

ATLAS 3-10 CALCULATOR POLICY

ATLAS Content Calculator Policy Grades 3-10, End of Course Algebra, Geometry and Science

Subject: Math

Grades 3-5 are not given a calculator for the test. No handheld or online calculator is allowed. Tests will be invalidated if calculators are used on math tests at grades 3-5.

- Grade 6 math assessment has a calculator section and a no-calculator section. For the calculator section, the student is given access to a **scientific calculator only** and can use either the embedded, online calculator or can use a handheld **scientific calculator**.
- Grades 7 and 8 assessments are given access to use a **scientific calculator only** for the entire test. Students may use either the online, embedded **scientific calculator**, or a handheld **scientific calculator**.
- Algebra 1 and Geometry assessments are given access to an online, embedded **graphing calculator**. Any student taking an Algebra I and Geometry assessment may also use a **handheld graphing calculator**.

Subject: Science

- Grades 3-5 are not given a calculator for the test. No handheld or online calculator is allowed. Tests will be invalidated if calculators are used on science tests at grades 3-5.
- Grades 6, 7 and 8 are given access to use a **scientific calculator only** for the entire test. Students may use either the online, embedded calculator or a handheld **scientific calculator only**.
- Students taking the Biology End-of-Course assessment are given access to an online, embedded **graphing calculator**. Students may also use a handheld **graphing calculator**.
