

- Holmes Plus is a scholarship program for students interested in a STEM/Health Sciences Pathway.
- This program will provide a broad-based STEM experience for participants who demonstrate a proven aptitude in these areas.
- Holmes Plus allows the scholar to gain valuable insight into various realms of the academic world and will help to develop the leader within each scholar.
- This program will give the scholar a background of coursework that will allow them to choose most any major later without a loss of credit courses.
- Holmes Plus seeks to inspire the scholars to use their talents, opportunities, and responsibilities to increase their positive contributions to society.
- This program is only offered on the Goodman campus.
- Potential Holmes Plus scholars are selected by an advisory committee and will be notified by late June.
