

Standards Based Education

The Board supports a system of education that develops and teaches standards that enable students to achieve the highest level of knowledge and skills. Academic standards clearly identify what students should know and be able to do at key points in their school careers.

In accordance with state law, the Board has adopted a standards-based education system which focuses on student learning of the BOCES's academic standards. It is the intent of the Board that the BOCES's program of instruction and assessments be aligned with the BOCES's academic standards. In standards-based education, courses and units of study are clearly defined, understood by teachers and students and communicated to staff members, families and the community. The BOCES's standards-based education system will advance equity, promote student learning and reinforce accountability.

The executive director will be responsible for developing a plan to implement the BOCES's academic standards that meet or exceed the model state academic standards and revise curriculum and programs of instruction to align them with the BOCES's standards to provide students with the educational experiences necessary to achieve the standards. The plan must also address the professional development of teachers and administrators to enable successful implementation of standards-based education. The plan must ensure that the educational programs of the BOCES actively address the needs of exceptional students, consciously avoid gender or cultural bias and address the different learning styles and needs of students of various backgrounds and abilities and eliminate barriers to equity. The plan must conform with all timelines established by law.

The BOCES will work with educators, parents, youth representatives, students, businesspersons, members of the community and the BOCES accountability committee to review and revise the BOCES's academic standards as necessary to ensure maximum effectiveness and develop assessments that will adequately measure each student's progress. Parents must be kept informed of student progress in achieving the BOCES's academic standards and how such progress will be measured. This information must also be provided to the BOCES accountability committee.
