OCTOBER 31 - STUDENTS MAY WEAR COSTUMES FOR \$1

MATH - MRS. MCKINNEY

This week, we will continue learning how to add 2 digit numbers together. We will focus on the strategies of base ten blocks, expanded form, number line, and hundreds chart. I know these are not the strategies that you may have learned, but please try to allow your child to be your "teacher" and have them practice these at home.

We are beginning a new program called IXL through Clever that can be accessed at home. I will be giving optional assignments that either correlate with what we have already learned or what we are currently learning. I encourage you to allow your child to work on these as much as possible because we have really seen grades be boosted when they are consistently working on IXL.

Friday, we will have our 2nd Fact Fluency quiz of the 9 weeks!

ELA - MRS. MORENO

- *Phonics - Unit 4 (adding -s, -ed, -ed, -ing, -er, -est)
- *Reading - Identifying and using text features to understand nonfiction texts while continuing to find main topics
- *Writing - Work on informative writing ideas and focus on grammar skill of collective nouns.

AR is now in full swing. You should have received a letter explaining your child's STAR reading test results. This is how their AR reading levels were determined. The Renaissance letter explains how you can log in to view our child's progress on any AR tests taken. This is never taken as a GRADE just as a motivator for some, as well as excellent comprehension practice.

IMPORTANT NOTES

- Please make sure that your child has a snack and water bottle DAILY.
- Wear tennis shoes on PE/Health days.
- Ice Cream sales this week - Look for an order form coming home.
- Please keep collecting aluminum cans for our Recycling campaign!
- Book Fair is coming October 23-27! Book Fair Parent Night is the 24th from 4:30-7:00.
