What Laurie likes about her job:

“I realized that I wanted to go into the dental field after a bad car accident I was in at 18 years old. I have never regretted my decision. Dental is my passion. I love being able to go into the school setting and teach children about how to take care of their teeth and why it is important. I love seeing “the light bulb” go on when I am talking to them, knowing that they get it!! “
