The Governing Board shall fix the length of the school day in accordance with law. (Education Code 46100)

At each school, the length of the school day shall be the same for all students, except as otherwise permitted by law. For any student with a disability, the length of the school day shall be as specified in the student's individualized education program or Section 504 plan.

The daily schedule for elementary schools shall include at least one period of recess of at least 20 minutes, during which students shall be provided supervised opportunities to engage in unstructured physical activity.

In establishing the daily instructional schedule for each secondary school, the Superintendent or designee shall give consideration to course requirements and curricular demands, availability of school facilities, and applicable legal requirements.

The Board encourages flexibility in scheduling so as to provide longer time blocks or class periods when appropriate and desirable to support student learning, provide more intensive study of core academic subjects or extended exploration of complex topics, and reduce transition time between classes.

Prior to implementing a block or alternative schedule that will allow secondary students to attend school for fewer school days than the total number of school days for which the school is in session, the Board shall consult in good faith, in an effort to reach agreement with the certificated and classified employees of the school, parents/guardians of the students who would be affected by the change, and the community at large. Such consultation shall include at least one public hearing for which the Board shall give adequate notice to the employees and to the parents/guardians of affected students. (Education Code 46162)
