BENEFITS

The Southwest Mountain States Regional Council of Carpenters represents more than 90,000 members in Southern California, Nevada, Arizona, Utah, New Mexico, Colorado, Washington, Idaho, Montana, Wyoming, Oregon and Alaska.

We work with contractors, developers, and elected leaders to raise the standard of building and living for all workers. As an affiliate of the United Brotherhood of Carpenters and Joiners of America, SWMSRCC is the largest Council in the Brotherhood.

The need for Carpenters and other skilled trades has never been greater.

The Carpenters pre-apprenticeship pathway provides students with a unique opportunity to gain access to the United Brotherhood of Carpenters Apprenticeship program.

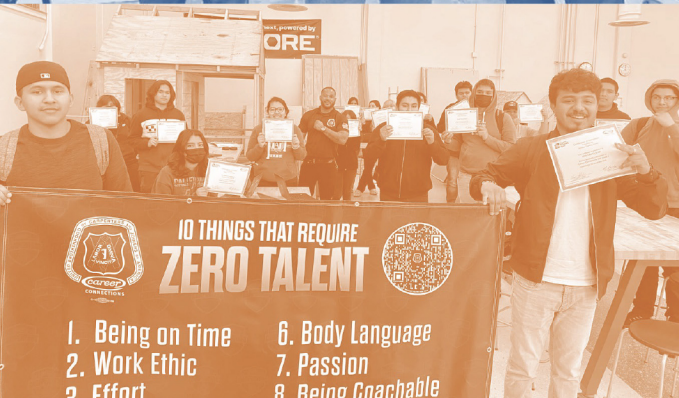

The certificates garnered through the pre-apprenticeship help easily identify skills levels for contractors as students pursue a career in the industry. With billions of dollars in projected infrastructure, new homes, and buildings, our region can support this pathway to economic growth and vitality.

SIGNING DAYS

Good Wages, Strong Benefits, Great Career!

The Career Connections program participates in “Signing Days” to recognize the importance of students going into skilled trades that offer high-wage, high-skill, and high-demand careers that are as rewarding as traditional four-year colleges.

We believe students who are ready to make this commitment should be celebrated like student athletes committing to a college program. The event, held at their school, is open for all to attend including family, classmates, school faculty and staff, local media, and sponsoring contractors.
