

Snow People Family Project

Due _____

Hello families! Your child will be bringing home three paper plates to make this project. These will be used to create and decorate a snow person. The plates can be stapled, glued, hot glued, etc. together or attached with brads. Although you have the freedom to use ANYTHING you would like to decorate your snow person, we prefer you not use food items. Look for things you can use from around the house such as buttons, craft items, fabric, colored paper etc. or even things from nature such as leaves or sticks! You may draw, paint or color your snow person. Feel free to make a traditional snowman or experiment with different materials to make a unique, creative snow person or hero with its own identity. The possibilities are endless! Please put your name on the back of your snowman. We are so excited to see what you come up with!
