

## **How to Support Asymptomatic Students that are Quarantined**

(Students at home that can participate in learning)

### **✓ Computer:**

**Ensure your child has a Chromebook.**

If your child needs a Chromebook, contact their school to schedule a time to pick up a device.

### **✓ Classwork:**

**Students should log in and check Google Classroom daily.**

Students have a Google Classroom account where they can access and turn in assignments and communicate with their teacher(s).

### **✓ Accountability**

**Using Google Classroom accounts provides students with an opportunity to continue to participate in learning.**

These steps will assist students in keeping up with their school work and being prepared when they return to school.

*If you have questions or concerns please reach out to your child's school for support.*
