

ARP ESSER PLAN

AMENDMENT

School Year 2023-24

Florence County School District Five is seeking input from all stakeholders regarding an amendment to the district's ARP ESSER Plan. School administrators are holding discussions with grade and subject level employees to evaluate the effectiveness of all aspects of the ARP ESSER Plan including academic tutors, after-school programs, technology services, facility needs and the software programs used to help boost student achievement and fill the learning gap caused by Covid. Based on input from these discussions, school administrators will relay feedback to district administrators to provide recommendations of which areas have proven to be most effective to increase socio-emotional and academic progress for all learners including children with disabilities, English learners, children experiencing homelessness, children in foster care, migratory students, and other underserved students. In addition, the district desires feedback from parents and students. As the district begins to evaluate the ARP ESSER Plan, we want to engage all stakeholders to provide input into the process as evaluation and amendments to the plan are formulated. Please contact Robin Altman by emailing any feedback to raltman@fsd5.org or by calling 843-386-2358. In addition, parents and students are welcome to provide feedback to individual schools through parent-teacher organizations and school improvement councils. The district welcomes all suggestions.
