

K12 COLLABORATIONS

M State has a long history of collaborating with regional K12 partners to create opportunities for high school students. Contact us to learn more about the array of programs that can be offered to students online, in the high school or on an M State campus.

CONCURRENT ENROLLMENT PROGRAM (CEP)

M State partners with high schools to offer high-quality, rigorous college courses taught in the high schools by qualified high school instructors through our nationally accredited Concurrent Enrollment Program. Concurrent enrollment course offerings include an array of both general education/transfer and career and technical course options. Students benefit by getting a boost on their postsecondary future by earning college credit and saving money without leaving their high school.

BENEFITS:

- ▶ Remain in the high school in a familiar environment
- ▶ Taught by college approved high school teachers
- ▶ College credits offered at no cost to the student

ECAMPUS IN THE HIGH SCHOOL (ECHS)

eCampus in the High school partners with high schools to provide students with access to online college courses in their high school in both general education/transfer and career and technical course pathways. M State provides students with services and resources that promote success in the online classroom.

BENEFITS:

- ▶ Remain in the high school in a familiar environment
- ▶ Scheduled time in the high school to complete college course work
- ▶ Access to a wider variety of courses
- ▶ College credits offered at no cost to the student

POSTSECONDARY ENROLLMENT OPTIONS (PSEO)

The Postsecondary Enrollment Options program allows eligible high school sophomores, juniors and seniors to take college-level courses on an M State campus or online and earn both high school and college credit. These courses are funded through the Minnesota Department of Education, which covers the cost of tuition and books.

BENEFITS:

- ▶ Offers independent students an option to attend college outside of the high school
- ▶ College credits offered at no cost to the student
- ▶ Access to a wider variety of courses
