Mission Statement

The mission of the Virtual Academy @ Randolph is to provide a positive, personalized learning experience to meet each student's educational and social emotional needs via a virtual format. We also make it our priority to teach digital citizenship via classroom communities that teach students how to appropriately engage and communicate in the virtual setting.

School:

The Virtual Academy at Randolph officially opened on July 1, 2021. Our school came to fruition for the 2021–22 school year as a result of increased awareness and understanding around the need for an alternative educational opportunity. In addition to traditional brick and mortar campuses district leaders, school staff, students, families, and community members voiced their support of a more comprehensive approach to virtual learning. The Virtual Academy is located off NC Hwy 64 at 4829 Tabernacle School Road.

Belief Statement

At The Virtual Academy @ Randolph, we believe: that every student is capable of learning in a virtual setting with the right support in place. This support should be a collaborative effort on behalf of teachers, all school staff, students, and parents. That every student should be treated with respect and provided a safe alternative to the brick and mortar school environment. That virtual learning should set students up for lifelong practice of self-motivated learning, in an environment that prepares them for a successful life in the Global 21st Century.

Community:

All RCSS K–8 students are eligible to enroll in The Virtual Academy @ Randolph. Even though our students come from all quadrants of the Randolph County School System, we place emphasis on establishing and nurturing a virtual community amongst all stakeholders.

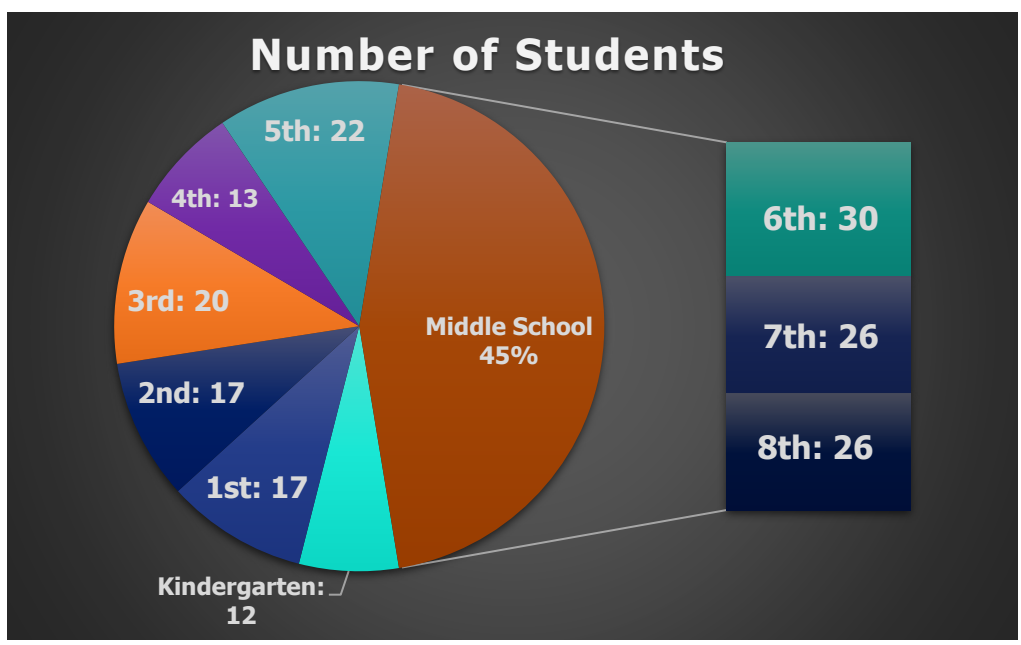

The Virtual Academy @ Randolph proudly serves students from the following schools:
