

Coffee County Schools Gifted Education Services Referrals

Gifted Testing will be conducted in February 2023. Students can be nominated for consideration for testing by the parent or guardian. The deadline for nomination is December 9, 2022. Nomination does not guarantee the student will be tested. All available data will be studied for each student in the preliminary selection pool by the school's Gifted Eligibility Team. The team will make the decision to move forward with formal testing or stop the process. For more information, or to nominate a student for consideration, please contact Anna Harris, Gifted Coordinator, at (912) 389-6535 by December 9, 2022. Nominations for testing must be in writing.
