Preschool @ 12 pm
K-4 @ 12:30 pm

4th Grade Career Day

On November 20th, LLE had it's second Career day. All of the students had to show how math is used in various careers. They designed a poster that described their chosen field and how math is used in it. The students then dressed as their chosen profession and enjoyed explaining what they learned to the parents. The fourth graders did an amazing job!

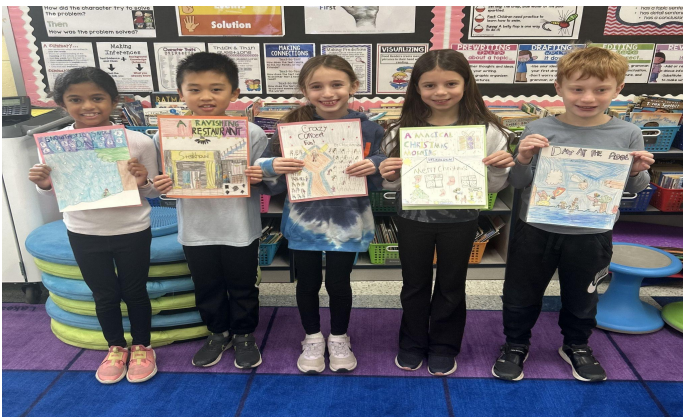

Fire Safety Poster Contest

On Monday, December 4th, Chief Motta came to our schools to announce the winners. Everyone did an amazing job with their posters and congratulations to our winners!

Spotlight on Third Grade

The third graders have been working hard this year! In writing, they just finished up their personal narrative unit where they learned all about writing engaging leads, adding details, and ending with a clever conclusion. In reading, we have been reading Amber Brown Is Not A Crayon as a class and completing a retell with an illustration for each chapter. Multiplication has begun in math and the students are learning all different strategies to find products, including using equal groups, arrays, and number lines. In social studies we have been learning about map skills and in science identifying the stages of the water cycle and weather patterns. Student are preparing for their winter concert and are very excited to celebrate the holiday season!

December 8, 2023

Dear CRS and LLE Families,

I hope that all of our LLE families enjoyed the show today. A huge thank you to Ms. Ahn and Mrs. Urban for their musical direction as well as Mrs. Stokes for the art work. Additionally, I am grateful to the staff members who assisted with the backstage organization. I know that our CRS families are eagerly awaiting their child's concerts later this month.

Please take the time to read over everything and click on the links that are applicable.

- 12/11-Preschool Open House-Click [here](#) for more information
