### *From the Nurse's Desk:*

February is American Heart Month. Did you know the heart pumps about 2,000 gallons of blood every day? That's one hard-working organ! You can work hard, too. When you get home tonight, try running in place for 30 seconds or do 5 lunges on each leg. We are helping raise money for the Kid's Heart Challenge. Help donate by registering at [heart.org/schools](http://heart.org/schools).
