

STAFF-STUDENT RELATIONS

Students shall be expected to regard staff members as individuals employed to provide direct or indirect contributions to learning. While students are to have considerable latitude in making choices for themselves, they shall be required to respect the right of staff members (and other students as well) and interference with those rights shall not be condoned. No student shall have the right to interfere with the efforts of instructional staff to coordinate, assist, disseminate information, or to otherwise implement a learning program. Nor shall a student have the right to interfere with the motivation to learn, or the learning activities and efforts of other students.

Staff members are expected to maintain courteous and professional relationships with students, maintain an atmosphere conducive to learning, through consistently and fairly applied discipline and established professional boundaries.

Unless necessary to serve an educational or health-related purpose:

1. Staff members shall not make derogatory comments to students regarding the school and/or its staff.
2. The exchange of purchased gifts between staff members and students are discouraged.
3. Staff members shall not fraternize, written or verbally, with students except on matters that pertain to school-related issues.
4. Staff members shall not associate with students in any situation or activity which could be considered sexually suggestive or involve the presence or use of tobacco, alcohol, or drugs.
5. Dating between staff members and students is prohibited.
6. Staff members shall not use insults or sarcasm against students as a method of forcing compliance with requirements or expectations.
7. Staff members shall maintain a reasonable standard of care for the supervision, control, and protection of students commensurate with their assigned duties and responsibilities.
8. Staff members shall not send students on personal errands.
9. Staff members shall, pursuant to law and Board policy, immediately report any suspected signs of child abuse or neglect.
10. Staff members shall not attempt to counsel, assess, diagnose, or treat a student's personal problem relating to sexual behavior, substance abuse, mental or physical health and/or family relationships but, instead, should refer the student to the appropriate individual or agency for assistance.
11. Staff members shall not disclose information concerning a student, other than directory information, to any person not authorized to receive such information. This includes, but is not limited to, information concerning assessments, ability scores, grades, behavior, mental or physical health and/or family background.
12. Staff members shall not be alone in a room with a student with the door closed, a locked door, or with the lights off.
13. Staff members are strongly discouraged from socializing with students outside of school on social networking websites, consistent with the provisions of Policy GBEBD.

Staff members who violate this policy may face disciplinary measures, up to and including termination, consistent with state law and applicable provisions of a collective bargaining agreement.

Any employee who witnesses or learns of any of the above behaviors shall report it to the building principal or Superintendent immediately.
