Understanding the Survey

  **Parent/Guardian Satisfaction** 

  **Student Engagement & Connection** 

  **Belonging** 

We are excited to share with you the results of the *MI Student Voice Parent/Guardian Perception Survey* that was recently administered in your district. The purpose of the survey is to create a holistic view of the student experience based on feedback from parents and guardians in the domains of parent/guardian satisfaction, student engagement and connection, and belonging.

This final report provides a question-level breakdown of results across the school.

We thank you for your partnership and shared belief that not only does student voice matter, but the voices of parents and guardians in the district as well. Student engagement, connection, belonging, and social-emotional development are crucial to creating a supportive school culture that promotes academic success and overall wellbeing.

Our team looks forward to working with you to elevate your community's voices to support the success and wellbeing of students across the state.

Understanding the Survey

Domains

The MI Student Voice Parent/Guardian Perception Survey consists of three domains that districts could choose from: Parent/Guardian Satisfaction, Student Engagement & Connection, and Belonging.

The Domain-level report shows an overview of domain responses disaggregated by the child's grade, the parent or guardian's race/ethnicity, and/or their education level.

The Question-level report breaks down each domain into their individual questions. Responses are then disaggregated by the child's grade, the parent or guardian's race/ethnicity, and/or their education level.

Scale

Parents/Guardians answered questions using a Perception scale.

A perception scale measures how a parent/guardian feels about a subject. The five-point scale is associated with a numerical value in order to find the average response to each question and domain. The higher the average, the better the parent/guardian experience.

(1) Not At All
(4) Quite

(2) Slightly
(5) Extremely

(3) Somewhat

Next to each bar chart are several key insights.

- **Average:** The mean of responses for the school/district is calculated by adding all parent/guardian responses for the question/domain and dividing by the total number of respondents (n).
- **% Positive:** The percent of positive responses (any parent/guardian who answered 4 or 5) are added together.
- **District Avg.:** The mean of responses for the entire district is calculated by adding all parent/guardian responses in the district and dividing by the total number of respondents in the district (n).
