

# Summer Reading at Bowdon Elementary

Dear Parents,

Don't let your child's reading level go down this summer! He/she has made so much growth in reading this year. We do not want our students to start a new school year with a reading level that is lower than their current grade level! Studies have shown that kids who don't read during the break will decline in their reading levels! Take a look at the programs available that will encourage your child to read and have fun all summer.
