ST. CROIX
MONTESSORI SCHOOL

Beyond the Classroom. Beyond the Worksheets. Beyond Traditional

At St. Croix Montessori School, learning comes to life on our expansive 17-acre campus in the heart of the St. Croix River Valley. Here, education isn't confined to a classroom—it's an everyday experience. From our working farm, where students see firsthand what it means to nurture animals and care for our environment, to our close partnership with the MN DNR School Forest, we're deeply committed to community engagement and sustainable practices. As we introduce our new Jr High program, we invite you to discover a place where academic challenge meets real-world connection, empowering your middle schooler to thrive and lead.

Discover a Different Kind of Education.

Real World
Learning

Personalized
Growth

Nature Based
Education

Critical Thinking
& Collaboration

Many local schools end at 5th or 6th grade—what's next for your child? Give them an education designed for adolescents in the real world—not just another classroom.
