PLEDGE OF ALLEGIANCE

ANNOUNCEMENTS

2025 Chemic Yearbooks are on sale now for the lowest price of the year. Order online at www.yearbookforever.com or bring cash or check to room 325. Current price is \$60, but prices go up after Christmas!

Seniors - senior portraits are due to the yearbook staff by December 1 to be included in the senior section of the yearbook. If we do not receive one, we will use your student ID photo. Stop by room 325 with any questions.

Today October 1, is the start of Global Diversity Awareness Month. This month is dedicated to celebrating and paying tribute to the diverse minds and beliefs held by all cultures around the world. We live in a multicultural society and embracing the values of various cultures only strengthens our understanding and appreciation of the world. Chemics, open your mind to new views and ideas, appreciate cultural differences, and enjoy a fresh perspective you may have been missing. This information helps us to become a true citizen of the world.

So how exactly can we become more aware of global diversity?

1. Connect with people

We have many people walking the halls of MHS who have diverse global life experiences including our exchange students. Get to know them! Ask them about their experiences and lives in their home country. You can also make a friend on the other side of the world - Modern technology allows us to learn almost anything we want to learn about people's lives through social media, and other online channels.

2. Learn about other cultures

If you can't experience the 'real thing' through travel or another person, listen to international music, or watch international movies. Stay tuned to announcements as we will have some activities to help educate you about the world.

3. Make an effort to stay informed.

Keeping up with global happenings and events may be emotionally tragic at times, but it can also be extremely informative in daily life, as we are all connected in one form or another.

Remember Chemics, here at MHS, we believe that diversity is a strength.

POSITIVE THINKING

Listen to the Music

Music can have a profound impact on our emotional state. Music pumps us up when we need energy, calms us down when we need to relax, and helps us work through sadness, anger and fear. Find the songs that give you an emotional release on any given day.

List your favorite songs that fit in these categories, then make a playlist to have your anthems at the ready:

- Your happy song
- Your "cry it out" song
- Your calming song
- Your "yell through the anger" song
- Your "dance away the day" song
- Your "finally, somebody gets me" song

The Chemic JV Golfers finished their season in fine fashion by placing first in the Freeland Girls 18-hole Golf Invite at Twin Oaks Golf Course. From a field of 23 very competitive two-person teams representing ten schools, the team of Caroline Williams and Clare Reinhardt placed first with a scramble/best ball score of 78 which included 8 pars and 2 birdies and beat #2 Frankenmuth by one stroke. Kiley Roerhs and Reese Dominowski were third overall with an 81 and Vanessa Castanier and Audrey McLaughlin placed 10th overall with 89. These three teams comprised an overall winning score for the Chemics which gave them the first-place team title for the entire tournament. The Chemics second squad composed of Cassie Matonican & Kailey Cassiday, Grace Pilgrim & Abigail Cassiday, and Hannah Mushlock with Hayley Stickley also participated and shot their best scores of the season.

This completes the JV golf season which saw the Chemics go 10-0 in match play and place first in two of the tournaments they played in. Great job, ladies!
