5. Additional Input
  - a. RHS- The highschool only tests 11th graders for reference. How is college & career ready not full, when RHS bars are full?
    - i. It may factor Harvest into those results, or this could include Connections Academy. Those students are our responsibility as

- well.
- ii. Ripon High would like to have more bathrooms. With the added staff at the high school it has been hard with few bathrooms, and some need to be updated. Some teachers have to travel quite a distance to get to the bathrooms during a break.
- iii. Ripon El needs a MUB. Scheduling is really conflicting.
- iv. Work experience at the highschool- is that a thing?
  - 1. It is more incorporated into our CTE classes. If you finish the pathway, you can now opt out in order to work. Some are finding their own jobs.
- b. ELD integrated & designated is tough when trying to teach to one child. Could we hire 1 person who is an ELD credentialed itinerant pulling students from class in order to really concentrate on helping those students (working more on designated).
  - i. Would funding be different from the MathTOSAs?
    - 1. Yes, Math TOSA is funded by Title 1
    - 2. Ripon El teacher stated that she felt ELD teachers would be more beneficial than spanish teachers
- c. Do we look at how the population is changing? We are having ELA aids call, but they cannot necessarily call and speak to other families.
  - i. There is a county phone number to call to be able to help with that
  - ii. Yes, we realize we are becoming more diverse, you are able to see this looking at the data on the Dashboard this year.
