Course Description:	CTE AUTOMOTIVE TECHNOLOGY This two semester course is designed for students considering a career as an automotive technician or believe that an automotive industry certificate would benefit them in their chosen career path. However, students interested in auto repair, maintenance or modification only as a hobby are certainly welcome. Regardless of your motivation, please be prepared for a “hands on” automotive experience. The focus of our auto tech program is student certification in the ASE (Automotive Service Excellence) G1 task area. An ASE industry certification is a competitive first step towards employment with a dealership or independent shop. The pace of this curriculum is based on student performance. Truly driven students are encouraged to move forward on ASE task areas A1 – A8, as they pursue their ASE Master Tech certification. Career and Technical Students Organization (CTSO) competencies will be an integral part of this class. Students will have the opportunity to participate in SkillsUSA. Students must achieve a final grade of C or better to continue in this program
