

Bamberg School District One
Student Acceptable Use Policy for Grades PreK-5

I PROMISE . . .

- to always ask for permission before I use technology. Technology includes (but is not limited to) computers, monitors, keyboards, mouse, cables, printers, digital cameras, televisions, Smart Boards, iPods and other devices.

- to use technology for educational purposes only. Computers are not to be used for entertainment or playing non-instructional games.

- to have clean hands and to use gentle hands when I use technology. I will not harm any part of the computer in any way. I will not adjust controls, move or hide icons, change or rename items on the desktop in any way.

- to follow teacher directions. I will pay attention when my teacher gives instructions.

- to ask for help. I will ask for help if I don't know what to do or if something is not working.

- to be responsible when I use technology. I understand that my Internet searches must be guided by a teacher. Just "surfing" is never allowed. I will remember that the computer keeps track of **everything** I do.

- to be safe when I use technology. I will never share my name, address, phone number or other personal information on the Internet. Chat rooms and email accounts are not permitted for students.

- to respect all people when I use technology. I will never copy the work of others. I will never use anyone else's password and will only access my own work or records. I will follow my teacher's instructions for using information and pictures found on the Internet.

Please note: Bamberg School District One monitors all computer usage through a security system. Federal law (CIPA) mandates that all computer activity within schools be closely watched in order to ensure the safety of our students. It is the policy of the Bamberg County School District to: (a) prevent user access over its computer network to, or transmission of, inappropriate material via Internet, electronic mail, or other forms of direct electronic communications; (b) prevent unauthorized access, including so-called "hacking" and other unlawful online activity; (c) prevent unauthorized online disclosure, use, or dissemination of personal identification information of minors; and (d) comply with the Children's Internet Protection Act [Pub. L. No. 106-554 and 47 USC 254(h)] enacted December 21, 2000.

I understand that there are consequences if I don't follow this acceptable use policy.
