Re: Brimfield High School BOE report for March 16, 2022

Sports Update

The Lady Indians state title run was nothing short of amazing. They were able to unite the community after the last few years have been especially challenging. Our baseball and softball seasons are off and running and both teams are poised for a very successful spring.

PD Focus

Our current focus from Dr. Rosa is feedback. We are focusing on improving our ability to scaffold questions to challenge all of our learners while providing descriptive feedback to further their learning.

Testing

The SAT will be April 13th. While juniors are taking the SAT, 9th and 10th grade students will be taking the PSAT. Seniors will remain at home. They are encouraged to take college visits if applicable. All juniors will take the Illinois Science Assessment on March 29th.

ELITE Students

Our February students of the month were recognized for their responsibility. Here are the winners: 9th Jillian Jones, 10th LI Higgs, 11th Ella Florey and 12th Levi Moon.

ELITE Staff

We honored Roberto Bernales and Amy Kepple as our most recent employees of the month. Bernie ensures that he stops in the office each morning to see if he can fill in or assist in anyway. Along with this, he guided the chess team to a state appearance and volunteered to ride the student fan bus on multiple occasions. Mrs. Kepple guided the scholastic bowl team to a regional championship! Her upbeat and positive attitude are always on display. Thank you to Roberto and Amy for everything you do.

#BElite

We are focused on being a better version of ourselves every day. That's what being ELITE is all about!

Re: Bushue Agreement

Board of Education,

In this month's packet, you will find a Client Service Guide from Bushue. In a district the size of ours, some of the services Bushue offers will benefit us a great deal. The following issues are among the items I believe Bushue can assist:

- FMLA Requests
- Unemployment Claims
- Job Descriptions
- Contract Negotiations
- Employee Handbooks
- Property and Casualty Insurance Review

Job descriptions and employee handbooks in our district have not been reviewed/created in some time. As we entering into negotiations imminently, a review of the Collective Bargaining Agreement would we appropriate and helpful. As mentioned at the December Board of Education meeting, Bushue would be able to assist with property and casualty insurance review. Additionally, Bushue's expertise in employment law would be extremely helpful in terms of money spent talking with the district attorney, money we can potentially save by utilizing Bushue.

This is a resource that will enhance the effectiveness of the district. I have researched and spoken with area superintendents who have given endorsements of Bushue regarding their professionalism, responsiveness, and quality of work.

It is my professional recommendation to enter into an agreement with Bushue.

Yours in Education,

Tony Shinall

Bushue HR, Inc. About us

Bushue HR, Inc. is an outsourced risk management company focused on Human Resources, Safety, Insurance (Commercial & Health Insurance), and Background Screening including fingerprinting.

Our venture into human resource consulting began in 1990 following completion of Steve Bushue's education at Eastern Illinois University when we were asked to develop an employee handbook for our first client. At the time, Steve was a human resource manager for a high quality commercial printing company. After further developing human resources and management skills, he moved on to be Director of Human Resources at a soft-drink bottling and distribution company. In February 1996, we ventured into what later becomes a successful human resource, safety, and insurance consulting business, Bushue HR, Inc. Today, we serve many businesses, school districts, colleges, municipalities, and non-profit clients.

In May of 1999, Travis Bushue joined the staff of Bushue HR, Inc. as a partner. He came to the company after graduating from Southern Illinois University Edwardsville. He brought with him extensive experience in recruitment for a major national telecommunications company and in sales for a major food service distributor.

In 2007 we began our journey into the background screening business and started Bushue Background Screening, which provides fingerprinting and background screening services.

We have enjoyed the opportunities to assist many clients in achieving their human resource, safety, insurance, fingerprinting and background screening consulting needs.

Our Commitment to You.....

From a small beginning, we have grown to become a leader in Human Resource, Safety, Insurance, Background Screening and Fingerprinting consulting services for businesses, organizations, and school districts in the Midwest.

We are committed to:

- Being professionals shown through our words, actions, and business practices.
- Selecting and training people with the core values to ensure our service commitment.
- Fairness and honesty in our business practices and ensuring confidentiality of client information.
- Continuous learning, openness to new ideas, and creativity in serving client needs.
- Excellence in service by being proactive and responsive to client needs and expectations.
- The health and welfare of our people, our families, our clients, our community, and our country.

Our focus is to be proactive and responsive to our client needs. As a new client, we want to ensure we meet your expectations. We begin by establishing a regular meeting scheduled at a convenient date and time. These meetings will focus initially on the critical needs of the school district. "Critical needs" are items that you may need addressed first, some examples might include open worker's compensation claims, accident reporting, unemployment claims or insurance bidding. Once we have those needs under control, we will focus on developing and establishing preventive and proactive programs to manage client risk.

Our staff is available during normal business hours, often; we are meeting with clients by phone or at their office. If we are not immediately available when you call, we encourage you to leave a message on voice mail or with another staff member or send us an email. We will respond immediately after assisting other clients. If we are out of the office, the voice mail notifies us of your call, and we will respond as soon as feasible. Our staff has multiple levels of experience and should be able to provide assistance if your desired contact is unavailable. As you hear all the hype about customer service today, it may sound like the normal cycle; however, we assure you the responsiveness from us will be prompt. You will be pleased with the service level; as our current clients have seen.

If you have any questions regarding our contact information or if you have any difficulties reaching us, please let us know. We try to serve all our clients in the most efficient and responsive manner, and we appreciate any recommendations you may have.

School District Retainer Program

Our comprehensive **School District Retainer Program** includes human resource, safety, and insurance consulting (property & casualty and health insurance) services. School Districts need additional resources and support necessary to manage the risk and compliance challenges involved with human resources, safety, and insurance. We have developed and are continually improving our programs as laws, regulations, and risks change. Our School District retainer program includes:

- ⇒ Regular Administrative Meetings
- ⇒ Phone and Online Support
- ⇒ Administrator/Staff Training

- ⇒ Forms & Procedures
- ⇒ Programs & Processes
- ⇒ Professional Expertise

BENEFITS

Key reasons to utilize the Retainer Program Services

- The services we provide are necessary for effective operation of School Districts.
- Many School Districts don't currently have the resources or knowledge to effectively address the risk management and compliance challenges in human resources, safety, and insurance.
- Even if a School District has some resources and knowledge internally or from other sources, we can provide at less cost than internal resources or other providers and are able to assist with proper integration.
- Many of our clients save enough in "cash" savings to pay for the investment, in addition to the "value" of the services provided.
- Our proactive management style, programs, and processes save money today in addition to alleviating future costs for your School District.
- Our strong relationships with many resources provides a comprehensive approach for clients.
- Our relationships with insurance carriers, and experience in human resources and safety provide the most proactive risk management process to assist School Districts in decreasing costs and managing risk.

Other Money Saving Opportunities

- Savings in purchases from other service providers (Examples include attorney fees, other consulting fees, insurance services, etc.) Keep in mind attorney services are still important for analysis, clarification, and litigation, our services focus on ensuring less risk from litigation, which provides a lot of savings (some of which you don't see since the lawsuit does not occur)
- Savings in the forms of purchases (we have many forms, policies, and procedures that our clients utilize) rather than purchasing from other vendors
- Training & workshop savings—Our retainer clients are able to participate in training at a discounted rate or no cost. Many of the employee training programs that we provide are required by law.
- Savings in insurance cost—Decreasing liability, worker's compensation and risk will save money directly. Additionally, many insurance carriers provide discounts to our clients that have implemented programs to decrease risk.
- Savings in internal costs We provide a lot of guidance and resources for administrators and staff, which allow their time to be used more effectively in other areas. We do not replace any current staff or work, just provide efficient resources that makes work easier and less time consuming
- Savings from services Savings in litigation costs, meet compliance requirements, decrease employee turnover, improve compensation & benefit programs, improve productivity through improved practices, a safer workplace and less liability through decreased risk and transfer of risk are just a few of the saving opportunities.

Background Screening Service Guide

Background Screening History...

Background Screening has been around for thousands of years. It originated in late B.C. and has been an ongoing phenomenon since. Throughout time, fingerprints have evolved from engraving stone and understanding the different ridges in the fingers to collecting prints on a fingerprint card. Not only has the process changed, but the FBI and Illinois State Police have updated their systems as well. Livescan fingerprint machines have been introduced and now the use of ink prints is in the past. Today, fingerprints are submitted electronically. This process is more reliable, convenient and the results are received faster.

School Districts are required to have any person involved with or present on school premises to have a criminal history records check.

Illinois School Code Requirements:

4:170 Safety

Safety and Security

All District operations, including the education program, shall be conducted in a manner that will promote the safety and security of everyone on District property or at a District event. The Superintendent or designee shall develop, implement, and maintain a comprehensive safety and security plan that includes, without limitation:

- 1. An emergency operations and crisis response plan(s) addressing prevention, preparation, response, and recovery for each school;
- 2. Provisions for a coordinated effort with local law enforcement and fire officials, emergency medical services personnel, and the Board Attorney;
- 3. A school safety drill plan;
- 4. Instruction in safe bus riding practices; and
- 5. A clear, rapid, factual, and coordinated system of internal and external communication.

In the event of an emergency that threatens the safety of any person or property, students and staff are encouraged to follow the best practices discussed for their building regarding the use of any available cellular telephones.

School Safety Drill Plan

During every academic year, each school building that houses school children shall conduct, at a minimum, each of the following in accordance with the School Safety Drill Act (105 ILCS 128/):

- Three school evacuation drills to address and prepare students and school personnel for fire
 incidents. One of these three drills shall require the participation of the local fire department or
 district.
- 2. One bus evacuation drill.
- 3. One severe weather and shelter-in-place drill to address and prepare students and school personnel for possible tornado incidents.
- 4. One law enforcement <u>lockdown</u> drill to address a school shooting incident and to evaluate the preparedness of school personnel and students. This lockdown drill to address a school shooting incident and to evaluate the preparedness of school personnel and students. <u>PRESSPlus1</u> This drill shall occur no later than 90 days after the first day of school of each year, and shall require the participation of all school personnel and students present at school at the time of the drill, except for those exempted by administrators, school support personnel, or a parent/guardian.

Annual Review

The Board or its designee will annually review each school building's emergency operations and crisis response plan(s), protocols, and procedures, as well as each building's compliance with the school 4:170

safety drill plan. This annual review shall be in accordance with the School Safety Drill Act (105 ILCS 128/) and the Joint Rules of the Office of the State Fire Marshal and the III. State Board of Education (ISBE). 29 III.Admin.Code Part 1500.

Automated External Defibrillator (AED)

The Superintendent or designee shall implement a written plan for responding to medical emergencies at the District's physical fitness facilities in accordance with the Fitness Facility Medical Emergency Preparedness Act and shall file a copy of the plan with the III. Dept. of Public Health (IDPH). The plan shall provide for at least one automated external defibrillator (AED) to be available at every physical fitness facility on the premises according to State law requirements.

The District shall have an AED on site as well as a trained AED user: (1) on staff during staffed business hours; and (2) available during activities or events sponsored and conducted or supervised by the District. The Superintendent or designee shall ensure that every AED on the District's premises is properly tested and maintained in accordance with rules developed by the IDPH. This policy does not create an obligation to use an AED.

Carbon Monoxide Alarms

The Superintendent or designee shall implement a plan with the District's local fire officials to:

- 1. Determine which school buildings to equip with approved *carbon monoxide alarms* or *carbon monoxide detectors*.
- Locate the required carbon monoxide alarms or carbon monoxide detectors within 20 feet of a carbon monoxide emitting device, and
- 3. Incorporate carbon monoxide alarm or detector activation procedures into each school building that requires a carbon monoxide alarm or detector. The Superintendent or designee shall ensure each school building annually reviews these procedures.

Unsafe School Choice Option

The unsafe school choice option provided in State law permits students to transfer to another school within the District in certain situations. This transfer option is unavailable in this District because each grade is in only one attendance center. A student, who would otherwise have qualified for the choice option, or such a student's parent/guardian, may request special accommodations from the Superintendent or designee.

Lead Testing in Water

The Superintendent or designee shall implement testing for lead in each source of drinking water in school buildings in accordance with the III. Plumbing License Law and guidance published by the IDPH. The Superintendent or designee shall notify parent(s)/guardian(s) about the sampling results from their children's respective school buildings.

Emergency Closing

The Superintendent is authorized to close school(s) in the event of hazardous weather or other emergency that threatens the safety of students, staff members, or school property.
