Counseling Updates

Counseling continues to meet with in-person and online students to establish students' Education and Career Action Plan (ECAPs). ECAPs are to help students better understand course requirements needed for graduation and plan for post-secondary goals. In planning post-secondary goals, students are encouraged to explore the many options afforded to them at MHS to help them reach those goals.

These discussions help guide students when planning next year's course requests. For more information on ECAPs or to access more resources for students, please visit our counseling website by clicking [HERE](#).
