About Lohn ISD

and Our Participation in the Title I Program

Lohn ISD is committed to the goal of providing quality education for every child in this district. To this end, we want to establish partnerships with parents and with the community. Everyone gains if Lohn School and home work together to promote high achievement by our children. Neither home nor school can do the job alone. Parents play an extremely important role as children's first teachers. Support for their children and for the school is critical to the success of every child at every step along the way.

Expectations & Objectives

Lohn School recognizes that some students may need the extra assistance available through the Title I program to reach the state's high academic standards. Our school is committed to including parents in all aspects of the school's Title I program. The goal is a school-home partnership that will help all students to succeed.

What We Plan To DO!

Lohn ISD:

- Jointly develop/revise with parents the school Parent and Family Engagement policy/procedures. Lohn annually hosts three Parent Involvement meetings with parent representatives. Parents review policy and guidelines and are updated on any current changes. Title I Campus Representatives meet jointly with the parents in May to discuss policy and evaluate the program. Representatives are encouraged to visit the school to gain information, actively volunteer, and attend meetings and events.
- We will distribute the PFE policy to parents of participating children during our Annual Title-I Meeting. We will also make available the Parent and Family Engagement policy/procedures to the local community through our website and facebook.
- Provide the following trainings/workshops/events for parents:
 - LPAC
 - Literacy Nights
 - Attendance Party Participation
 - Reading Academies
 - How to monitor a child's progress
 - Literacy training and using technology
- Provide professional development to teachers, specialized instructional personnel, and other staff on the value of parents and their communities to increase academic achievement.
- Coordinate and integrate parent engagement programs and activities with other Federal, State, and local programs, including public preschool programs, and conduct other activities, such as parent resource centers, that encourage and support parent engagement.
- Ensure that information related to school and parent programs, meetings, and other activities is sent to the parents of participating children in a format and, to the extent practicable, in a language the parents can understand.
 - Involve parents in the development of training for teachers, principals, and other educators to improve the effectiveness of such training. Meeting to review campus data with parents, discuss plans, and make decisions regarding campus professional development based on data.

Evaluation

The Parent and Family Engagement Program for the 2024-2025 school year will be evaluated to continuously meet the needs of our students and families. **We will gather information through an annual parent feedback and public survey.** In addition to surveys, **we will ensure that each meeting provides time for parents to openly communicate with us about the needs of their students.**

The school will use the findings from the feedback and surveys to make meaningful improvements to the Parent and Family Engagement (PFE) Policy."
