

Chromebook Case

It is not required that you purchase a case or sleeve for your Chromebook; however, it would help to prevent damage to the device while transporting it between school and home. [Here is a list on Amazon that should fit our devices.](#) You can find cases for 11.6” Chromebooks from other sources as well. If you have questions about the model of your specific device, please contact Mrs. Deichert.

Additional Chargers

If you want to purchase an extra charger to keep one at home or at school, make sure you purchase one with the correct charging end to fit the port on your Chromebook. Also look that it has the correct voltage.
