

School buses carrying students will be considered extensions of the school experience. All students using school transportation will abide by the code of conduct posted in each school bus or school activity vehicle. Violations of such code, as well as other conduct which is improper or which jeopardizes the safety of self or others, will be reported by the school bus/vehicle driver to school principal or assistant principal. Violators may be denied use of transportation for a period of time as deemed proper by the building principal.

BUS DRIVERS

The building principal or designee shall ensure transportation officials and drivers receive notification of students having special medical or behavioral protocols identified in student records.

Information and/or training, including confidentiality requirements, will be provided to drivers, as appropriate.

The school bus/vehicle driver will be responsible for the school bus/vehicle at all times from departure until return. The driver will not participate in any activities that might impair his/her driving abilities.

Children in Foster Care

The superintendent or designee shall coordinate activities relating to the District's provision of services to children placed in foster care, including transportation services, when the District is notified by the Washington County Department of Human Services in writing that the Department of human Services has foster care students in need of services.

The District will collaborate with the Department of Human Services when transportation is required to maintain children placed in foster care in a school of origin outside their usual attendance area or District when in the best interest of the student.

The superintendent or designee, will collaborate with appropriate officials of the Department of Human Services and officials from related districts/agencies to consider how such transportation is to be promptly arranged and funded in a cost effective manner.

If there are additional costs to be incurred in providing transportation to maintain a student in the school of origin, the District will provide transportation based on a case-by-case basis, using one of the following options:

Western Line SCHOOL DISTRICT

- The Department of Human Services agrees to reimburse the District for the cost of such transportation;
- The District agrees to pay for the cost of such transportation; or

' 37-41-45 (1987)

Those children residing in such geographical situations may, at the discretion of their parent(s) or legal guardian(s), enroll and attend the nearer school, regardless of the residence of the child. Bill Watson
Tunica County Road Manager
P.O. Box 639
Tunica, MS 38676

Dear Mr. Watson:

Attorney General Jim Hood has received your recent inquiry as Road Manager of Tunica County and has asked me to respond. Your letter states:

I have repeated requests from the **School** Board of Education and Transportation Department to construct, repair, or maintain certain areas on private property to store or **park buses** at driver's homes during the **school** term.

All information I can find indicates that after following the proper procedures, the County can only repair **school bus** turnarounds or areas where it is necessary to aboard a child.

Please send a written opinion on the construction of **parking** and what constitutes a **bus** turnaround.

In response, Section 19-3-42 authorizes counties to "maintain private gravel or shell roads or driveways to private residences if such roads or driveways are used for **school bus** turnarounds" and the driveway or road is designated as a **school bus** turnaround by written request from the **school** board. Miss. Code Ann. Section 19-3-42. This code section does not authorize a county to build or construct a private road or driveway to be used as a **school bus** turnaround, only to maintain one. See MS AG Op., Smith (January 8, 1999). Nor would this statute allow a county to construct and/or maintain a **parking** area for **school buses** at the end of its route or at the drivers' homes. See MS AG Op., Johnson (April 24, 1998).

However, if the statutory procedures are followed, a **school bus** driver's private gravel or shell driveway may be designated as a **school bus** turnaround under 19-3-42 and may be maintained by the county. See MS AG Op., Smith (January 8, 1999).

If we may be of further assistance, please let us know.

Sincerely,

Jim Hood,
Attorney General
